A Guide to Cambridge Core

The home of academic content

cambridge.org/authorhub
1. Introduction
Cambridge Core is the online home of academic content from Cambridge University Press. Bringing together over 34,000 books and 370 journals on one platform covering 37 subjects, Cambridge Core is the place to go to find the latest research and academic information.

Visit: www.cambridge.org/core

2. Benefits of Cambridge Core
Designed following extensive market research, Cambridge Core succeeds in helping readers and researchers to make fast and easy journeys to a vast range of valuable content. By combining all books and journals on one clear and intuitive platform, discoverability has increased with usage going up by 25% compared to our previous platforms. Every piece of content on Cambridge Core has its own landing page including an extensive list of features to benefit the reader and author, and the fully responsive design means you can access Cambridge Core anytime, anywhere.

3. Getting started
Creating an account on Cambridge Core couldn’t be easier. Visit www.cambridge.org/core/register and fill in the simple form to get registered.
4

Metrics

Review live metrics of your article/book on Cambridge Core. Click on the metrics tab on the homepage of your article or book to see monthly usage split out by abstract, HTML (where available) and PDF views.
Altmetric

The Altmetric Attention Score is an indicator of attention (and in some cases, public engagement) and each colour of the badge is representative of a specific source.

You can find out where your paper has been shared or mentioned online by clicking on the badge under the Metrics tab on Cambridge Core.

Altmetric Attention Scores are available for journals, and will be added to books during 2017.

To learn more about Altmetrics please visit https://www.altmetric.com/about-altmetrics/what-are-altmetrics/.

Citation Tools

Cambridge Core works with Crossref to record where articles have been cited online in academic papers. Click on the Crossref logo to get a list of citations.
Search

As well as being much faster and more accurate, features of Cambridge Core’s search includes:

- **Facetted search:** the extensive facets on the left hand side of a search results page enable you to refine your search to your exact criteria, through: content you have access to; format; subject area; author name; keywords; publication date; journal name; society and publisher; collections and series.
- **US and UK English search terms:** Cambridge Core is designed to allow for cross searching between UK and US terms with both spelling variations.
- **Title match:** If the title of a journal, book, article or chapter is an exact match of the search term, this piece of content will appear at the top of the results.
- **Search within:** This functionality allows you to easily ‘search within’ any journal, book, series or subject area from their respective page.
Bookmarks
You can save searches and content to your bookmarks for easy access at a later date. Click on the bookmark icon to automatically save content to your account.

Access Levels
Clear access labels are on every page of content on Cambridge Core detailing what access level you have.

Core Reader
Cambridge Core Reader provides the distraction-free reading experience of PDF, whilst maintaining the benefits of HTML (where available) functionality. This new experience features easy access to contextualised figures, charts and tables, easy navigation with a collapsible side panel, clear and improved linking to supporting multimedia materials and improved links to references.
Subject Hubs

Cambridge Core has 37 subject hubs bringing together all books and journals published in that area. These hubs bring together all the latest content published within the particular subject as well as social media updates from the relevant Cambridge University Press channels.
