International Psychogeriatric Association (IPA)

Representing more than 66 countries around the world, IPA is a unique and diverse professional healthcare community promoting better geriatric mental health — across disciplines, across borders, and across geriatric issues. Psychiatrists, Scientists, Neurologists, Geriatricians, Primary Care Physicians, Epidemiologists, Nurses, Psychologists, Occupational Therapists, Social Workers, and many other healthcare professionals come to the IPA community from all over the globe to discuss, learn, share, and research information about behavioral and biological aspects of geriatric mental health. IPA’s leaders and members contribute their wealth of expertise and knowledge from the research, clinical, education, service and program development arenas.

There are many benefits to being a member of IPA, including a subscription to this peer-reviewed journal, *International Psychogeriatrics*. For more information please contact info@ipa-online.org.

Compact, accessible and affordable

Each chapter is sharp, clear and practical, enhanced by tables and diagrams for quick assimilation and reference on the ward or in the clinic.

Coverage also includes legal and ethical issues, and the neglected topic of alcohol and drug abuse in the elderly.

IPA ... Better Mental Health for Older People

Supported by an educational grant from GE Healthcare.
Scope and contributions

International Psychogeriatrics is written by and for those doing clinical, teaching, and research work with older people. It is the official journal of the International Psychogeriatric Association (IPA) and is published by Cambridge University Press, Cambridge, UK. Although it is primarily concerned with psychogeriatrics, the journal welcomes contributions from all concerned with the field of mental health and aging. Original research papers are particularly sought.

Contributions include original research articles, case reports, reviews of the literature, book reviews, letters to the editor, and editorials. Apart from editorials and book reviews, which are commissioned, contributions to International Psychogeriatrics are anonymously written and submitted by authors. Papers are reviewed by two expert reviewers selected by the Editor-in-Chief. At present, about half of the papers submitted are accepted for publication. The journal's Science Citation Index impact factor is 2.24 (2011).

Submission

The journal is included in the Cambridge Journals Online service which can be found at journals.cambridge.org. For further information on other Press titles go to www.cambridge.org.

Abstracts

International Psychogeriatrics is abstracted and indexed in Academic Search Complete, Social Science Citation Index, Social Services Abstracts, Allied Health Literature (CINAHL), Health Information Database (CHID), Index to Nursing & Allied Health Literature (��刷), Current Contents/Cancer and Behavioral Sciences; Psychological Abstracts; Psychological, Psychiatric, and Allied Health Literature (PAP); Social Science Citation Index; Social Services Abstracts, Social Work Abstracts, Sociological Abstracts, Cumulative Index to Nursing & Allied Health Literature (CINAHL); British Library, Ulrichsweb (Psychology and Psychiatry); Scopus; Embase (Psychology); and PsychLIT.
