# WEED SCIENCE

*Published six times a year by the Weed Science Society of America*

William K. Vencill, *Editor*

The Weed Science Society of America publishes original research and scholarship in the form of peer-reviewed articles in three international journals. *Weed Science* is focused on understanding “why” phenomena occur in agricultural crops. As such, it focuses on fundamental research directly related to all aspects of weed science in agricultural systems. *Weed Technology* focuses on understanding “how” weeds are managed. As such, it is focused on more applied aspects concerning the management of weeds in agricultural systems. *Invasive Plant Science and Management* is a broad-based journal that focuses not only on fundamental and applied research on invasive plant biology, ecology, management, and restoration of invaded non-crop areas, but also on the many other aspects relevant to invasive species, including educational activities, policy issues, and case study reports. Topics for *Weed Science* include the biology and ecology of weeds in agricultural, forestry, aquatic, turf, recreational, rights-of-ways, and other settings; genetics of weeds and herbicide resistance; chemistry, biochemistry, physiology and molecular action of herbicides and plant growth regulators used to manage undesirable vegetation, and herbicide resistance; ecology of cropping and non-cropping systems as it relates to weed management; biological and ecological aspects of weed control tools including biological agents, herbicide resistant crops, etc.; effects of weed management on soil, air, and water. Symposia papers and reviews are accepted. Consult the editor for additional information.

## Associate Editors (Assignment Year)

**Muthukumar V Bagavathiannan**, Texas A&M, College Station, TX 77843 (2015)  
**Nicholas Basinger**, Department of Crop & Soil Sciences, University of Georgia, Athens, GA 30602 (2022)  
**Nathan Boyd**, University of Florida, Wimauma, FL 33598 (2021)  
**Caio Brunharo**, Department of Plant Science, Penn State University, University Park, PA 16801 (2022)  
**Ian Burke**, Washington State University, Pullman, WA 99164 (2019)  
**Carlene Chase**, Horticultural Sciences Department, University of Florida, Gainesville, FL 32611 (2016)  
**Bhagirath Singh Chauhan**, Queensland Alliance for Agriculture and Food Innovation (QAAFI), The University of Queensland, Queensland, Australia (2014)  
**Sharon Clay**, South Dakota State University Plant Science Department, Brookings, SD 57007 (2002)  
**Jose L. Gonzalez-Andujar**, CSIC: Consejo Superior de Investigaciones Científicas, Cordoba, Spain 14004 (2024)  
**Timothy Grey**, Department of Crop and Soil Science, University of Georgia, Tifton, GA 31793 (2009)  
**Prashant Jha**, Iowa State University, Ames, IA 50011 (2017)  
**Mithila Jugulam**, Kansas State University, Manhattan, KS 66506 (2019)  
**Vipin Kumar**, Kansas State University, Hays, KS 67601 (2020)  
**Gulshan Mahajan**, Punjab Agricultural University, Ludhiana, India 141004 (2022)  
**Sara Martin**, Ag Canada, Ottawa, Canada (2018)  
**Chris Preston**, Australian Weed Management, University of Adelaide, PMB1, Glen Osmond, SA 5064, Australia (2003)  
**Dean Riechers**, Department of Crop Sciences, University of Illinois, Urbana, IL 61801 (2011)  
**Hilary Sandler**, University of Massachusetts–Amherst Cranberry Station, East Wareham, MA 02538 (2008)  
**Debalin Sarangi**, University of Wyoming, Powell, WY 82435 (2020)  
**Patrick J. Tranel**, Department of Crop Sciences, University of Illinois, 360 ERML, Urbana, IL 61801 (2002)  
**Te-Ming Paul Tseng**, Mississippi State University, Mississippi State, MS 39762 (2019)  
**Martin M. Williams II**, USDA-ARS Global Change and Photosynthesis Research, Urbana, IL 61801 (2008)  
Tracy Candelaria, *Managing Editor*

## Officers of the Weed Science Society of America

<http://wssa.net/society/bod/>

*Weed Science* (ISSN 0043-1745) is an official publication of the Weed Science Society of America, 12011 Tejon Street, Suite 700, Westminster, CO 80234 (720-977-7940). It contains refereed papers describing the results of research that elucidates the nature of phenomena relating to all aspects of weeds and their control. It is published bimonthly, one volume per year, six issues per year beginning in January.

