Education Resources for the Caribbean
Brighter Thinking drives the Cambridge Approach. Every day we talk to teachers and leading educational thinkers in Cambridge and around the world about how to make teaching and learning better. We share teachers’ ambitions to prepare students for success in life, both academically and personally.

This rich insight and our common goal informs the development of every new educational resource we publish. It makes Better Learning possible, enabling students to accelerate their learning and develop skills for life.

Our English
Lydia Kellas, Peter Lucantoni, Dian Morgan, Angela Lalla, John Bleau, Jo Kent and Peter A. Roberts

Our English is a series of four textbooks that provides a steady and thorough progression towards the CSEC® English examination. The course covers specific language skills, such as grammar, discussion, research, literary appreciation (with texts from both Caribbean and international sources), spelling and listening.

- Review units with additional exercises provide ample opportunities for revision and progress testing
- Includes fun activities with quizzes, interesting facts and word searches
- Each student’s book includes an audio CD with recordings of the key listening texts
- Teacher’s resource CD-ROMs provide classroom guidance and practical support

This exciting full-colour book supports students following the Human and Social Biology syllabus for the CSEC® examination.

- An appealing design presents concepts clearly

Coursebook 978-0-521-70115-0

Teacher’s Support CD-ROM 978-0-521-70349-9

Revision Guides for CSEC® Examinations: Sciences

Biology: Roland Soper, Eugenie Williams and Cheryl-Anne Gayle

Chemistry: Compton Mahase and Mark Morris

Physics: Peter Whiteley and Haydn Bassarath

- Written to help students gain a sound understanding of the main sciences examined by CXC®
- Each text presents all the information relevant to the particular CSEC® syllabus in a clear and concise way that helps students with revision

Biology 978-0-521-69295-3

Chemistry 978-0-521-69296-0

Physics 978-0-521-69294-6

Moles: A Survival Guide for Science

Keith Brown

- Helpful mole guides lead students through the book, helping them to understand the mole concept
- An invaluable resource for students taking the CSEC® Chemistry or Integrated Science courses

Paperback 978-0-521-42409-7
Information Technology for CSEC® Examinations

Third edition

Kelvin Skeete and Kyle Skeete

This full-colour edition provides coverage of the revised CSEC® Information Technology syllabus.

- In addition to Information Technology theory, problem solving and programming, the book teaches students essential practical skills using Microsoft Word®, Excel®, PowerPoint®, FrontPage® and Access®
- New section devoted to Pascal programming
- A clear, concise structure supports both classroom and independent study

Coursebook with CD-ROM 978-0-521-15327-0

Principles of Business for CSEC® Examinations

Davion Leslie and Kathleen Singh

This course provides complete coverage of the CSEC® syllabus, giving you a wide range of case studies from across the Caribbean.

- Contains a variety of questions and practice materials that encourage students to engage meaningfully with the content and reflect upon learning
- Provides clear explanations of business concepts with helpful end-of-section summaries for revision and a glossary of key business terms

Coursebook with CD-ROM 978-0-521-18957-6

Economics for CSEC® Examinations

Robert Greenwood, Terry Cook, Karen Radcliffe, Dave Ramsingh and Yvonne Harvey

Developed by experienced authors and Economics examiners, the book provides thorough coverage of the syllabus, with particular emphasis on preparing for the examination.

- Includes a school-based assessment component
- The CD-ROM contains multiple-choice questions

Coursebook with CD-ROM 978-0-521-70117-4

Electronic Document Preparation and Management for CSEC® Examinations

Kyle Skeete

Electronic Document Preparation and Management for CSEC® Examinations provides coverage of the revised CSEC® syllabus. It introduces computing fundamentals, electronic communication and keyboarding techniques.

- Teaches the Microsoft Office® (2003–2010) skills required for the course, plus document preparation, document management and ethics, school-based assessment tips and exam papers (with answers included on the CD-ROM)
- Progressive learning is supported by objectives at the start of each chapter and exercises and summaries at the end of each chapter
- Accompanying CD-ROM with extra resources including interactive revision questions, PowerPoint® presentations, tutorial videos, exercise files and a comprehensive glossary
- Labelled screen-shots provide a clear visual demonstration and guidance for students

Coursebook with CD-ROM 978-0-521-18467-0
RESOURCES FOR THE CARIBBEAN

Biology for CAPE® Examinations
Myda Ramesar, Mary Jones and Geoff Jones
Written by international best-selling author Mary Jones, and teacher and examiner Myda Ramesar, these two titles provide coverage of the CAPE® Biology syllabus.
• Worked examples help students develop their problem-solving skills
• A summary of key questions at the end of each chapter
• End-of-chapter questions in a range of formats, including multiple-choice, structured and essay questions to test understanding
• A glossary of biological terms

The Roots of Caribbean Identity: Language, Race and Ecology
Peter A. Roberts

The Roots of Caribbean Identity: Language, Race and Ecology presents a lucid account of a movement from a wholly European construction of Caribbean identity towards a more Caribbean one. It relates how the identity of the Caribbean region and the identities of the separate islands within the region were shaped.

- Suitable for CAPE® examinations
- Extensive use of historical resources
- Central themes include race, place and language, which are viewed as basic starting points for the construction of identity

Chike and the River
Chinua Achebe

West Indians and Their Language
Second edition
Peter A. Roberts

West Indians and Their Language concentrates on the varieties of language found in everyday West Indian society and it provides information about the historical sources of West Indian English. The book explores the difficulties of representing a predominantly oral culture in writing and examines the orthography used to represent spoken language.

