Subject Index to Volume 41

A

Acardius 27
Adolescents 311
Age, maternal 165, 205
 size-for-gestational 123
Aging, cognitive 187
 physical 177
Alcohol 311
Analysis, confirmatory factor 287
cyogenetic 27
Anomaly, congenital 253
Aptitude-Treatment Interaction 335
Asymmetry 325

B

Behavior, child 53
 problem 53
Bicarbonate 137
Birth defect monitoring 253
Birth order 165
Birth, multiple 253

C

Child behavior 53
Childhood, early 143
Children, twin 53
CNS damage 5
Cognitive abilities 65
Cognitive aging 187
Communicative approach 335
Confirmatory factor analysis 287
Congenital anomaly 253
Congenital malformation 197
Conjoined twins 197
Cotwin control method 335
Creativity 65
Cytogenetic analysis 27

D

Delivery
delayed 49
threatened premature 149
Development 123
 language 97
 speech 97
 locomotor 97
 mental 97
Difference between first- and second-born
137
Differences, ethnic 73
Discordant sex 301

E

Early childhood 143
Electroencephalogram (EEG) 325
Embryo reduction 49
Environment 177, 335
 home 275
 shared 261
Environments 187
EPH gestosis 149
Epidemiology 205, 261
 genetic 261
Ethnic differences 73
370 Subject Index

F
- Familial aggregation 261
- Family 311
- Family interaction 143
- Fetal death 5

G
- Genetic correlation 287
- Genetic dominance 261
- Genetic epidemiology 261
- Genetic factors 177
- Genetic studies 91
- Genetics 311
- Growth, physical 155

H
- Heredity 275, 335
- Heredity-environment influences 155
- Heritability 261, 287
- Heteropaternity 43
- Home environment 275
- Hospital base 253

I
- Immature infants 149
- Induced ovulation 165
- Interaction, family 143
- aptitude-treatment 335
- IUGR 149

L
- Language development 97
- Laterality 325
- Litter size 73
- Locomotor development 97
- Logistic regression 311
- Longevity 177

Low birth weight 97, 155

M
- Malformation, congenital 197
- Maternal age 165, 205
- Math performance 287
- Maximum likelihood 311
- Mental development 97
- Mirror-imaging 325
- Monozygotic twins 301
- Mother-twin relationships 143
- Multiple birth 253

N
- Nondisjunction 301

O
- Odds ratios 311
- Odor detection threshold test 113
- Olfactory sensitivity 113

P
- Parentage 43
- Parity 205
- pCO2 137
- Performance 97
  math 287
- Perinatal mortality 197
- Permissive 275
- Personality 311
- PH 137
- Physical aging 177
- Physical growth 155
- pO2 137
- Popperian philosophy 261
- Pregnancy, twin 49, 149
  triplet 27
- Premature and immature infants 149
