

### THE MATHEMATICAL ASSOCIATION

The fundamental aim of the Mathematical Association is to promote good methods of mathematical teaching. A member receives each issue of the *Mathematical Gazette* and/or *Mathematics in School* (according to the class of membership chosen), together with Newsletters. Reports are published from time to time and these are normally available to members at a reduced rate. Those interested in becoming members should contact MA Headquarters for information and application forms. The address of the Association Headquarters is **259 London Road, Leicester LE2 3BE, UK (telephone 0116 221 0013)**. The Association should be notified of any change of address. If copies of the Association periodicals fail to reach a member through lack of such notification, duplicate copies can only be supplied at the published price. If change of address is due to a change of appointment, the Association will be glad to be informed. Subscriptions should be submitted to the Treasurer via Headquarters. Correspondence relating to **Teaching Committee** should be addressed to Mrs Rachael Horsman. The **Association's Library** is housed in the University Library, Leicester.

Views expressed in the *Mathematical Gazette* by authors or advertisers are not necessarily those of the Association.

### THE MATHEMATICAL GAZETTE

*Editor:*

Dr Gerry Leversha,  
15 Maunder Road,  
Hanwell,  
London W7 3PN  
*g.leversha@btinternet.com*

*Problem Corner:*

Mr Nick Lord,  
Tonbridge School,  
Tonbridge,  
Kent TN9 1JP  
*njl@tonbridge-school.org*

*Production Editor:*

Mr Bill Richardson,  
Kintail,  
Longmorn,  
Elgin IV30 8RJ  
*W.P.Richardson@open.ac.uk*

*Reviews Editor:*

Mr Owen Toller,  
St Paul's School,  
Lonsdale Road,  
London SW13 9JT  
*olct@stpaulsschool.org.uk*

Potential advertisers should send an e-mail to: *advertisingcontroller@m-a.org.uk*

Material for publication should be sent to the Editor.

Books for review should be sent to the Reviews Editor.

*Advice to authors of notes and articles.*

Study the format of articles in the *Gazette*. Please note the format for references, which should be listed in their order of appearance in an article. MSS may be submitted electronically, preferably in pdf format, or, if sent by post, should be typed and two copies included. (Mathematical expressions may be hand written.) Please send by e-mail not on floppy discs. This edition of the *Gazette* was produced on an Acorn machine using TechWriter and Draw.

## CONTENTS

## Articles

|  |   |     |
|--|---|-----|
| Looking backward, looking forward<br>(2015 Presidential Address)     | <i>Lynne McClure</i>  | 386 |
| Textbooks from Shanghai and Singapore.<br>A National Debate          | <i>Ruth Mertens</i>   | 391 |
| The 'hitchhiker triangle' and the problem<br>of perimeter = area     | <i>Tony Crilly and<br/>Colin R. Fletcher</i>                | 402 |
| A search for sums of powers  | <i>Nigel Derby</i>  | 416 |
| On the product $\prod_{n=2}^{\infty} \zeta(n)$                       | <i>I. Ferit Öktem</i>                                       | 422 |
| A slowly converging sequence via Pythagoras                          | <i>Martin Griffiths</i>                                     | 427 |
| Triangles around a given triangle                                    | <i>Stan Dolan</i>   | 432 |
| Artzt parabolas of a triangle  | <i>John Sharp</i>   | 444 |
| The carry-on-until-one-girl proportion                               | <i>Martin Griffiths</i>                                     | 464 |
| An octet of circles  | <i>Michael Sewell</i>                                       | 468 |
| A tripos surd  | <i>Mark B. Villarino</i>                                    | 474 |
| Ellipse: what else?  | <i>Aldo Scimone</i>   | 481 |
| Evaluating Fresnel-type integrals                                    | <i>G. J. O. Jameson</i>                                     | 491 |
| Differential equations v. power series                               | <i>Raymond A. Beauregard<br/>and Vladimir A. Dobrushkin</i> | 499 |
| Variations on a <i>sangaku</i> problem<br>involving kissing spheres  | <i>P. K. Aravind</i>  | 504 |
| <b>Notes 99.26 to 99.39</b>  |   |     |
| A relationship between Pell numbers and<br>triangular square numbers | <i>Russell Euler</i>  | 516 |
| A generalisation of an intriguing ratio                              | <i>Varun Amar Reddy</i>                                     | 516 |
| On the sum of the reciprocals of the primorials                      | <i>Martin Griffiths</i>                                     | 522 |
| The positive eigenvector of a positive matrix                        | <i>Kung-Wei Yang</i>  | 523 |
| A generalisation of Proizvolov's identity                            | <i>Grégoire Nicollier</i>                                   | 525 |

**Notes 99.26 to 99.39 (continued)**

|   |  |     |
|---|--|-----|
| On the square wave series   | <i>J. A. Scott</i>                     | 526 |
| An integral inequality with applications to probability theory  | <i>Panagiotis T. Krasopoulos</i>       | 528 |
| A special parallelogram   | <i>Nick Lord</i>                       | 530 |
| On the asymptotes of the Kiepert hyperbola  | <i>J. A. Scott</i>                     | 532 |
| Stable tables   | <i>A. F. Beardon</i>                   | 534 |
| Anthropologic   | <i>Andrew Buchanan and John Conway</i> | 537 |
| Proof without words: Cotangent expressed as a series of cosecants of multiple angles in powers of two | <i>K. B. Subramaniam</i>               | 538 |
| Proof without words: A delightful water pouring problem   | <i>E. M. Sieminski and R. Viglione</i> | 538 |
| <b>Teaching Notes</b>   |  |     |
| On the bounds for the perimeter of an ellipse   | <i>Ivica Gusić</i>                     | 540 |
| Cauchy-Schwarz via collisions   | <i>Nick Lord</i>                       | 541 |
| The constant acceleration formulae imply constant acceleration!                                       | <i>Nick Lord</i>                       | 542 |
| A rich problem on digital roots   | <i>Nick Lord</i>                       | 543 |
| <b>Feedback</b>   |  | 545 |
| <b>Problem Corner</b>   | <i>Nick Lord</i>                       | 547 |
| <b>Student Problems</b>   | <i>Stan Dolan</i>                      | 554 |
| <b>Reviews</b>  |  | 557 |
