# Are you requesting reprints from this many authors...

It's easy to understand why. We are all busier than we used to be. Scientific authors and their secretaries are no exception. Maybe that's why so many of your reprint requests go unanswered these days. People are just too busy to notice the little postcard you've sent. Or they've got more important things to do than address envelopes.

On the other hand, a Request-A-Print® card seldom goes unanswered. It's the only reprint request card that:

. . . is distinctively designed to attract the author's attention

## ...and getting this many reprints?

- ... gives the author a ready-to-use pressure sensitive label preprinted with your return address
- ... gives you a record of all reprints requested
- ... gives the author a record of all reprints sent
- ... saves so much clerical time and effort—continuous break-apart forms provide maximum typing efficiency

If you've been requesting a lot of reprints, but getting too few replies, get *REQUEST-A-PRINT*. It's the most efficient way to ask for a reprint. Use the convenient coupon below.

# TROPICAL ANIMAL HEALTH AND PRODUCTION Edited by W. G. Beaton

The aim of this Journal is to publish the results of original research, investigation or technology in the field of veterinary medicine and animal production which may lead to the better utilization of animal resources with particular reference to tropical and sub-tropical countries. It also contains articles on the epidemiology of the diseases of animals in the tropics, the control of zoonoses and reviews of specific subjects.

Published quarterly in February, May, August and November. Volume 6, 1974.

Annual subscription £8.00: USA \$24.00 Single numbers £2.00: USA \$ 6.00

Published under the E & S Livingstone imprint

Subscription enquiries to:

Longman Group Limited, Journals Division, 43-45 Annandale Street, Edinburgh, EH7 4AT

Summary: Every article should have a short summary (not more than 250 words) complete in itself and understandable without reference to the paper. The summary will be printed at the beginning of the paper.

References: Only papers closely related to the author's work should be referred to; exhaustive lists should be avoided. Bibliographical details should be in the following order: author's name, initials, year, title of paper, title of journal (abbreviated according to the World List of Scientific Periodicals), volume of journal, first and last page of paper. References should be listed in alphabetical order. When abstracts are referred to, the page reference should be followed by (Abstr.).

### Examples:

BLAXTER, K. L. and WILSON, R. S. 1962. The voluntary intake of roughages by steers. *Anim. Prod.* 4: 351-358.

HAMMOND, J. 1932. Growth and the Development of Mutton Qualities in the Sheep. Oliver and Boyd, Edinburgh.

In the text, references should be made by giving author and year; at the first mention all authors should be named, thereafter the first author followed by *et al.* should be used for papers with more than two authors.

*Proofs* are supplied once and must be returned corrected to the Editors within seven days. Only essential corrections should be made.

Reprints: Twenty-five reprints of each paper will be supplied free to authors on request. Further copies may be purchased if the order is sent at the proof stage.

Animal Production is published six times a year in two volumes. Annual subscription is £9.00 (or \$25.00 in the U.S.A. and Canada) and the price for a single part is £1.75 (or \$6.00) net.

Proceedings of the British Society of Animal Production recommenced annual publication as a new series in 1972. Annual subscription is £1.75 (\$6.00 U.S. and Canada) or available with a joint subscription to Animal Production at £10.00 (\$28.00).

Business matters, including regular subscriptions and sales (current and back numbers of the Journal and the Proceedings) should be addressed to Longman Group, Journals Division, 43/45 Annandale Street, Edinburgh EH7 4AT.
