

LSC 94

PROCEEDINGS OF THE
INTERNATIONAL CONFERENCE

Glasgow, Scotland, 8–12 August 1994

Liquid Scintillation Spectrometry 1994 continues the series of LSC Conference Proceedings published by *RADIOCARBON*. This volume features the papers presented at the international conference held in Glasgow, Scotland from 8–12 August 1994.

LSC 94 contains peer-reviewed articles covering a wide range of liquid scintillation topics. Chapters titles include: Advances in Instrumentation, Environmental Applications, Bioscience Applications, Advances in Liquid and Solid Scintillators, Alpha Counting, and Calibration, Optimization and Other Advances.

The hardbound volume was edited by Gordon T. Cook, Douglas D. Harkness, Angus B. MacKenzie, Brian F. Miller and E. Marian Scott. It includes author and subject indexes and a comprehensive directory of participants.

Tree Rings, Environment and Humanity

(TREH) Proceedings of the
International Conference
Tucson, Arizona
17–21 May 1994

This volume contains 82 papers originally presented at the **International Conference on Tree-Rings, Environment and Humanity: Processes and Relationships**, in May 1994. Broadly interdisciplinary in scope, the conference papers are divided into eight major topics: Global Change, Biological Basis for Dendrochronology, Dendroclimatology and Dendrohydrology, Dendroecology, Human Behavioral Adaptations, Dendrochemistry, Geological Phenomena and General Dendrochronology.

14  **RADIOCARBON**
1997 PRICE LIST

Proceedings of the 15th International Radiocarbon Conference (Vol. 37, No. 2, 1995)	\$50.00*
Liquid Scintillation Spectrometry 1994 (Proceedings of 1994 Glasgow Conference) (\$75.00 for <i>RADIOCARBON</i> subscribers; 1996)	90.00
Liquid Scintillation Spectrometry 1992 (Proceedings of 1992 Vienna Conference) (ISBN: 0-9638314-0-2; 1993)	50.00
Special combination offer—LSC 92 and LSC 94—save \$20.00	120.00
Late Quaternary Chronology and Paleoclimates of the Eastern Mediterranean (\$50 for <i>RADIOCARBON</i> subscribers; ISBN: 0-9638314-1-0; 1994)	55.00
Calibration 1993 (Vol. 35, No. 1, 1993; includes CALIB 3.0.3C program)	35.00
Proceedings of the International Tree-Ring Conference (TREE RINGS, ENVIRONMENT AND HUMANITY) (Payable to <i>ICTREH/Tree-Ring Society</i> ; 1996)	65.00

SUBSCRIPTION RATES VOLUME 39, Nos. 1–3, 1997

Institution		115.00†
Individual		55.00
Laboratory Package #1	Subscription, datelists online + diskette, 3 free pages	300.00
Laboratory Package #2	Datelists online + diskette, 3 free pages	200.00
Individual Package	Subscription, datelists online + on diskette	100.00
<i>RADIOCARBON</i> 1996 Datelists	Via e-mail	30.00
<i>RADIOCARBON</i> 1996 Datelists	Annual, on diskette; specify IBM or Mac format	40.00
Printed copy	Available annually; add to base subscription price	10.00
Lifetime Subscription—Institutional		2000.00
Lifetime Subscription—Individual		700.00
SINGLE ISSUES (except conference proceedings and special issues)		35.00
VOLUMES 1–9 each volume		35.00
VOLUMES 10–21 each volume		65.00
VOLUMES 22–38 each volume		100.00
Radiocarbon Conference Proceedings		50.00
SPECIAL FULL-SET OFFER—Volumes 1–37 (1959–1995)		800.00
<i>BIG SAVINGS. Includes 11 out-of-print issues and 1995 ¹⁴C Proceedings. \$50 discount on each additional set.</i>		
Postage & handling	USA 35.00	
	Foreign 75.00	
		ISSN: 0033-8222

*Surface postage and handling charges will be added to book orders and back issues. For airmail delivery, please contact *RADIOCARBON* for rates. Payment accepted in U.S.\$ only by check, money order, VISA or MasterCard.

†Subscription postage: add \$10.00 for foreign.

