# Go Mobile

CJO Mobile (CJOm) is a streamlined  
Cambridge Journals Online (CJO)  
for smartphones and other  
small mobile devices

- Use CJOm to access all journal content including *FirstView* articles which are published online ahead of print
- Access quickly and easily thanks to simplified design and low resolution images
- Register for content alerts or save searches and articles – they will be available on both CJO and CJOm
- Your device will be detected and automatically directed to CJOm via: [journals.cambridge.org](http://journals.cambridge.org)

JOURNALS

# Epidemiology and Psychiatric Sciences

## Editor

Michele Tansella, University of Verona, Italy

*Epidemiology and Psychiatric Sciences* is an international, peer-reviewed journal published quarterly. It provides updated data and scientific information to epidemiologists, psychiatrists, psychologists, statisticians and other research and mental health workers primarily concerned with public health and epidemiological and social psychiatry.

# International Journal of Disability Management

Published for the International Forum on Disability Management

## Editor-in-Chief

Nicholas Bellamy, *University of Queensland, Australia*

*International Journal of Disability Management* publishes research findings in areas including prevention of injury and disability, occupational rehabilitation and employment of people with injury and disability. The journal has a particular aim of encouraging and publishing findings from studies conducted in a range of countries that focus on disability management interventions in the workplace.

# Journal of the International Neuropsychological Society

Published for the International Neuropsychological Society

## Editor-in-Chief

Stephen M. Rao, *Cleveland Clinic, USA*

*JINS* aims to further scientific and research activities in neuropsychology and enhance communication among its cognate member disciplines. The journal publishes scholarly, peer-reviewed articles and includes original research, timely review articles and transactions of the annual meetings of the International Neuropsychological Society. Contributions reflect the interest of all areas of neuropsychology, including (but not limited to): development of cognitive processes, brain-behavior relationships, adult neuropsychology, child neuropsychology, developmental neuropsychology, disorders of speech and language, and related topics such as behavioral neurology, neuropsychiatry, neuroimaging, and electrophysiology.

# Journal of Psychiatric Intensive Care

Published for the National Association of Psychiatric Intensive Care Units (NAPICU)

## Editor-in-Chief

Roland Dix, *Wotton Lawn Hospital, Gloucester, UK*

*Journal of Psychiatric Intensive Care* is devoted to issues affecting the care and treatment of people with mental disorders who manifest severely disturbed mental or behavioural functioning. The journal serves the interest of all professionals concerned with these topics, whether they work in Psychiatric Intensive Care Units (PICUs), Low Secure Units, Challenging Behaviour, Emergency Psychiatry, Intensive Treatments or in other parts of the wider mental health system.

# The International Journal of Neuropsychopharmacology

The official scientific journal of the International College of Neuropsychopharmacology (CINP)

## Editor-in-Chief

Alan Frazer, University of Texas Health Science Centre, San Antonio, USA

*The International Journal of Neuropsychopharmacology (IJNP)* serves as a major forum for the rapid publication and dissemination of high-quality research in neuropsychopharmacology. The focus of the journal is on research which advances understanding of existing and new neuropsychopharmacological agents, including their mode of action and clinical application, or which provides insights into the biological basis of neuropsychiatric disorders and thereby advances their pharmacological treatment.

## INSTRUCTIONS TO AUTHORS

---

These instructions follow the latest edition of the *Publication Manual of the American Psychological Association* (<http://www.apastyle.org/>). Authors of research manuscripts are strongly encouraged to follow relevant reporting guidelines as outlined in the special editorial: Use of Reporting Guidelines in Scientific Writing: PRISMA, CONSORT, STROBE, STARD and Other Resources, *Brain Impairment*, 12, 1–21 ([journals.cambridge.org/bim/reporting\\_guidelines](http://journals.cambridge.org/bim/reporting_guidelines)). A statement confirming ethics approval should be included in all research manuscripts.

### Manuscript Submissions

Cambridge Journals Online: <http://journals.cambridge.org/action/displayJournal?jid=BIM>

All articles are refereed. Papers submitted to the journal must not have been published previously or submitted for publication to any other journal and must represent original work.

### Manuscript Preparation

Manuscripts must be presented double spaced in a clear, readable typeface (Times preferred), in an A4-size document with 3 cm margins. Number all pages except the figures, beginning with the first page. Your submission should have a separate title page bearing the name(s) and affiliation(s) of the contributing author(s), and an abstract of no more than 200 words with keywords typed on a separate page. An e-mail address and/or fax/telephone numbers are required for contact purposes and should be stated following the corresponding author's address in a footnote on the title page.

### Headings

Provide headings that subdivide the paper into its key areas. Reports of empirical studies will generally follow a sequence of headings, including method, results and discussion. Review, theoretical, case study and other papers need not follow such a format but should provide a logical structure and appropriate section headings.

### Style

The written paper should be logical, economical and precise in structure and use of language.

### Tables

Reserve tables for important data directly related to the content of the paper. A well-constructed table should enable data to be isolated from the text and presented in a way that enables the reader to quickly see patterns and relationships of the data not readily discernible in the text. Use brief but explanatory table titles. The table title is placed at the top of the table. Include each table on a separate sheet. When constructing tables use tabs to space your columns as this will make it much easier to typeset the table in the text.

