THE HISTORY AND
SOCIAL INFLUENCE OF
THE POTATO

By REDCLIFFE N. SALAMAN

‘Throughout its pages there is much of practical interest to farmers, especially on methods
of cultivation, old and new, but above all the book makes good reading. It is written by
one of the world’s leading scientific workers on the potato, who began life as a doctor of
medicine and has never lost the doctor’s realistic view of humanity. There is also something
of Faust about it all... It is a doctor’s vision of Man, Potatoes and the Devil.’ B. C. LARGE
