## TRANSACTIONS OF

## THE ROYAL SOCIETY OF EDINBURGH

## VOLUME 69, 1973-

6. A Re-examination of the Central Nervous System of Alderia modesta (Lovén). By T. Gascoigne, Alleyn's School, Dulwich, London. Communicated by Sir Maurice Yonge, C.B.E., F.R.S. (With 6 text-figures.)

(Issued January 31, 1974.)

7. Coral Reefs and Molluscs. By C. M. Yonge, P.R.S.E., Department of Zoology, University of Edinburgh. (With 3 plates and 10 text-figures.)

(Issued February 26, 1974.)

8. A Stratigraphical Revision of the Old Red Sandstone of North-eastern Caithness. By R. Nowell Donovan, Richard J. Foster and T. Stanley Westoll, F.R.S. (With 7 text-figures and 11 tables.)

(Issued March 28, 1974.)

9. On the Ecology and Sedimentation of the Cardium Shellsands and Transgressive Shellbanks of Traigh Mhor, Island of Barra, Outer Hebrides. By George E. Farrow. (With 8 plates, 19 text-figures and 2 tables.)

(Issued November 7, 1974.)

10. Triradioxylon—a New Genus of Lower Carboniferous Petrified Stems and Petioles together with a Review of the classification of Early Pterophytina. By P. D. W. Barnard and A. G. Long. (With 4 plates and 3 text-figures.)

(Issued March 21, 1975.)

11. Some Observations on the Fertile Parts of Zosterophyllum myretonianum Penhallow from the Lower Old Red Sandstone of Scotland. By Dianne Edwards. (With 2 plates and 2 text-figures.)

(Issued March 14, 1975.)

12. Further Observations on some Lower Carboniferous Seeds and Cupules. By A. G. Long. (With 6 plates, 6 text-figures and 7 tables.)

(Issued May 16, 1975.)

13. Zoning of Ore Deposits: Types and Causes. By H. L. Barnes. (With 3 text-figures and 8 tables.)

(Issued May 21, 1975.)

14. The Silurian Rocks bordering Kirkcudbright Bay, South Scotland. By C. M. Clarkson, G. Y. Craig and E. K. Walton. (With 6 text-figures and two tables.)

(Issued December 3, 1975.)

15. Calathopteris heterophylla, gen. et. sp. nov., a Lower Carboniferous Pteridosperm bearing Two Kinds of Petioles. By Albert G. Long. (With 2 plates and 4 text-figures.)

(Issued April 21, 1976.)

16. The Sensory Fields and Life Mode of Phacops rana (Green, 1832) (Trilobita). By John Miller, Grant Institute of Geology, University of Edinburgh. Communicated by Professor G. Y. Craig. (With 4 plates and 6 text-figures.)

(Issued April 28, 1976.)

Fellows of the Society purchasing publications for their own use will be allowed a special discount of 33½ per cent on the current prices (see Law XVI).