- Recommended for CAPE® examinations
- Examines the various features of technology adapted by West Indians in methods of communication
- Includes a new section on language and the supernatural

English Basics

English Basics covers the ‘mechanics’ of English language and is for students who need to revise the general principles of English language and grammar.

- Each book offers a systematic work and study programme for use in the classroom or at home
- Aimed at students aged 9–14 years

CXC English
Peter Roberts

This comprehensive textbook is for students taking the CXC English examination.

- Each of the 24 units in the book contains objectives, guidance, stimulus material and a wide range of assignments
- Language work gives particular attention to spelling, vocabulary, punctuation and sentence composition
Academic Vocabulary in Use
Second edition

Academic Vocabulary in Use is the perfect study aid for anyone using English for their academic work. Ideal for students of any discipline, from engineers and social scientists to business students and lawyers, it covers all the key vocabulary found in academic textbooks, articles, lectures and seminars.

- Designed for students at good intermediate level and is also useful for those preparing for IELTS and university entrance examinations

**Cambridge Advanced Learner’s Dictionary**

Fourth edition
This Fourth edition is fully updated with clear definitions and prominent guidewords to help learners find the correct meaning quickly and easily.
- Clear definitions and hundreds of illustrations help learners identify variations in meaning
- 'Focus on writing' section helps learners develop their advanced writing skills
- 'Word partner' boxes show learners how to use words as a native speaker would

**Cambridge Essential English Dictionary**

Second edition
Using a learner’s dictionary for the first time can be daunting but the *Cambridge Essential English Dictionary* makes that first step easier for learners.
- With short definitions that are simple to understand, this book includes lots of example sentences to put the language into context
- Hundreds of illustrations and 16 pages of colour pictures aid vocabulary learning and make the book ideal for self-study

---

**A Concise History of the Caribbean**

B. W. Higman
A general history of the Caribbean islands from the beginning of human settlement around 7,000 years ago, to the present day.

**Civil Rights in America 1865–1980**

Ron Field
One of the theme texts in the Cambridge Perspectives in History series, this book is a comprehensive survey of the history of civil rights in America, with illustrated and primary sources.

**The European Dictatorships: Hitler, Stalin, Mussolini**

Allan Todd
Provides a succinct account of the rise to power of Hitler, Mussolini and Stalin and assesses the impact that they had on the states they governed.

---

**ADDITIONAL RESOURCES | ENGLISH | HISTORY**

**A Concise History of the Caribbean**
B. W. Higman
A general history of the Caribbean islands from the beginning of human settlement around 7,000 years ago, to the present day.

**Civil Rights in America 1865–1980**
Ron Field
One of the theme texts in the Cambridge Perspectives in History series, this book is a comprehensive survey of the history of civil rights in America, with illustrated and primary sources.

Liberties Lost: Caribbean Indigenous Societies and Slave Systems
Hilary McD Beckles and Verene A Shepherd
Covers the entire History syllabus offered by the CXC®, including the CAPE® syllabus in Caribbean/Atlantic history.

Freedoms Won: Emancipations, Ethnicities and Nationhood
Hilary McD Beckles and Verene A Shepherd
Essential reading for students and teachers following courses on the history of the Caribbean.

African Peoples of the Americas
Ron Field
An accessible introduction to the following themes: the African past; the fight for freedom 1699–1865; and the struggle for equality 1865–1920.

A History of Barbados
Second Edition
Hilary McD Beckles
Presents new insights and analyses key events in a lucid and provocative style that appeals to all those who have an interest in the island’s past and present.

Philosophy: Themes and Thinkers
J W Phelan
Philosophy: Themes and Thinkers covers key philosophical concepts, themes and philosophy texts; it is an excellent introductory text for undergraduates. Students will develop the ability to analyse and assess philosophical writings, form their own judgment and contribute effectively to the process of debate.

An Introduction to Africana Philosophy
Lewis R Gordon
Suitable for CAPE® examinations, An Introduction to Africana Philosophy explores the challenges posed to our understanding of knowledge and freedom today.
Critical Thinking: An Introduction
Second edition
Alec Fisher
This stimulating coursebook develops critical thinking skills - the ability to interpret, analyse and evaluate ideas and arguments.

Thinking through Philosophy: An Introduction
Chris Horner and Emrys Westacott
Thinking through Philosophy provides a clear and accessible introduction to key philosophical issues.

• Challenges and stimulates the reader to think beyond the conventional answers to fundamental questions

Fortissimo!
Roy Bennett
Fortissimo! is a complete music course that provides all the support needed to teach music to 14-16 year-olds. The material covers a wide variety of music from the 13th century to the 1990s and provides the chance to study musical styles and instruments from a variety of cultures.

• Structures and concepts are explored while offering opportunities to use and develop practical and aural skills
• Double-page colour spreads display visual stimulus material to spark original ideas for composing and improvising
• The student’s book is accompanied by a teacher’s resource book and audio CDs

Music Dictionary
Roy Bennett
Music Dictionary is a practical reference book for all music students.

• Includes 3,500 entries that provide information on musical works, technical and foreign music terms, musical forms and instruments

The Cambridge Guide to African and Caribbean Theatre
Martin Banham, Errol Hill and George Woodyard
This book is an exploration of the rich diversity of theatrical traditions in sub-Saharan Africa and the Caribbean.
