

Index 2000, Volume 1

Editorials

- Personal Medical Services: accelerating the pace of change in primary health care 133
Yvonne Carter and Geoff Meads
- Primary health care: does it defy definition? 1
R Bryar
- Research and development: what is the difference? 65
S Kendall
- The social determinants of health: new life for primary health care 195
John Macdonald

Networking articles

- Effective Health Care CHAIN (Contacts, Help, Advice and Information Network) 197
- The European General Practice Research Workshop 199
- The Federation of Primary Care Research Networks: a national initiative to enhance networking locally 3
H Smith
- Home blood pressure monitoring in type 2 diabetes: time to become as routine as fundoscopy? 198
Hugh Alberti
- Practice-based research in the United States 135
John W Beasley
- Research interest groups – the way to a collaborative approach? 69
M Lee

Development articles

- A citizens' advice service in primary care: improving patient access to benefits 139
Margaret Sherratt, Kevin Jones and Peter Middleton
- Easing the burden on primary care in deprived urban areas: a service model 201
Stephen Abbott and Lis Davidson
- Is there an evidence base for intuition and empathy? The risks and benefits of inviting an older person to discuss unresolved loss 71
E Peile
- The potential of information technology for

nurses in primary care: a review of issues and trends
L Alpay, G Needham and P Murray

Research articles

- Adolescents' experiences of maltreatment within the family: challenges for family nursing 235
Eija Paavilainen, Päivi Åstedt-Kurki and Marita Paunonen
- Antenatal screening in the community: the views and experience of women in one general practice 29
JE Thistlewaite and J Jordan
- Care of the frail elderly in the community: a critical incident study 163
Louise Robinson and Chris Drinkwater
- A comparison of two fixed-term research and development projects that involved collaboration with practices 217
Bill Bytheway
- Do we need asthma clinics in primary care? 229
- Patients' views and perspectives 198
Alan Jones, Roisin Pill and Stephanie Adams
- Freight trains and supernovas: the use of a sorting task to determine patterns within long-term frequent attendance to general practitioners 39
RD Neal, PL Heywood and S Morley
- Integrated nursing teams: in whose interests? 207
Claire Goodman
- The invisible work of the district nursing team: methodological problems associated with exploring skills 103
J McIntosh
- Interviewing children for the purposes of research in primary care 113
M Morison, J Moir and T Kwansa
- Joint commissioning for mental health services between primary health care and social care in Wales 179
Jenny Secker, Pat Davies and Valerie Howell
- Patients' perceptions of changing 51

- professional boundaries and the future of 'nurse-led' services
A Chapple, A Rogers, W Macdonald and M Sergison
- Providing new insight into community nursing know-how through qualitative analysis of multiple sets of simulation data
A Bryans
- Public health nursing: a comparison of theoretical and actual practice
J Besner
- Reactions of general practitioners, district nurses and specialist providers to the development of a community palliative care service
C Ingleton
- Relationships between the key players in primary care groups and trusts: some lessons from total purchasing pilots
Brenda Leese and Ann Mahon
- Utilizing the Maslach Burnout Inventory to measure burnout in HIV/AIDS specialist community nurses: the implications for clinical supervision and support
Mark Hayter
- Variations in administration of depot antipsychotic medication within primary care: a cross-sectional survey of practices in the North Thames Region
Ilyas Q Mirza and Michael Phelan
