# THE ROYAL INSTITUTE OF NAVIGATION

## *Aims and Objects*

The objects of the Institute are to unite in one body those who are concerned with or who are interested in navigation and to further its development. Navigation is conceived as applying to locomotion of all kinds and is perceived as encompassing aspects of: command and control, psychology and zoology, operational research, risk analysis, theoretical physics, operation in hostile environments, instrumentation, ergonomics, financial planning and law as well as electronics, astronomy, mathematics, cartography and other subjects traditionally associated with navigation.

The aims of the Institute are to encourage the creation and dissemination of knowledge through research and development, to co-ordinate information from all the disciplines involved, to provide a forum in which new ideas and new products can have the benefit of informed and professional scrutiny and to further education and communication. The Institute initiates conferences and symposia on specific subjects and has a programme of meetings at which lectures are given and discussed. There are standing Special Interest Groups (SIGs), which keep under constant review pertinent aspects of navigation. The success of these Special Interest Groups is crucially dependent on the active involvement of members.

The SIGs include: Land Navigation and Location Group (LN&L), General Aviation Navigation Group (GANG), History of Air Navigation Group (HANG), Civil and Military Air Group (CMAG), Marine Traffic & Navigation Group (MT&NG), Small Craft Group (SCG), Space Group (Space), Animal Navigation Group (ANG) and Research & Development Group (R&D).

The Institute publishes *The Journal of Navigation* six times a year. It contains papers which have been presented at meetings, other original papers and selected papers and reports from Special Interest Groups. The Institute also publishes *Navigation News* six times a year which contains a full account of the Institute's proceedings and activities. This includes Branch News, a record of current navigational work, a diary of events, topical articles, news about Membership and advertising. A great deal of the Institute's work is international in character and is coordinated with that of similar organisations in other countries.

## *Membership*

There are nine classes of membership under which individuals or organisations may apply to join the Institute. Details of the various membership criteria and current subscriptions are available on the RIN website (Home / Join the RIN / Membership Types <http://www.rin.org.uk/general.aspx?ID=59>) and from the Membership Secretary (membership@rin.org.uk Tel: +44(0)20 7591 3130 Fax: 44(0)20 7591 3131).

- (1) Ordinary Membership
- (2) Associate Membership
- (3) Associate Fellow Membership
- (4) Student Membership
- (5) Junior Associate Membership
- (6) Corporate Membership
- (7) Small Business Membership
- (8) Affiliate College University Membership
- (9) Affiliate Club Membership

Additional membership classes of Fellowship, Honorary Fellowship, Retired Membership and Affiliate Membership also exist and details are available from the Membership Secretary.

The subscription price (excluding VAT) to *The Journal* (ISSN 0373-4633) for Volume 72, 2019, which includes print and electronic access, is £667 (USA, Canada and Mexico US \$1204) and includes delivery by air; single parts are available at £121 (USA, Canada and Mexico US \$218) plus postage. The electronic-only price available to institutional subscribers is £517 (USA, Canada and Mexico US \$942). EU subscribers (outside the UK) who are not registered for VAT should add VAT at their country's rate. VAT registered subscribers should provide their VAT registration number. The *Journal* is issued free to all Members of the Institute. Orders, which must be accompanied by payment, may be sent to any bookseller or subscription agent or direct to the publishers: Cambridge University Press, UPH, Shaftesbury Road, Cambridge CB2 8BS, or in the USA, Canada and Mexico to Cambridge University Press, Journals Fulfillment Department, 1 Liberty Plaza, Floor 20, New York, NY 10006, USA. Japanese prices for institutions are available from Kinokuniya Company Ltd, P.O. Box 55, Chitose, Tokyo 156, Japan.

This journal issue has been printed on FSC-certified paper and cover board. FSC is an independent, non-governmental, not-for-profit organization established to promote the responsible management of the world's forests. Please see [www.fsc.org](http://www.fsc.org) for information.

