TEACHING JAPANESE POPULAR CULTURE
Edited by Deborah Shamous and Chris McMorran

Interest in Japanese popular culture is high among students at all levels, driving enrollment in Japanese Studies programs. However, there has been little reflection on the pedagogy of teaching Japanese popular culture. Now is the time for critical reflection on teaching practices related to teaching about and with Japanese popular culture. This volume encompasses theoretical engagement with pedagogy of popular culture as well as practical considerations of curriculum design, lesson planning, assessment, and student outcomes. While the main focus is undergraduate teaching, there is also discussion of K–12 teaching, with authors discussing their experiences teaching Japanese popular culture not only in North America, but also in Australia, Germany, Singapore, and Japan, both in Japanese-language and English-language institutions.

“ASIA SHORTS” is a new book series—intermediate in length between a journal article and a scholarly monograph—to be published by the Association for Asian Studies (AAS).

With approximately 7,000 members worldwide, representing all the regions and countries of Asia and all academic disciplines, the AAS is the largest organization of its kind.

“ASIA SHORTS” will offer concise, engagingly-written titles written by highly-qualified authors on topics of significance in Asian studies. Topics are intended to be substantive, generate discussion and debate within the field, and attract interest beyond it.

The AAS is exploring new ways of making rigorous, timely, and accessible work by scholars in the field available to a wide audience of informed readers. This new series will complement and leverage the success of the pedagogically-oriented AAS series, “Key Issues in Asian Studies” and will be designed to engage broad audiences with up-to-date scholarship on important topics in Asian studies.

“ASIA SHORTS” books will:

- Have a target word count between 35,000 and 75,000 words.
- Have a clear point of view, a well-defined, and even provocative argument rooted in a strong base of evidence and current scholarship.
- Be written in an accessible, jargon-free style suitable for non-specialist audiences.
- Be written by a single author or a small group of authors (as opposed to edited collections) by scholars and occasionally journalists or policymakers.
- Be rigorously peer reviewed.
- Be clearly differentiated from the AAS “Key Issues in Asian Studies” series in that “Asia Shorts” titles will: (1) not be specifically targeted for classroom use; (2) not be general introductions aimed at providing objective survey coverage like a typical textbook; and (3) not be pedagogical in focus.
- Be available in multiple formats (ebook and print) and priced at a level that is competitive in the marketplace.

To ensure timeliness of content in the series, the target timeline from acceptance of a manuscript (after initial evaluation and peer review) to publication will be 6-9 months.

For further information, consult the “ASIA SHORTS” author guidelines on the AAS website at http://www.asian-studies.org/Publications/ASIA-Shorts.

To discuss a proposal, contact the series editor, Bill Tsutsui, at tsutsui@hendrix.edu.

TEACHING JAPANESE POPULAR CULTURE
Edited by Deborah Shamoons and Chris McMorran

“This pioneering collection on the pedagogy of Japanese pop offers practical advice as well as theoretical reflections on the opportunities and challenges of teaching with (and about) Japan’s globalized media products. Instructors at all levels (from K-12 through university) and in all disciplines (including language teachers) will find this volume timely, stimulating, and thoroughly useful.”

— William M. Tsutsui, Hendrix College

“Two decades since ‘cool Japan’ began to attract widespread interest in the university classroom, resources on the teaching of Japan’s popular culture remain scarce. This outstanding collection does much to fill this gap, offering insightful, hands-on approaches to help students engage critically with pop culture materials.”

Teachers will appreciate Huffman’s ability to raise key issues of analysis and interpretation, and students will appreciate his ability to discuss them with clear and lively prose.”
