Price Six Shillings and Sixpence Net.

LONDON SCHOOL OF HYGIENE & TROPICAL MEDICINE

DIVISION OF TROPICAL MEDICINE & HYGIENE,
25, GORDON STREET, ENDSLEIGH GARDENS, LONDON, W.C. 1.

Director:—ANDREW BALFOUR, C.B., C.M.G., M.D., B.Sc., D.P.H., F.R.C.P.E.

The Tropical Division of the London School of Hygiene and Tropical Medicine (the old London School of Tropical Medicine) is a School of the University of London, and affords instruction in all branches of tropical medicine and hygiene and in parasitology as applicable to public health work in this country.

Students may be of any nationality and of either sex, and must be qualified Medical Practitioners. Qualified Veterinary Surgeons are also eligible as students. Other applicants may be admitted in special circumstances. Students are admitted to the School by the Director; evidence of character may be required.

The general course is one of twenty weeks, and is so arranged as to equip students for the Diploma in Tropical Medicine and Hygiene of the Conjoint Board (Royal College of Physicians of London and the Royal College of Surgeons of England).

Two courses are held in the year, commencing approximately on March 15th and October 4th respectively.

There is also a course in Parasitology for students proceeding to the first part of the D.P.H. examinations and for those taking the first part of the Examination for the Diploma in Tropical Medicine and Hygiene of Cambridge University.

Clinical instruction is afforded for candidates proceeding to Part II of the Examination for the D.T.M. & H. (Camb.).

Advanced Courses are held in Protozoology, Helminthology, Entomology, and the study of Noxious and Venomous Animals; and arrangements can be made for the provision of facilities for candidates desirous of taking the M.D. in Tropical Medicine of London University, and the degrees of M.Sc., Ph.D., and D.Sc. in the various branches of Parasitology.

FEES.—General Course—£31 10s. 0d.

Special Courses—Particulars on Application.

Further details and Prospectus on application to the—
Secretary at 25, Gordon Street, Endsleigh Gardens, Euston, W.C.1.

London,
W.C. 1.

CONTENTS OF VOLUME VI.

NO. 1 (MARCH, 1928).

	PAGE
1. PETERS, B. G. On the Bionomics of the Vinegar Eelworm	1
2. TRIFFITT, M. J. On the Morphology of <i>Heterodera schachtii</i> with Special Reference to the Potato-strain	39
3. CANAVAN, W. P. A new species of <i>Phyllobothrium</i> van Ben., from an Alaska Dog Salmon, with a note on the occurrence of <i>Crossobothrium angustum</i> Linton, in the Thresher Shark	51
4. CANAVAN, W. P. Note on the Occurrence of <i>Ophiotænia lönnbergii</i> in Pennsylvania	56
5. Amendments to the International Rules of Zoological Nomenclature	57

NO. 2 (JUNE, 1928).

1. MILES, H. W., and TURNER, W. H. On the Control of the Root Knot Eelworm, <i>Heterodera radicola</i> Müller ...	59
2. STEFANSKI, W. Sur l'identité des espèces <i>Rhabditis longistoma</i> Stefanski, 1922, et <i>Cylindrogaster coprophaga</i> Goodey, 1927	77
3. MORGAN, D. O. <i>Parastrongyloides winchesei</i> gen. et sp. nov. A Remarkable New Nematode Parasite of the Mole and the Shrew	79
4. CAMERON, T. W. M. On some Parasites of the Rusty Tiger Cat (<i>Felis planiceps</i>)	87
5. LEWIS, E. A. Observations on the Morphology of Syngamus of some Wild and Domestic Birds	99
6. LEWIS, E. A. On a New Species of the Nematode Genus <i>Oswaldocruzia</i> from the Newt	113
7. LEIPER, R. T. The Occurrence in Cyprus of <i>Bullinus contortus</i> in the Endemic Area of <i>Schistosoma hæmatobium</i> ...	117

CONTENTS.

No. 3 (SEPTEMBER, 1928).

	PAGE
1. GOODEY, T. The Species of the genus <i>Aphelenchus</i>	121
2. CAMERON, T. W. M. On a Species of <i>Onchocerca</i> from the Ox in West Africa	161
3. CAMERON, T. W. M. On the habitat of <i>Æluurostrongylus abstrusus</i> , the lung worm of the Cat	165
4. MONTGOMERIE, R. F. Observations on Artificial Infestation of Sheep with <i>Fasciola hepatica</i> and on a Phase in the Development of the Parasite	167
5. HOLL, F. J. New Trematodes from the Newt <i>Triturus viridescens</i>	175

No. 4 (DECEMBER, 1928).

1. MORGAN, D. O. On the Infective Larva of <i>Ostertagia circumcincta</i> (Stadelmann, 1894), a Stomach Parasite of Sheep	183
2. GOODEY, T. Observations on <i>Tylenchus musicola</i> Cobb, 1919, from diseased Banana Roots	193
3. MORGAN, D. O. A New Nematode Species of the Genus <i>Viannaia</i> from the Mole (<i>Talpa europæa</i>)	199
4. GUBERLET, J. E. Two New Genera of Trematodes from a Red-Bellied Water Snake	205
5. CAMERON, T. W. M. A New Definitive Host for <i>Schistosoma mansoni</i>	219
6. LEIPER, R. T. A Cryptic Infection with <i>Dibothriocephalus latus</i>	223
Index	227
