Neuromotor performance in infants before and after early open-heart surgery and risk factors for delayed development at 6 months of age – ERRATUM

Miranda J. Campbell, Jenny M. Ziviani, Christian F. Stocker, Asaduzzaman Khan and Leanne Sakzewski

doi: 10.1017/S1047951118001622, Published by Cambridge University Press, 24 October 2018.

The original version of this manuscript was published with a corrupted Abstract and errors in the formatting of Table 2, impacting the reader's ability to correctly interpret the results. The corrupted Abstract contained repetition of results and incorrect metadata and has been amended. The formatting of Table 2 misaligned the Ages and Stages Questionnaire results, and has been corrected to align the results with corresponding categories.
