In *Planet in Peril*, Michael Bess brings his singular voice, intellectual courage, and good judgment to bear on the four megadangers facing humankind—climate change, nuclear weapons, pandemics, and artificial intelligence. He avoids the simplistic thinking that characterizes too much of the public debate on these issues and offers insightful, viable solutions. It is one of those rare books that is both a joy to read and a roadmap for solving daunting problems.”

Michael Vandenberghe, *Vanderbilt University*
The Geological Magazine was originally established in 1864 and has been published continuously ever since. It covers the whole of Earth sciences, has a worldwide readership and has been published continuously ever since. It publishes both original and review articles, rapid communications, discussions of papers which have already appeared, and book reviews. There are no page charges for papers published in the Magazine.

CONTENTS

ORIGINAL ARTICLES

The Early Cretaceous tectonic evolution of the Neo-Tethys: constraints from zircon U-Pb geochronology and geochemistry of the Lupang anticline, Conghua, Yunnan 1647-1662
Yao Zhou, Meng-Guang Yang, Li-Dong Zhu, Long Xie, Yuan-Jun Mai, Nan Li, Yue Zhou, Hong-Liang Zhang, Xia Tiong and Wei-Na Jeng

Fluid evolution and ore genesis of Cu-Pb-Zn veins in the Panjadian deposit, Great Xing’an Range, NE China: evidence from fluid inclusion and H-O-He-Ar isotopes 1663-1680
Qing Gu Jian, Xu Yong Wang, Feng Yue Sun, Miao Zhang, Chen Guang Zhao and Li-Xue Sun

Subduction-accretion complex with boninitic ophiolite, slivers and Triassic limestones: seamounts: Ankara Melange, central Anatolia, Arslan Oykay, Deme Atmer, Tanju Danilathan, Gokhan Topuz, Evcan Ozcan and Andrew KC. Kylander Clark

Methods for determining the characteristics of weathered granite reservoirs: application to Binsan Uplift, Dongying Sag, Bohai Bay Basin Yuan Li, Gang Chen and Shanggui Leng

Effect of inherited structural highs on the structure and kinematics of the South Dezful Embayment, SW Iran 1727-1743
Arif Shamizadeh, Khallil Sarkarnejad, Orof Ferrer, Souravjy Supriya and Mohammad Seraj

Influence of multi-temporal major fault reactivation during multi-phase rift: the Biter Depression, Hallar Basin, NE China 1767-1786
Fei Liu, Yongxin Sun, Tingfei Fan, Hongjun Fan and Li Liu

Zinc, sulfur and cadmium isotopes and Zn/Cd ratios as indicators of the origin of the supergiant Broken Hill Pb-Zn-Ag deposit and other Broken Hill type deposits, New South Wales, Australia 1787-1808
Paul C. Sory, Raja D. Mathur, Graham S. Teile and Linda V. Godfrey

Petroleum and Sr-Nd isotopic geochemistry of Meso-Agesian polygenic phonolitic nepheline-phonolite-volcanoes located in the Northern Tanzanian Divergence of the East African Rift 1809-1832
Anton Kolesnikov and Vladislav Desiatkin

Discussion on Searle, ‘Tectonic evolution of the Caledonian orogeny in Scotland: a review based on the timing of magmatism, metamorphism and deformation’ 1833-1836
John F. Dewey and Paul D. Ryan
