Journal of Applied Probability

This is an international journal published by the Applied Probability Trust in association with the London Mathematical Society; it will contain research and review papers on applications of Probability Theory to the biological, physical, social and technological sciences. A volume of approximately 400 pages will be published annually in two half-yearly numbers appearing in June and December.

Submission of papers

Submissions to the *Journal* may be of three kinds:

- (1) *review papers* of about 40–50 printed pages in length, surveying a field of Applied Probability; these will be paid for on acceptance at the rate of £stg.100 (\$280) and may possibly be published later in paperback form;
- (2) *research papers*;
- (3) *short communications* of 2–3 printed pages in the nature of notes or brief accounts of work in progress.

These should be sent to any one of
