

Lieut.-Colonel Moore-Brabazon

IT was recently announced that Lieut.-Colonel J T C Moore-Brabazon, M C , M P , had resigned his appointment as Parliamentary Secretary to the Ministry of Transport in order to become Chairman of Sensible Heat Distillation, Ltd

Colonel Moore-Brabazon's work during the last Parliamentary Session was in connection with the Electricity Bill, which has just passed into law, and his expert knowledge of this question earned him the reputation of being practically the only Member to make any useful contribution to the debates

We understand that Sensible Heat Distillation, Ltd , is a company associated with the distillation of raw coal, which may indeed be rightly described as a pioneer enterprise, and as Colonel Moore-Brabazon has so repeatedly shown that he possesses this very valuable characteristic, we feel sure that a successful future is in store for this Company

We take this opportunity of wishing him as much success in this, his latest venture, as he has achieved in the past