# THE JOURNAL OF NAVIGATION

VOLUME 72 • NUMBER 1 • JANUARY 2019

## CONTENTS

<b>Performance Assessment of Multi-GNSS Precise Velocity and Acceleration Determination over Antarctica</b>	1
<i>Min Li, Karl-Hans Neumayer, Frank Flechtner, Biao Lu, Christoph Förste, Kaifei He and Tianhe Xu</i>	
<b>Analysis on the Potential Performance of GPS and Galileo Precise Point Positioning using Simulated Real-Time Products</b>	19
<i>Francesco Basile, Terry Moore and Chris Hill</i>	
<b>Performance Evaluation of Kinematic BDS/GNSS Real-Time Precise Point Positioning for Maritime Positioning</b>	34
<i>Fuxin Yang, Lin Zhao, Liang Li, Shaojun Feng and Jianhua Cheng</i>	
<b>Specification and Design of Safety Functions for the Prevention of Ship-to-Ship Collisions on the High Seas</b>	53
<i>Reyes Poo Argüelles, Jesús A. García Maza and Felipe Mateos Martín</i>	
<b>Multicriteria Analysis Method for Evaluation of Vessel Simulation Models in Open Waters</b>	69
<i>Krzysztof Czaplewski and Piotr Zwolan</i>	
<b>Asynchronous WAM with Irregular Pulse Repetition</b>	85
<i>Jaroslav Sadowski and Jacek Stefanski</i>	
<b>A Dynamic Vector-Formed Information Sharing Algorithm Based on Two-State Chi Square Detection in an Adaptive Federated Filter</b>	101
<i>Jianxin Xu, Zhi Xiong, Jianye Liu and Rong Wang</i>	
<b>Improving Galileo's Carrier-Phase Time Transfer Based on Prior Constraint Information</b>	121
<i>Pengfei Zhang, Rui Tu, Yuping Gao, Na Liu and Rui Zhang</i>	
<b>Unambiguous Tracking Technique Based on Combined Correlation Functions for Sine BOC Signals</b>	140
<i>Tian Li, Zuping Tang, Jiaolong Wei, Zhihui Zhou and Boyi Wang</i>	
<b>Orbit Determination Using Pulsar Timing Data and Orientation Vector</b>	155
<i>Hua Zhang, Rong Jiao and Luping Xu</i>	
<b>Robust Ship Tracking via Multi-view Learning and Sparse Representation</b>	176
<i>Xinqiang Chen, Shengzheng Wang, Chaojian Shi, Huafeng Wu, Jiansen Zhao and Junjie Fu</i>	
<b>A Passive Acoustic Positioning Algorithm Based on Virtual Long Baseline Matrix Window</b>	193
<i>Tao Zhang, Ziqiang Wang, Yao Li and Jinwu Tong</i>	
<b>Vertical Obstacle Avoidance and Navigation of Autonomous Underwater Vehicles with <math>H_{\infty}</math> Controller and the Artificial Potential Field Method</b>	207
<i>Shun-Min Wang, Ming-Chung Fang and Cheng-Neng Hwang</i>	
<b>Optical Image Generation and High-precision Line-of-Sight Extraction for Mars Approach Navigation</b>	229
<i>Xiuqiang Jiang, Shuang Li, Long Gu, Jun Sun and Dongdong Xiao</i>	
<b>Optical Image Generation and High-precision Line-of-Sight Extraction for Mars Approach Navigation – CORRIGENDUM</b>	253
<i>Xiuqiang Jiang, Shuang Li, Long Gu, Jun Sun, and Dongdong Xiao</i>	
<b>Multi-Equal-Collision-Probability-Cure Method for Convex Polygon-shape Spacecraft Safe Proximity Manoeuvres – CORRIGENDUM</b>	255
<i>Wang Yi, Chen Xiaoqian, Ran Dechao, Ou Yangwei, Ni Qing and Bai Yuzhu</i>
