

Glasgow Mathematical Journal

CONTENTS

W. W. Stothers , Subgroups of infinite index in the modular group III	119
F. J. Craveiro de Carvalho , Immersed surfaces and pencils of planes in 3-space	133
M. P. Malliavin-Brameret , Sur une question de localisation	137
Kenneth A. Brown , Modules over polycyclic groups have many irreducible images	141
Shigeo Koshitani , On the kernels of representations of finite groups	151
Andrew Bremner , On reducibility of trinomials	155
Andrew T. Plant , A note on the modulus of convexity	157
P. R. Jones , Inverse semigroups whose full inverse subsemigroups form a chain	159
David F. Anderson , Integral \vee -ideals	167
J. S. Lowndes , On some generalisations of the Riemann-Liouville and Weyl fractional integrals and their applications	173
R. C. Baker , On the fractional parts of αn^2 and βn	181
Marvin I. Knopp , Rational period functions of the modular group II	185
Bruce C. Berndt, Padmini T. Joshi and B. M. Wilson , Chapter 2 of Ramanujan's second notebook	199
W. D. Munn , An embedding theorem for free inverse semigroups	217

GLASGOW MATHEMATICAL JOURNAL

The *Glasgow Mathematical Journal* is a continuation of the *Proceedings of the Glasgow Mathematical Association*, founded in 1952 by the late Professor T. M. MacRobert. It is published with the support of the University Court of the University of Glasgow. The *Glasgow Mathematical Journal* is published in Parts twice yearly, in January and July; two Parts complete a Volume of approximately 200 pages.

The prepaid subscription for each Volume is £17.50 in U.K., \$45.00 in U.S.A., post free. Single parts may be supplied at a cost of £8.75 in U.K., \$22.50 in U.S.A., net.

Copies may be ordered direct from the publisher or from any bookseller.

Information for Contributors

While the *Glasgow Mathematical Journal* is intended primarily for Pure Mathematics, papers on Applied Mathematics will also be accepted. Manuscripts from all parts of the world will be welcomed and given careful consideration.

Manuscripts, preferably typed, should be prepared so as to conform with the practice in current numbers of the *Journal*, especially with regard to line illustrations, references, tables and summaries. The name of the author and the date of the receipt of the manuscript will be printed under the title. Text figures must be suitable for line block reproduction, lettered in pencil, numbered, and separated from the text but allocated clearly to sections of the text.

References should be placed at the end of the paper, arranged and numbered in alphabetical order. In the text, reference numbers should be enclosed in square brackets and underlined, to distinguish them from formula numbers, which should be quoted in round brackets. The following particulars should be given, in the order indicated:

for references to books—*author, title, edition, place of publication, year of publication, page reference*;

for references to articles in periodicals—*author, title of article, short title of periodical, series no. (if any), volume no., year, pagination*.

A proof is supplied once in galley form, together with an Order Form for offprints. Offprints are supplied free to the number of fifty; additional copies, if ordered prior to publication, will be supplied, at cost, at the request of the contributor. Excessive corrections may be charged to the author.

Manuscripts should be sent to:
