

JOURNAL of the AUSTRALIAN MATHEMATICAL SOCIETY

**Volume 71 Part 2
OCTOBER 2001**

R. M. BRYANT and I. C. MICHOS	<i>Lie powers of free modules for certain groups of prime power order</i>	149
R. A. BRYCE and L. SERENA	<i>A note on minimal coverings of groups by subgroups</i>	159
JOHN COSSEY and S. E. STONEHEWER	<i>Cyclic permutable subgroups of finite groups</i>	169
F. DALLA VOLTA, A. LUCCHINI and F. MORINI	<i>On the probability of generating a minimal d-generated group</i>	177
L. DI MARTINO and M. C. TAMBURINI	<i>On $(2, 3, 7)$-generation of maximal parabolic subgroups</i>	187
KARIN ERDMANN	<i>Young modules for symmetric groups</i>	201
J. R. J. GROVES	<i>Modules over infinite nilpotent groups</i>	211
CAI HENG LI and HYO-SEOB SIM	<i>Automorphisms of Cayley graphs of metacyclic groups of prime-power order</i>	223
B. H. NEUMANN	<i>Ensuring commutativity of finite groups</i>	233
M. F. NEWMAN	<i>On a family of cyclically-presented fundamental groups</i>	235
CHERYL E. PRAEGER and ANER SHALEV	<i>Bounds on finite quasiprimitive permutation groups</i> .	243
RALPH STÖHR	<i>Restricted Lazard elimination and modular Lie powers</i>	259
G. E. WALL	<i>Multiplicity-free quotient tensor algebras</i>	279

Formerly
Journal of the Australian Mathematical Society
(Series A — Pure Mathematics and Statistics)

Set by TeXAdel, Adelaide, Australia.

Printed by Instant Colour Press, Canberra, Australia.

Information about other publications of the Australian Mathematical Society may be found on the inside back cover.

Submission of research papers in pure mathematics and statistics is invited. Authors intending to submit papers for publication should prepare the manuscript following the instructions below, and should send two complete copies to the Editor, or to an appropriate Associate Editor (see back cover of this issue).

Two volumes of three parts each are planned for 2001. These are Volume 70 and Volume 71. The annual subscription price to non-members is A\$398.20 (US\$293.00) for 2001.

PREPARATION OF MANUSCRIPTS

1. The article should be typed, printed or photocopied on high quality bond paper of either A4, quar (at least 3cm) all around.

2. The author should keep a complete copy of the submitted article as well as any electronic source; the Society will not accept responsibility for any loss.

3. Authors are encouraged to prepare their papers in \LaTeX ; further information on preparation of manuscripts is available on the Journal's web page at <http://www.ms.unimelb.edu.au/~jams>. Other forms of electronic source will usually also be useful.

4. Each manuscript should include (i) an abstract of not more than 150 words, preferably containing no formulae, and certainly containing no complicated formulae and no references, (ii) a 2000 Mathematics subject classification, (iii) if the title is long, a shortened form of it, no more than forty characters in length, including spaces.

5. Two alternative styles for references and quotations are described below. Authors are requested to use one and only one style consistently throughout their manuscript.

STYLE 1. A typical reference in the list of references would be

[3] T. M. Cherry, 'Infinite linear systems with homogeneous kernel of degree -1 ', *J. Austral. Math. Soc.* **5** (1965), 129–168.

A corresponding reference in the text would be: Cherry [3]; or ([3,4,9]); or Cherry [3, Theorem 1].

STYLE 2. A typical reference in the list of references would be

[GBP] G. B. Preston, 'Monogenic inverse semigroups', *J. Austral. Math. Soc.* **40** (1986), 321–342.

A corresponding reference in the text would be: Preston [GBP]; or ([GBP, KG, GHL]); or Preston [GBP, Proposition 1].

In either style, the list of references should be in alphabetical order of surnames of first authors. Abbreviations for journal names should follow the practice of Mathematical Reviews.

6. Explain clearly what symbols are to be set in special typefaces (such as cursive, fraktur, script, bold) where this is not clear from the manuscript or electronic source.

7. Avoid abbreviations, such as Thm., Prop., Ex., iff, i.e., e.g., \forall , \exists , \Rightarrow , and \Leftrightarrow .

8. Authors should provide diagrams drawn to professional standards. Diagrams in the form of encapsulated Postscript files, or similar, may be acceptable; the quality, however, should be similar to that obtained by a professional artist.

Journal of the Australian Mathematical Society, is published bimonthly by the Australian Mathematical Society, c/- Mathematics Department, Australian National University, Canberra, ACT 0200, Australia. Send address change notices to Dr A. Howe, Australian Mathematical Society, c/- Mathematics Department, Australian National University, Canberra, ACT 0200, Australia.

Special issue
on
Group Theory

Dedicated to Laci Kovács
on the occasion of his 65th birthday

Edited by R. A. Bryce and John Cossey
