Comparative Studies in Society and History is a forum for presentation and discussion of new research into problems of change and stability that recur in human societies through time or in the contemporary world. It sets up a working alliance between specialists in all branches of the social sciences and humanities. Debate and review articles bring the general reader in touch with current findings and issues.

NOTES FOR CONTRIBUTORS

Contributions may be descriptive, analytical or theoretical. Any article not in itself comparative may be accepted if it lends itself to comment that will place it in comparative perspective. Correspondence with the editors prior to the submission of articles will help to enable them to obtain such comment or a companion study. Emphasis in comparative studies may be either on similarities or, if these are significant enough and call for some recasting of generalisations, on differences. All contributions and editorial correspondence should be sent to the Editors, *Comparative Studies in Society and History*, Department of History, University of Michigan, Ann Arbor, Michigan 48104.

Two copies of each contribution, preferably accompanied by a stamped, addressed envelope, should be submitted. Both text and footnotes should be clearly typed with double spacing and wide margins; footnotes should appear on separate pages at the end of the article. Illustrations may be included by arrangement with the editors.

Contributors will receive 50 offprints bound in the journal covers. Any additional offprints must be ordered on receipt of the first proof.
