

## NOTICE TO AUTHORS

*American Antiquity* publishes original papers on the archaeology of the New World and on archaeological method, theory, and practice worldwide. Authors of papers on Latin American topics are encouraged to submit their work to *Latin American Antiquity*. Papers on Latin American archaeology addressing broad methodological, theoretical, or comparative issues may be accepted by either journal after consultation with the editors. Authors submit manuscripts to the editor for consideration as ARTICLES, REPORTS, COMMENTS, or FORUM essays. REVIEWS and BOOK NOTES are solicited by the respective associate editors. Effective July 1, 1996, OBITUARIES may be submitted to the editor, *SAA Bulletin*, for publication (see *SAA Bulletin* March/April 1996, p. 7, for further details).

Authors should submit an original and four copies of their manuscripts, including all figures, tables, references, and notes. Detailed information on policy, style, and technical matters of manuscript preparation is given in the "Editorial Policy, Information for Authors, and Style Guide for *American Antiquity* and *Latin American Antiquity*," which appeared in the October 1992 issue (57:749–770) and can be read on the World Wide Web at <http://www.saa.org/Publications/StyleGuide/styframe.html>.

The editor reserves the right to evaluate manuscripts (with or without peer review) for appropriate subject matter, quality, length, and compliance with the style guide. Manuscripts may be returned to authors if they fail to meet expectations or conform to these guidelines. Manuscripts are evaluated by the editor in consultation with peer referees, as appropriate. The editor has the final responsibility for all decisions regarding manuscripts. The review process generally takes a minimum of two to four months. Authors will be notified as soon as a decision is reached to accept (outright or with revisions) or reject a manuscript.

To ensure the prompt receipt and handling of manuscripts, please send them to the editor-designate (see below). Inquiries regarding the style guide and the production of the journal should be directed to: Janet Walker, Manager, Publications, Society for American Antiquity, 900 Second Street, N.E., Suite 12, Washington, DC 20002-3557.

## REVIEWS AND BOOK NOTES

*On the cover:* The cover shows objects from the Locarno Beach culture type—a basket of split cedar withes recovered from a wet site in the Fraser Delta of southwestern British Columbia and three views of a barbed bone point made from an elk, or wapiti (*Cervus elaphus*), cannon bone from another site nearby. The Locarno Beach phase dates from 3400 to 2500 B.P. and is the first Northwest Coast culture to rely extensively on stored salmon. The basket and stratigraphic drawing are by Kathryn Bernick, and the point was drawn by Susan Matson.
