

WHAT SHOULD I DO FOR IT?

AudioScript

B

Listen to the conversations. Number the pictures from 1 to 3.

1.

Vince: Which one hurts? The left or the right one?

Pablo: The left one. It's really painful. I can hardly hear with it.

Vince: I guess you got something in it at the swimming pool.

Pablo: I guess so.

Vince: Well, you should keep it dry. And don't go to the pool for a few days.

Pablo: Maybe I should get something from the drugstore.

Vince: Good idea. You should get some drops, and if it doesn't get better in a few days, you should see the doctor.

2.

Linda: What happened to you? That looks really painful!

Kenji: It is. I was cooking and I spilled some hot oil on it.

Linda: Ouch!

Kenji: I didn't know what to do.

Linda: Well, when that happens, it's important to put it in cold water.

Kenji: Someone said it's a good idea to put ice on it.

Linda: Don't do that! And it's a good idea to keep it clean. You should cover it with a bandage.

3.

Jung-soo: What happened? Are you in pain?

Lisa: Yes, I am. I can hardly move. I helped a friend move yesterday, and I think I hurt it.

Jung-soo: Why not take a day off from school? And don't lift anything heavy or move around too much.

Lisa: I guess I shouldn't go to the gym.

Jung-soo: No way! That'll make it worse. If it's not better tomorrow, I think you should see the doctor.

C

Listen again. What advice does each person get? Check the answers.

Answers

A

Answers will vary. Some possible answers:

a burn: put some ointment or lotion on it; go to the doctor

an earache: don't go swimming; see a doctor

a sore back: don't lift any weights; don't sit for too long

B

2, 1, 3

C

1. a 2. a, c 3. a, c

D

Answers will vary. Some possible answers:

itchy eyes: put some drops in; wash them with cold water

the hiccups: drink water; hold your breath

WHAT SHOULD I DO FOR IT?

A PAIR WORK Look at the pictures. Give two pieces of advice for each problem.

a burn

an earache

a sore back

B Listen to the conversations. Number the pictures from 1 to 3.

C Listen again. What advice does each person get? Check (✓) the answers.

1. a. Don't let it get wet.
 b. Get some rest.
 c. See the doctor today.
2. a. Put it in cold water.
 b. Put some ice on it.
 c. Cover it with a bandage.
3. a. Don't go to school today.
 b. Lift light weights at the gym.
 c. See the doctor tomorrow.

D Add a health problem to the chart. Go around the room and get advice from different classmates. Then compare with a partner. Choose the best advice for each problem.
