The Journal of Medicine and Philosophy

Editor

EDMUND D. PELLEGRINO

Catholic University of America, Washington

Associate Editor

H. TRISTRAM ENGELHARDT, JR.

Kennedy Institute of Ethics, Georgetown University

Founded in 1976, the Journal is now published by D. Reidel Publishing Company and sponsored by the Kennedy Institute of Ethics. *The Journal of Medicine and Philosophy* explores the shared themes and concerns of philosophy and the medical sciences. Not since Galen's time has the contact between medicine and philosophy been so widespread; the Journal seeks to meet the challenge of this dialogue by providing a forum for philosophers, medical practitioners, educationists, and humanists to examine the problems and controversies stimulated by the engagement of these two disciplines.

The range of issues having philosophical import for medical research and practise is enormous. New developments in medical technology and expertise frequently create scientific and humanistic dilemmas, and medical decision making always involves philosophical presuppositions. Moreover, the concerns of philosophy often converge with those of medicine, as philosophers attempt to understand the nature of knowledge and the human condition. The purpose of the Journal is to analyze this multifaceted relationship and to raise its discussion to a responsible and intellectually rigorous level.

Philosophical Studies

An International Journal for Philosophy in the Analytic Tradition

Editor-in-chief: JOHN POLLOCK

Associate Editor: KEITH LEHRER

Philosophical Studies, a journal devoted to work in analytic philosophy, publishes articles in all general areas of philosophical investigation, philosophy of science, epistemology, metaphysics, ethics, and so forth, including the history of philosophy. The main criterion of articles published is that they contain rigorous argumentation and precise analysis of key concepts. Articles in the journal are intelligible to philosophers whose expertise lies outside the subject matter of the article. It is intended that a diligent reader of the journal will be kept informed of the major problems and contributions of contemporary analytic philosophy.

A book-review journal for publications in academic philosophy and for theoretical work in other fields of interest to philosophers.

Academics in the humanities and social sciences routinely complain that there is no rapid dissemination of informed and informative opinion concerning publications in their fields. This is doubly unfortunate when more books than ever before are being published. Philosophers in particular need to be informed not only of work that is strictly philosophical but also of work which is primarily theoretical in nature in such areas as law, psychology, sociology, literary criticism, physics, medicine, linguistics and classical studies. *C.P.R. / R.C.C.P.* is the first journal based in North America to aim systematically to meet that need.

Une revue spécialisée de comptes rendus dans le domaine de la philosophie et de matières théoriques connexes qui ont un intérêt philosophique.

C.P.R. / R.C.C.P. veut répondre à un besoin pressant qu'éprouvent les universitaires qui travaillent dans le domaine de la philosophie et de sciences humaines en général: être informés rapidement et par une autorité compétente au sujet des publications récentes dans leurs spécialités. Ce besoin est d'autant plus urgent qu'un nombre constamment croissant de titres apparaissent sur le marché. Les philosophes en particulier se doivent d'être informés, non seulement des ouvrages proprement philosophiques, mais également des travaux de nature théorique qui s'effectuent dans des disciplines connexes comme la psychologie, la sociologie, la linguistique, la critique littéraire, la médecine, le droit . . . *C.P.R. / R.C.C.P.* est la première revue en Amérique du Nord qui a pour propos de combler systématiquement ce besoin.
