| Water freezes at: | 0°C | 32°F |
| Normal human body temperature is: | 37°C | 98.6°F |
| Recommended thermostat setting for indoor comfort is: | 20°C | 68°F |

Canadian Usage Notes

- Weather temperatures are always reported in Celsius degrees.
- Personal thermometers show both Celsius and Fahrenheit scales.
- Easy to remember equivalencies are:
 - 16°C equals 61°F
 - 28°C equals 82°F
 - 40°C equals -40°F (This is the only time Celsius and Fahrenheit are the same)
