Advancing the Field – Taking the Path to Prevention
The 2009 Montréal Congress will break new ground by exploring the Path to Prevention – confronting the nearly universal acceptance that age-related problems are unavoidable. Throughout this pioneering congress you will be asked to consider and contribute to what will be possible in the field. In addition to all of the high-quality scientific updates you have come to expect from IPA, we have added some unique elements to the Congress that are sure to create a leading-edge scientific program full of unique opportunities.

Congress Highlights
The Congress’ scientific program features well-known, highly respected experts in the field, representing a diverse array of disciplines from around the world. The content will be further enhanced by our delegates, via their meaningful discussions throughout the meeting.

Here are just a few key items from the 2009 Montréal Congress Agenda:

- Keynote Speakers – Eric Larson and Charles “Chip” Reynolds
- Mental Health Issues in Nursing Home Care Expert Meeting
- ECT Workshop (sponsored by CAGP)
- Prevention Forum
- Worldwide Research Consortia Meeting
- Psychotherapy Workshop
- Off-Site Visits to a Neuroimaging Facility & to a Residential Care Facility
- Special Symposia Presented by AAGP, CAGP and WPA
- IPA Shared Interest Groups
- IPA Regional Initiatives

Additional Information
For more information or to register, please visit the Congress website, go to www.ipa-online.org and click on the 2009 Montréal Congress icon.
International Psychogeriatric Association (IPA)
Representing more than 66 countries around the world, IPA is a unique and diverse professional healthcare community promoting better geriatric mental health — across disciplines, across borders, and across geriatric issues. Psychiatrists, Scientists, Neurologists, Geriatricians, Primary Care Physicians, Epidemiologists, Nurses, Psychologists, Occupational Therapists, Social Workers, and many other healthcare professionals come to the IPA community from all over the globe to discuss, learn, share, and research information about behavioral and biological aspects of geriatric mental health. IPA’s leaders and members contribute their wealth of expertise and knowledge from the research, clinical, education, service and program development arenas.

There are many benefits to being a member of IPA, including a subscription to this peer-reviewed journal, International Psychogeriatrics. For more information please contact info@ipa-online.org.

IPA Board of Directors

Officers
Helen Fung-kum Chiu, President, Hong Kong SAR PR China
Masatoshi Takeda, President-Elect, Japan
João Carlos Barbosa Machado, Secretary, Brazil
Jacobo Mintzer, Treasurer, United States
Jill Rasmussen, Treasurer-Elect, United Kingdom
Joel Sadavoy, Immediate Past President, Canada

Directors
Ricardo F. Allegri, Argentina
Hei Ari, Japan
Sabine Bährer-Kohler, Switzerland
Olusegun Bayewu, Nigeria
Susan Benbow, United Kingdom
Cássio Machado de Campos Bottino, Brazil
Horácio Firmino, Portugal
Serge Gauthier, Canada
Carlos de Mendonça Lima, Brazil
Jay Luxenberg, United States
Kiyoshi Maeda, Japan
Raimundo Mateos, Spain
Pamela Melding, New Zealand

John T. O’Brien, United Kingdom
Daniel O’Connor, Australia
Nancy Pachana, Australia
Leonardo Pantoni, Italy
Anne Margriet Pot, Netherlands
Kenneth Shulman, Canada
John A. Snowdon, Australia
Guk-Hee Suh, South Korea
Gregory Swanwick, Ireland
Nicoleta Tataru, Romania
Frans R.J. Verhey, Netherlands
Bengt Winblad, Sweden

Executive Director
Susan M. Oster, United States

International Psychogeriatrics

ISSN 1041-6102 is published six times (February, April, June, August, October and December) by Cambridge University Press, Cambridge, UK. Although it is primarily concerned with psychogeriatrics, the journal welcomes contributions from all concerned with the field of mental health and aging. Original research papers are particularly sought. Contributions include original research articles, case reports, reviews of the literature, book reviews, letters to the editor, and editorials. Apart from editorials and book reviews, which are commissioned, contributions to International Psychogeriatrics are spontaneous and submitted by authors. Papers are reviewed by two expert reviewers selected by the Editor-in-Chief. As present, about half of the papers submitted are accepted for publication. The journal’s Science Citation Impact Factor (2007) is 2.207. Submission of a paper implies that it is neither under consideration for publication elsewhere, nor previously published in English. Manuscripts must be formatted double-spaced with ample margins on all sides and the pages should be numbered. International Psychogeriatrics uses the spelling of American English. Manuscripts submitted whose primary language is not English should be edited carefully for language prior to submission. The journal has a LanguageAide Panel consisting of both native English speakers willing to check manuscripts to ensure prior to submission, and bilingual experts willing to assist with the translation of manuscripts into English. Further details including contact information for individual panel members can be found at both the journal and IPA websites. Instructions for contributors are published in the first issue of each volume. An up-to-date version can be found at the Journal Online website journals.cambridge.org/ipg. Please read these instructions carefully before submitting articles. Articles that are not prepared in accordance with these guidelines will not be considered.

Scope and contributions

International Psychogeriatrics is written by and for those doing clinical, teaching, and research work with older people. It is the official journal of the International Psychogeriatric Association (IPA) and is published by Cambridge University Press, Cambridge, UK. Although it is primarily concerned with psychogeriatrics, the journal welcomes contributions from all concerned with the field of mental health and aging. Original research papers are particularly sought. Contributions include original research articles, case reports, reviews of the literature, book reviews, letters to the editor, and editorials. Apart from editorials and book reviews, which are commissioned, contributions to International Psychogeriatrics are spontaneous and submitted by authors. Papers are reviewed by two expert reviewers selected by the Editor-in-Chief. As present, about half of the papers submitted are accepted for publication.
