Subscriptions. Journal of the Institute of Mathematics of Jussieu (ISSN 1474-7480) is published in February, April, June, September and November. Five parts form a volume. The subscription price which includes electronic access of volume 17 (2018) (including postage) is £426 net (USA, Canada and Mexico US$755). Prices include delivery by air where appropriate. Single parts cost £95 (USA, Canada and Mexico US$172) plus postage. The electronic-only price available to institutional subscribers is £369 (US$60 in USA, Canada and Mexico). The print-only price available to institutional subscribers is £413 (US$74 in USA, Canada and Mexico).

Orders, which must be accompanied by payment, may be sent to any bookseller, subscription agent or direct to the publisher: Cambridge University Press, Journals Fulfilment Department, UPH, Shaftsbury Road, Cambridge CB2 8BS, UK, or in the USA, Canada and Mexico. Cambridge University Press, Journals Fulfilment Department, 1 Liberty Plaza, Floor 20, New York, NY 10006, USA. EU subscribers (outside the UK) who are not registered for VAT should add VAT at their country's rate. VAT registered subscribers should provide their VAT registration number. Japanese prices for institutions are available from Kinokuniya Company Ltd., P.O. Box 186, Chitose, Tokyo 156, Japan.

Copying. This journal is registered with the Copyright Clearance Center, 222 Rosewood Drive, Danvers, MA 01923, USA. Organisations in the USA who are also registered with C.C.C. may therefore copy material (beyond the limits permitted by sections 107 and 108 of U.S. Copyright law) subject to payment to C.C.C. of the per-copy fee of $16.00. This consent does not extend to multiple copying for promotional or commercial purposes. Code 1474-7480/18 $16.00.

Copying is also available for institutions not registered for VAT from ISJ Tear Sheet Service, 3501 Market Street, Philadelphia, PA 19104, USA, to authorise supplies of single copies of separate articles for private use only.

Organizations authorized by the Copyright Licensing Agency may also copy material subject to the usual conditions.

For all other use, permission should be sought from Cambridge University Press.

For further information on Journal of the Institute of Mathematics of Jussieu or other Cambridge titles access www.journals.cambridge.org or www.cambridge.org.

This journal issue has been printed on FSC-certified paper and cover board. FSC is an independent, non-governmental, not-for-profit organization established to promote the responsible management of the world's forests. Please see www.fsc.org for information.

Instructions for contributors

JOURNAL OF THE INSTITUTE OF MATHEMATICS OF JUSSIEU

Editorial policy

The Journal of the Institute of Mathematics of Jussieu publishes original research papers in any branch of pure mathematics; papers in logic and applied mathematics will also be considered, particularly when they have direct connections with pure mathematics. Its policy is to feature a wide variety of research areas and it welcomes the submission of papers from all parts of the world. Selection for publication is on the basis of reports from specialist referees commissioned by the Editors.

Submission of manuscripts

Manuscripts should be submitted via the website: http://mc.manuscriptcentral.com/jimj

Submission of a paper is taken to imply that it has not been previously published and that it is not being considered for publication elsewhere. Authors of articles published in the journal assign copyright to Cambridge University Press [with certain rights reserved], and authors will receive a copyright assignment form or signature on acceptance of the paper.

Layout of manuscripts

Insofar as possible, papers should be in some form of \text{T\TeX}, preferably \text{L\ATEX}. Papers must begin with an abstract of not more than 200 words, and should list from three to six keywords and at least one 2010 Mathematics Subject Classification number.

Authors are reminded that they should retain a copy of anything submitted for publication since neither the Journal nor the publisher can accept liability for any loss.

References

References should be placed at the end of the paper, arranged and numbered in alphabetical order of the authors' names. Titles of journals should be abbreviated as in Mathematical Reviews. In the text, reference numbers should be enclosed in square brackets to distinguish them from formula numbers, which should be quoted in round brackets.

Proofreading

Prior to publication, authors will receive a set of proofs. For papers with more than one author the proofs are sent to the first named author unless the Editor receives other instructions. Authors are asked to correct and return proofs promptly. Typographical or factual errors only may be changed at proof stage. The publisher reserves the right to charge authors for excessive corrections of non-typographical errors. No page charge is made.

Offprints

No paper offprints are provided, but the corresponding author will be sent the pdf of the published article. Print offprints may be purchased at extra cost at proof stage.
contents

241 Polish models and sofic entropy
Ben Hayes

277 Images of quantum representations of mapping class groups and Dupont–Guichardet–Wigner quasi-homomorphisms
Louis Funar and Wolfgang Pitsch

305 Pinning on a defect line: characterization of marginal disorder relevance and sharp asymptotics for the critical point shift
Quentin Berger and Hubert Lacoin

347 Perverse motives and graded derived category O
Wolfgang Soergel and Matthias Wendt

397 Joseph ideals and lisse minimal W-algebras
Tomoyuki Arakawa and Anne Moreau

419 Superficial fibres of generic projections
Ziv Ran

425 L-indistinguishability on eigenvarieties
Judith Ludwig

441 Solvable Lie groups definable in o-minimal theories
Annalisa Conversano, Alf Onshuus and Sergei Starchenko

453 Adjoint functors between categories of Hilbert C*-modules
Pierre Clare, Tyrone Crisp and Nigel Higson