Membership includes online access to *Weed Science*, *Weed Technology*, *Invasive Plant Science and Management*, and the online *WSSA Newsletter*. Dues should be sent to WSSA, 12011 Tejon Street, Suite 700, Westminster, CO 80234 no later than December 1 of each year. Membership in the society is on a calendar-year basis only.

New subscriptions and renewals begin with the first issue of the current volume. Please visit the *Weed Science* subscription page at <https://www.cambridge.org/core/journals/weed-science/subscribe>; Email: [subscriptions\\_newyork@cambridge.org](mailto:subscriptions_newyork@cambridge.org) in USA, [journals@cambridge.org](mailto:journals@cambridge.org) outside USA.

*Weed Science* publishes six times a year in January, March, May, July, September, and November. Annual institutional electronic subscription rates: US \$440.00; UK £306.00.

Please use Editorial Manager to access manuscript submissions (<http://www.editorialmanager.com/ws>). Authors are asked to pay \$65 per page as a portion of the cost of publication, plus an additional processing charge of \$55 per manuscript if none of the authors are WSSA members. The Editor can make exceptions in advance when justified.

The Weed Science Society of America fully subscribes to the belief that progress in science depends upon the sharing of ideas, information, and materials among qualified investigators. Authors of papers published in *Weed Science* are therefore encouraged, whenever practicable and when state and federal laws permit, to share genotypically unique, propagative materials they might possess with other workers in the area who request such materials for the purpose of scientific research.

Journal of the Weed Science Society of America

Volume 72 Number 3 May 2024

## REVIEWS

- Advancements and developments in the detection and control of invasive weeds: a global review of the current challenges and future opportunities. *Jason Roberts and Singarayer Florentine*..... 205
- The potential of seaweeds as a rich natural source for novel bioherbicide formulation/development. *Onyedika C. Chukwuma, Shiau Pin Tan, Helen Hughes, Peter McLoughlin, Niall O'Toole and Nick McCarthy* ..... 216

## RESEARCH ARTICLES

- Confirmation and differential metabolism associated with quinclorac resistance in smooth crabgrass (*Digitaria ischaemum*). *Atikah D. Putri, Varsha Singh, Edicarlos B. de Castro, Claudia Ann Rutland, Joseph S. McElroy, Te-ming Tseng and James D. McCurdy* ..... 225
- Exploring sterile pollen technique as a novel tool for management of Palmer amaranth (*Amaranthus palmeri*). *Wenzhuo Wu and Mohsen B. Mesgaran*..... 234
- Germination responses of the invasive hedge cactus (*Cereus uruguayanus*) to environmental factors. *F. Dane Panetta, Shane Campbell, Simon Brooks, Dannielle Brazier and Bhagirath Singh Chauhan*..... 241
- Responses of soil seedbank and aboveground weed communities to globe artichoke–cropping systems: an on-farm analysis. *Aurelio Scavo, Alessia Restuccia, Alessandro Di Martino and Giovanni Mauromicale*..... 247
- Burial and subsequent growth of rigid ryegrass (*Lolium rigidum*) and ripgut brome (*Bromus diandrus*) following strategic deep tillage. *Catherine P.D. Berger, George Mwenda, Sarah J. Collins, Stephen L. Davies, Arslan Masood Peerzada and Andrew van Burgel* ..... 257
- Evaluation of critical weed-free period for three sweetpotato (*Ipomoea batatas*) cultivars. *Emmanuel G. Cooper, Stephen L. Meyers, Jeanine Arana, Katherine Jennings, Ashley Adair, Kevin D. Gibson and William G. Johnson* ..... 267
- Evaluation of organic options for Johnsongrass (*Sorghum halepense*) control during winter fallow. *Gustavo Camargo Silva, Jialin Yu, Leonard Herndon, Spencer Samuelson, Nithya Rajan and Muthukumar Bagavathiannan* ..... 275
- Elucidating waterhemp (*Amaranthus tuberculatus*) suppression from cereal rye cover crop biomass. *Jose J. Nunes, Nicholas J. Arneson, Damon Smith, Matt Ruark, Shawn Conley and Rodrigo Werle* ..... 284
- Dissipation of spring-applied methiozolin in turfgrass systems. *John M. Peppers, Ki-Hwan Hwang, Suk-Jin Koo and Shawn D. Askew* ..... 296
