

Due to a minor technical issue that occurs with certain computer and printer combinations, some *Ventures* Teacher's Toolkit users may experience difficulty printing the PDFs. These users need to activate the **discolored background correction** setting in Adobe Reader.

To do this, follow these steps:

1. Open the desired PDF using Adobe Reader.
2. Click **File** and then **Print** from the drop-down menu at the top left corner of your screen. Make any changes to the printing range, number of copies, and any other printing preferences before proceeding. Then click the **Advanced** button located in the bottom left of the print dialog screen:

3. On the **Advanced Print Setup** menu, click the box next to **Discolored background correction**. A check will appear.

4. Click **OK** to return to the print dialog screen.

5. Click **OK** on the print dialog screen to print the PDF.