### Figures

Figures should be prepared to the correct size (max. width up to 120 mm) and each one supplied as an individual file, separate to the manuscript Word file. Include placement instructions in the Word document, such as 'Insert Figure 1 here'. The figure title is placed at the bottom of the figure. Prior to sending artwork, the separate files of figures, graphs, illustrations, should be printed by the author to test that the fonts have been embedded correctly and there is no distortion in the artwork as any such faults cannot be corrected by the publisher.

## Referencing

References and citations should follow the APA format. Some examples to assist you are provided below.

### Citations in text

**For a single author:** In a recent review, Smith (1992) suggested that ... A recent review (Smith, 1992) suggested that ... In 1992, Smith suggested that ... **For two authors:** In a recent review, Smith and Watson (1992) suggested that ... A recent review (Smith & Watson, 1992) suggested that ... In 1992, Smith and Watson suggested that ... **When a work has three, four, or five authors:** Cite all authors the first time the reference occurs; thereafter, the name of the first author followed by et al. (e.g., Smith et al., 1991). The full list of authors must be cited in the list of references at the end of the paper. If use of the 'et al.' format gives rise to confusion, with another work of the same year and with the same first author, the references should be differentiated by the use of alphabet sequence following the publication year (e.g., Smith et al., 1991a; Smith et al., 1991b). **When a work has six or more authors:** Cite only the surname of the first author, followed by et al.; in the reference list, provide initials and surnames of the first six authors followed by an elipsis and the final author. **General:** Within a paragraph the year need not be repeated in subsequent citations of the same study provided the study cannot be confused with other studies cited in the paper. When citing several studies within the same set of parentheses, the following format should be adhered to: '... several studies (Brooks, 1974a, 1974b; Cairns et al., 1992; Miller, in press; Smith, 1992; Tarter et al., 1985, 1987; Watson & Smith, 1990) have reported that ...'.

### Reference List

**Chapter in an edited book:** Heilman, K.M., Watson, R.T., & Valenstein, E. (1985). Neglect and related disorders. In K.M. Heilman & E. Valenstein (Eds.), *Clinical neuropsychology* (2nd ed., pp. 243–293), New York: Oxford University Press. **Complete book:** Lezak, M.D. (1983). *Neuropsychological assessment* (2nd ed.). New York: Oxford University Press. **Paper published in a journal:** Grober, E., Gitlin, H.L., Bang, S., & Buschke, H. (1992). Implicit and explicit memory in young, old and demented adults. *Journal of Clinical and Experimental Neuropsychology*, 14, 298–316. **Published psychological or other test:** Kertesz, A. (1982). *Western Aphasia Battery*. New York: Grune & Stratton. **Unpublished paper presented at a conference:** Walsh, K.W. (1986, August). *Bridging the gaps in clinical neuropsychology: The applied scientist model*. Paper presented at the 21st Annual Conference of the Australian Psychological Society, James Cook University, Townsville, Queensland. **Theses:** Author, (Year). *Title*. Type of thesis, Institution, Location of Institution. **General:** Papers in the Reference List should be listed alphabetically by first author, and then by date. Single author entries precede multiple author entries beginning with the same surname. References with the same first author and different second or third authors are arranged alphabetically by the surname of the second author, and so on.

VOLUME 15

NUMBER 3

DECEMBER 2014

## CONTENTS

### Systematic Review

- A Systematic Review of the Efficacy of Community-based, Leisure/Social Activity Programmes for People with Traumatic Brain Injury 157  
*Robyn Tate, Donna Wakim and Michelle Genders*

### Articles

- Evaluation of Parent and Child Psychoeducation Resources for the Prevention of Paediatric Post-concussion Symptoms 177  
*Katherine Olsson, Justin A. Kenardy, Erin A. Brown, Erin Charlton, Felicity L. Brown, Owen Lloyd and Lynne McKinlay*
- Improving Communication-specific Coping after Traumatic Brain Injury: Evaluation of a New Treatment using Single-case Experimental Design 190  
*Jacinta M. Douglas, Lucy Knox, Carren De Maio and Helen Bridge*
- A Personal Narrative: Living with the Experience of Aphasia, Verbal Dyspraxia and Foreign Accent Syndrome 202  
*Corinne Othenin-Girard*
- Effect of Olfactory Stimulation in Agenesis of the Corpus Callosum: A Case Report 216  
*Alessandro Tonacci, Anna Maria Chilosi, Giovanni Pioggia, Maria Aurora Morales and Giovanni Cioni*

### Clinical Practice: Current Opinion

- Some Thoughts about the Suitability of the Reliable Change Index (RCI) for Analysis of Interval Scale Data 223  
*Michael Perdices*

- List of Reviewers for 2014 233

### Corrigendum

- Stepping Stones Triple P and Acceptance and Commitment Therapy for Parents of Children with Cerebral Palsy: Trial Protocol – CORRIGENDUM 234  
*Koa Whittingham, Matthew Sanders, Lynne McKinlay and Roslyn N. Boyd*
