About IPA
The International Psychogeriatric Association (IPA), founded in 1982 and representing members in more than 50 countries, is a unique and diverse professional healthcare community promoting better geriatric mental health – across disciplines, across borders, and across geriatric issues. Psychiatrists, scientists, neurologists, geriatricians, primary care physicians, epidemiologists, nurses, psychologists, occupational therapists, social workers, and many other healthcare professionals come to the IPA community from all around the world to discuss, learn, share and research information about behavioral and biological aspects of geriatric mental health. IPA promotes research and education, facilitates an international exchange of ideas, and fosters cross-cultural understanding of the latest developments in the field.

IPA Membership
The International Psychogeriatric Association (IPA) encourages professionals from all backgrounds related to geriatric mental health to join our healthcare community. Here are some of the many benefits of joining IPA:

- Unique opportunities to interact with colleagues around the world how share an interest in advancing research, education, and theory about mental health care in older adults.
- Valuable discounts on participation in education and scientific meetings which reflect the full spectrum of disciplines related to psychogeriatrics. Reduced registration rates for the annual IPA International Congress and IPA Regional Meetings are included.
- Relevant publication on updates in the field, including International Psychogeriatrics, IPA’s peer reviewed journal which publishes twelve issues per year and additional special-focus supplements.
- Access to online educational materials and The IPA Complete Guides to Behavioral and Psychological Symptoms of Dementia (BPSD).
- Subscription to the IPA Bulletin, IPA’s newsletter which features articles on advances in the field and information on upcoming programs around the world.
- Participation in the IPA Member Forums – smaller member groups which enable members to connect with one another and collaborate on research and clinical care practices. These forums reflect the diversity of interests within geriatric mental health.

How to Join
To learn more about IPA and become a member, please visit our website: www.ipa-online.org. IPA offers a one-year membership for $160 USD. One-year student or retired memberships are available for $99 USD. A limited number of Lifetime Memberships are also available for $1000 USD. The IPA Secretariat is available to answer any questions you may have about IPA or membership. Please contact us at +1 414 918 9889 or by email at info@ipa-online.org.

The new IPA International Virtual Journal Club (VJC) offers a virtual approach to the time honored tradition of medical Journal Clubs. The VJC will highlight top research in the field, providing a platform for researchers around the world to discuss their work with a community interested in advancing “Better Mental Health for Older People.” This will be an amazing opportunity for physicians, faculty, residents, fellows, students, and all health care practitioners to meet, interact, learn together, and network with global leaders and colleagues in the field.

SAVE THE DATES - 2021-2022 Academic Year:

13 October 2021 See Local Time
Dr. Jeffrey Cummings will present the inaugural paper about a topic currently receiving a lot of press: Aducanumab. 
Click here to Register - need link!

15 November 2021 See Local Time
Program and Registration information coming soon.

8 February 2022 See Local Time
Program and Registration information coming soon.

12 May 2022 See Local Time
Program and Registration information coming soon.

The 2021 IPA Virtual Congress theme is “Inclusion, Creativity and Rights - The Future of Mental Health Care for Older Adults”. The unprecedented events of the COVID-19 pandemic has emphasized the pervasiveness of ageism and its deadly impact on older persons across the world. We recognize the need for a global recovery effort centered on human rights. Older adults, especially those with mental health issues, deserve inclusion in these efforts.

On behalf of IPA and Congress Organizing Committee, we are excited to welcome you to the 2021 IPA Virtual International Congress!

Scope and contributions

*International Psychogeriatrics* is written by and for those doing clinical, teaching, and research work with older people. It is the official journal of the International Psychogeriatric Association (IPA) and is published by Cambridge University Press, Cambridge, UK. Although it is primarily concerned with psychogeriatrics, the journal welcomes contributions from all concerned with the field of mental health and aging. Original research papers are particularly sought.

Contributions include original research articles, reviews of the literature, book reviews, letters to the editor, and editorials. Apart from editorials and book reviews, which are commissioned, contributions to *International Psychogeriatrics* are spontaneously written and submitted by authors. Papers are usually reviewed by two expert reviewers selected by the Editor-in-Chief. At present, about one-third of the papers submitted are accepted for publication. The journal's Science Citation Index impact factor is 2.423 (2016).

Submission of a paper implies that it is neither under consideration for publication elsewhere, nor previously published in English. Manuscripts must be formatted double-spaced with ample margins on all sides and the pages should be numbered. *International Psychogeriatrics* uses the spelling of American English. Manuscripts written by those whose primary language is not English should be edited carefully for language prior to submission. The journal has a Language Assistance Panel consisting of both native English speakers willing to check manuscripts for style prior to submission, and bilingual experts willing to assist with the translation of manuscripts into English. Further details including contact information for individual panel members can be found at both the journal and IPA websites (journals.cambridge.org/ipg and www.ipa-online.org).

An up to date version of the journal’s instructions for contributors can be found at the *International Psychogeriatrics* website journals.cambridge.org/ipg. Please read these instructions carefully before submitting articles. Articles that are not prepared in accordance with these guidelines will be returned to authors.

Manuscripts should be submitted online via our manuscript submission and tracking site, <http://mc.manuscriptcentral.com/ipg>. Full instructions for electronic submission are available directly from this site.
