Review Article
The role of dietary coconut for the prevention and treatment of Alzheimer’s disease: potential mechanisms of action.
1–14

Molecular Nutrition
Favourable effects of grape seed extract on intestinal epithelial differentiation and barrier function in IL10-deficient mice.
G. Yang, Y. Xue, H. Zhang, M. Du & M.-J. Zhu
15–23

Metabolism and Metabolic Studies
Dietary ratio of animal:plant protein is associated with 24-h urinary iodine excretion in healthy school children.
G. Montenegro-Bethancourt, S. A. Johner, P. Stehle & T. Remer
24–33

Nutritional Endocrinology
Resistant maltodextrin promotes fasting glucagon-like peptide-1 secretion and production together with glucose tolerance in rats.
T. Hira, A. Ikee, Y. Kishimoto, S. Kanahori & H. Hara
34–42

Nutritional Immunology
Influence of fish oil supplementation and strength training on some functional aspects of immune cells in healthy elderly women.
43–52

Postnatal nutritional restriction affects growth and immune function of piglets with intra-uterine growth restriction.
L. Hu, Y. Liu, C. Yan, X. Peng, Q. Xu, Y. Xuan, F. Han, G. Tian, Z. Fang, Y. Lin, S. Xu, K. Zhang, D. Chen, D. Wu & L. Che
53–62

Microbiology
Lipid hydrolysis products affect the composition of infant gut microbial communities in vitro.
63–74

Human and Clinical Nutrition
Secoiridoids delivered as olive leaf extract induce acute improvements in human vascular function and reduction of an inflammatory cytokine: a randomised, double-blind, placebo-controlled, cross-over trial.
S. Lockyer, G. Corona, P. Yaqoob, J. P. E. Spencer & I. Rowland
75–83

Awareness of folic acid use increases its consumption, and reduces the risk of spina bifida.
A. Kondo, N. Morota, H. Date, K. Yoshifuji, T. Morishima, M. Miyazato, R. Shirane, H. Sakai, K. H. Pooh & T. Watanabe
84–90

Corrigendum
Potent anti-obesity effect of enteric-coated lactoferrin: decrease in visceral fat accumulation in Japanese men and women with abdominal obesity after 8-week administration of enteric-coated lactoferrin tablets – CORRIGENDUM.
T. Ono, M. Murakoshi, N. Suzuki, N. Iida, M. Ohdera, M. Iigo, T. Yoshida, K. Sugiyama & H. Nishino

Published online by Cambridge University Press
The British Journal of Nutrition is an international, peer-reviewed journal publishing original papers, review articles, short communications and technical notes on human and clinical nutrition, animal nutrition and basic science as applied to nutrition. Correspondence is encouraged in a Nutrition Discussion Forum. The Journal recognizes the multidisciplinary nature of nutritional science and encourages the submission of material from all of the specialties involved in research and clinical practice. The Journal also publishes supplements on topics of particular interest.

The British Journal of Nutrition is published twice monthly by Cambridge University Press on behalf of The Nutrition Society. The British Journal of Nutrition is available online to subscribers at journals.cambridge.org/bjn

Tables of contents and abstracts are available free at the same website.
