JOURNAL OF
HELMINTHOLOGY
Journal of Helminthology

Aims and Scope
Journal of Helminthology publishes original papers, review articles and short communications on all aspects of pure and applied helminthology, particularly those helminth parasites of environmental health, medical or veterinary importance. Research papers on helminths in wildlife hosts, including plant and insect parasites, are also published along with taxonomic papers contributing to the systematics of a group. Research on free-living species which aims to understand the biology of parasitic relatives is also welcome. The journal will be of interest to academics and researchers involved in the fields of human and veterinary parasitology, public health, epidemiology, microbiology, biochemistry, ecology, evolution and genetics.

Journal of Helminthology is published quarterly by Cambridge University Press and is available on the internet at cambridge.org/jhl

Editor-in-Chief
Professor Robert Poulin
Department of Zoology, Otago University, New Zealand

Editor Emeritus
Professor John Lewis
Royal Holloway, University of London

Co-Editor
Dr Rachel Lawrence
Royal Veterinary College, University of London

Social Media Editor
Dr Tommy Leung
School of Environmental & Rural Sciences, University of New England, Australia

Editorial Board
Prof. James E. Miller, Louisiana State University, USA
Dr Peter D. Olson, The National History Museum, London, UK

Dr Gerardo Perez Ponce de Leon, National Autonomous University of Mexico, Mexico
Dr David Rollinson, The Natural History Museum, London, UK

Dr Banchob Sripa, Khon Kaen University, Thailand
Dr Russell Stothard, Liverpool School of Tropical Medicine, UK

Dr Bernd Sures, University of Duisberg-Essen, Germany
Prof. R. C. Andrew Thompson, Murdoch University, Perth, Australia

Prof. Joan Timí, Mar del Plata National University, Argentina
Prof. Paul Torgerson, University of Zürich, Switzerland

Dr Víctor Vidal Martínez, Castaneda-IPN, Mexico
Prof. Xing-Quan Zhu, Chinese Academy of Agricultural Sciences, China

Cover image by Thomas Tzelos, Moredun Research Institute, Edinburgh, UK. 'Exsheathed third-stage larvae of Teladorsagia circumcincta following ingestion of fluorescently-labelled sRNA' was awarded first prize in the 2013 photographic image competition organised by the British Society for Parasitology.