Prices effective 1 May 1997

NOTICE TO READERS AND CONTRIBUTORS

The purpose of *RADIOCARBON* is to publish technical and interpretive articles on all aspects of ^{14}C and other cosmogenic isotopes. In addition, we present regional compilations of published and unpublished dates along with interpretive text. Besides the triennial Proceedings of Radiocarbon Conferences, we publish Proceedings of conferences in related fields and Special Issues that focus on particular themes. Organizers interested in such arrangements should contact the Managing Editor for information.

Our regular issues include NOTES AND COMMENTS, LETTERS TO THE EDITOR, RADIOCARBON UPDATES and BOOK REVIEWS. Authors are invited to extend discussions or raise pertinent questions regarding the results of investigations that have appeared on our pages. These sections also include short technical notes to disseminate information concerning innovative sample preparation procedures. Laboratories may also seek assistance in technical aspects of radiocarbon dating. We include a list of laboratories and a general index for each volume.

Manuscripts. When submitting a manuscript, include three printed copies, double-spaced, and a floppy diskette, single-spaced. We will accept, in order of preference, FrameMaker, WordPerfect 6.0 or 5.1, Microsoft Word, Wordstar or any standard IBM word-processing software program on 3½" or 5¼" IBM disks, or high-density Macintosh diskettes. ASCII files are also acceptable. We also accept e-mail and ftp transmissions of manuscripts. Papers should follow the recommendations in INSTRUCTIONS TO AUTHORS (1994, Vol. 36, No. 1). Offprints of these guidelines are available upon request. Our deadlines for submitting manuscripts are:

<i>For</i>	<i>Date</i>
Vol. 39, No. 2, 1997	May 1, 1997
Vol. 39, No. 3, 1998	September 1, 1997
Vol. 40, No. 1, 1998	January 1, 1998

Half-life of ^{14}C . In accordance with the decision of the Fifth Radiocarbon Dating Conference, Cambridge, England, 1962, all dates published in this volume (as in previous volumes) are based on the Libby value, 5568 yr, for the half-life. This decision was reaffirmed at the 11th International Radiocarbon Conference in Seattle, Washington, 1982. Because of various uncertainties, when ^{14}C measurements are expressed as dates in years BP, the accuracy of the dates is limited, and refinements that take some but not all uncertainties into account may be misleading. The mean of three recent determinations of the half-life, 5730 ± 40 yr, (*Nature*, 1962, Vol. 195, No. 4845, p. 984), is regarded as the best value presently available. Published dates in years BP can be converted to this basis by multiplying them by 1.03.

AD/BC Dates. In accordance with the decision of the Ninth International Radiocarbon Conference, Los Angeles and San Diego, California, 1976, the designation of AD/BC, obtained by subtracting AD 1950 from conventional BP determinations is discontinued in *RADIOCARBON*. Authors or submitters may include calendar estimates as a comment, and report these estimates as cal AD/BC, citing the specific calibration curve used to obtain the estimate. Calibrated dates should be reported as "cal BP" or "cal AD/BC" according to the consensus of the Twelfth International Radiocarbon Conference, Trondheim, Norway, 1985.

Measuring ^{14}C . In Volume 3, 1961, we endorsed the notation Δ , (Lamont VIII, 1961), for geochemical measurements of ^{14}C activity, corrected for isotopic fractionation in samples and in the NBS oxalic-acid standard. The value of $\delta^{14}\text{C}$ that entered the calculation of Δ was defined by reference to Lamont VI, 1959, and was corrected for age. This fact has been lost sight of, by editors as well as by authors, and recent papers have used $\delta^{14}\text{C}$ as the observed deviation from the standard. At the New Zealand Radiocarbon Dating Conference it was recommended to use $\delta^{14}\text{C}$ only for age-corrected samples. Without an age correction, the value should then be reported as percent of modern relative to 0.95 NBS oxalic acid, (Proceedings of the 8th Conference on Radiocarbon Dating, Wellington, New Zealand, 1972). The Ninth International Radiocarbon Conference, Los Angeles and San Diego, California, 1976, recommended that the reference standard, 0.95 NBS oxalic acid activity, be normalized to $\delta^{13}\text{C} = -19\text{‰}$.

In several fields, however, age corrections are not possible. $\delta^{14}\text{C}$ and Δ , uncorrected for age, have been used extensively in oceanography, and are an integral part of models and theories. Thus, for the present, we continue the editorial policy of using Δ notations for samples not corrected for age.
