British Journal of Nutrition

Volume 119, 2018 ISSN: 0007-1145

Aims and Scope

The British Journal of Nutrition is an international, peer-reviewed journal publishing original papers, review articles, short communications and technical notes on human and animal nutrition. Correspondence is encouraged in a Nutrition Discussion Forum. The Journal recognises the multidisciplinary nature of nutritional science and encourages the submission of material from all of the specialties involved in research and clinical practice. The Journal also publishes supplements on topics of particular interest.

The British Journal of Nutrition is published twice monthly by Cambridge University Press on behalf of The Nutrition Society.

The British Journal of Nutrition is available online to subscribers at journals.cambridge.org/bjn

Tables of contents and abstracts are available free at the same website.

Editor-in-Chief

G C Brude, University of East Anglia, UK

Deputy Editors

J B Anderson, University of North Carolina, USA
A J Beulens, University of Leuven, Belgium
D Hadfield, Edith Cowan University, Australia
D F Hendrie, University of Reading, UK
D M McNeil, Texas A&M University, USA
S M Michan, University of East Anglia, UK
S D Pirie, University of Aberdeen, Scotland
W A Russ, Research Centre, Canada
E Bush, Australian National University, Australia
R Thompson, University of Reading, UK
B Topping, Cambridge University, UK

Reviews and Honorary Editors

R Beilin, University of Sydney, Australia
M Yaski, Hebrew University, Jerusalem, Israel

Supplements Editors

M McKinley, Queen’s University, Belfast, UK

Statistics Editors

T Bailey, Duke University, USA
S Barnett, University of Southampton, UK
M Colburn, University of South Africa, South Africa
D Crouse, University of Southampton, UK
R de Lusignan, National University of Ireland, Ireland
K Mills, Monash Medical Centre, Australia
E Ridley, Royal Victoria Hospital, Canada
D L Zhang, China University
W Qua, Brigham & Women’s Hospital, USA
C Ritz, University of Copenhagen, Denmark
D Saunders, CSIRO, Australia
M Sand, Nobel Institute, Stockholm, Sweden
C van, Harvard Medical School of Public Health, USA

Editorial Board

K Eriksson, University of California, Davis, USA
J Fabre, Institut National de la Recherche Agronomique, France
A K Hash, University of Otago, New Zealand
T HILL, University of Saskatchewan, Canada
J HREMELJ, University of Ljubljana, Slovenia
M Krassig, Hannover University, Germany
M Kucera, Charles University, Czech Republic
G Laplante, Agriculture and Agri-Food Canada, Canada
C Lutgen, University of Copenhagen, Denmark
M LUEBY, University of Bern, Switzerland
D MULAY, Cornell University, USA
F Nuñez, Northeastern University, USA
C MULLER, University of South Western Australia, Australia
M MURTAHON, National Institute of Health and Nutrition, Japan
V Watanakunakorn, University of Iowa, USA
M Hui, University of Sydney, Australia
K MUTAI, University of Tokyo, Japan

A Rubi, University of the Basque Country, Spain
E Ruberto, University of Rome, Italy
P Sacks, University of Stirling, UK
M SANTOS, University of Cordoba, Spain
P SAUNDERS, Deakin University, Australia
J SELMAN, University of Oslo, Norway
S SMITH, University of Manchester, UK
S STRONG, University of Queensland, Australia
D THOMPSON, University of Otago, New Zealand
C VAN, Harvard Medical School of Public Health, USA

US POSTMASTERS: please send address corrections to British Journal of Nutrition, Cambridge University Press, 1 Liberty Plaza, Floor 20, New York, NY 10006, USA.

Directions to Contributors are available from the Society at the address below or can be found on the Society’s website at http://www.nutritionsoociety.org.

Offprints: The author (or main author) of an accepted paper will receive a copy of the PDF file of their article. There will be an option to purchase paper offprints, these should be ordered at proof stage. No page charges are levied by this journal.

Copyright: As of 1 July 2000 the copyright of all articles submitted to British Journal of Nutrition is retained by the authors or their institutions. For articles prior to this date permission for reproduction of any part of the journal (text, figures, tables or other matter) in any form (on paper, microfiche or electronically) should be sought directly from the Society, at: The Publications Office, The Nutrition Society, 10 Cambridge Court, 210 Shepherds Bush Road, Hammersmith, London W6 7NJ, UK.

Disclaimer: The information contained herein, including any expression of opinion or any projection or forecast, has been obtained from or is based upon sources believed by us to be reliable, but is not guaranteed as to accuracy or completeness. The information is supplied without obligation and on the understanding that any person who acts upon it or otherwise changes his position in reliance thereon does so entirely at his own risk. Neither the Society nor Cambridge University Press accepts responsibility for any trade advertisement included in this publication.

This journal is printed on acid-free paper from renewable sources. Printed in the UK by Bell & Bain Ltd., Glasgow.

Invited Commentary

Invited commentary in response to: ‘Identification of vitamin B₁₂ deficiency in vegetarians and vegans’

L. Hannibal

Metabolism and Metabolic Studies

Starch synthase IIIa and starch branching enzyme IIb-deficient mutant rice line ameliorates pancreatic insulin secretion and evaluating mutant rice lines with antidiabetic functionalities

Early changes in fructose aryl acid metabolism and nutrient aincidence in rats fed a high-fat diet: evidence from natural isotope abundances of stigmasterol and carbon in tissue proteins

Development Biology

Early effects on the intestinal barrier and pancreatic function after oral stimulation with proteinase or kidney bean lectin in neonatal rats

E. A. Sureda, O. Prykhodko, B. Weström

Nutritional Endocrinology

Is there any difference between the iodine statuses of breast-fed and formula-fed infants and their mothers in an area with iodine sufficiency?

P. Nazeri, H. Dalili, Y. Mehrabi, M. Hedayati, P. Mirmiran, F. Azizi

Nutritional Immunology

Medium-chain TAG improve intestinal integrity by suppressing toll-like receptor 4, nucleotide-binding oligomerisation domain proteins and necroptosis signalling in weanling piglets challenged with lipopolysaccharide

Behaviour, Appetite and Obesity

The efficacy of daily snack replacement with oligofructose-enriched granola bars in overweight and obese adults: a 12-week randomised controlled trial

R. Pol, C. de Graaf, D. Meyer, M. Mars
