Senior Editor

David J. Middleton, Royal Botanic Garden, Edinburgh, UK

Edinburgh Journal of Botany is an international journal of plant systematics and related aspects of biodiversity, conservation and phytogeography. It covers plants and fungi in all geographic areas. Papers linking traditional and modern taxonomic techniques are especially encouraged. Commissioned book reviews and review articles are also included.

Editors

Andrea Bowden, Centre for Applied Research in Educational Technologies, Cambridge, UK
Carolyn Elliss, Centre for Applied Research in Educational Technologies, Cambridge, UK

Expert Reviews in Molecular Medicine is an exciting online journal featuring high-quality reviews of the latest developments in this fast-growing field. Coverage includes gene therapy, immunotherapeutics, drug design, vaccines, genetic testing, pathogenesis, epidemiology, genomics, diagnostics and techniques.

Editor-in-Chief

Stephen Robson, Fetal Medicine Unit, Royal Victoria
Infirmary, Newcastle upon Tyne, UK

Fetal and Maternal Medicine Review publishes high-quality reviews drawn from all relevant disciplines. Rapid publication of authors currently active in research ensures this journal has immediate relevance to contemporary clinical practice. It is essential reading for all engaged in the care of pregnant women and neonates.

Senior Executive Editor

T. F. C. Mackay, North Carolina State University, USA

Executive Editors

D. J. Finnegan, University of Edinburgh, UK

W. G. Hill, University of Edinburgh, UK

Shizhong Xu, University of California, USA

Genetics Research is a key forum for original research on all aspects of genetics. Building on the success and history of its previous incarnation, *Genetical Research*, the journal has a publishing remit that provides comprehensive coverage of subjects vital to the field.

The breadth and quality of papers, reviews and book reviews make the journal invaluable to geneticists, evolutionary biologists, plant and animal breeders and molecular biologists.

JMBA is an international journal with a worldwide distribution, publishing original research on all aspects of marine biology. It includes current international research developments and features much of the pioneering work taking place today on major issues concerning marine organisms and their environment. Subjects include ecological surveys and population studies, and chemical and physical oceanographic work.

Instructions for Contributors

Zygote is an international journal dedicated to the rapid publication of original research in early embryology. It covers interdisciplinary studies on gametogenesis through fertilization to gastrulation in animals and humans. The scope has been expanded to include clinical papers, molecular and developmental genetics. While the editors will favour work describing fundamental processes in the cellular and molecular mechanisms of animal development, and, in particular, the identification of unifying principles in biology, new technologies, review articles, debates and letters will become a prominent feature.

Subjects covered include gametogenesis, sperm–oocyte interaction, gamete and embryo physiology, cell polarity, cell–cell interactions, nuclear transfer, haploidization, molecular and developmental genetics, in-vitro fertilization, stem cell and cryoconservation technologies.

To submit a manuscript, please email a complete copy, including figures and illustrations to:

- Brian Dale, Editor-in-Chief, *Zygote*, Centre for Reproductive Biology, Italy.
Email: brian.dale@virgilio.it or to
- Jacques Cohen, North American Editor, *Zygote*, The Institute for Reproductive Medicine and Science of Saint Barnabas, USA.
Email: jc@embryos.net or to
- Professor Norio Suzuki, Asian Pacific Editor, *Zygote*, Department of Biological Science, Hokkaido University, Japan.
Email: medaka-s@kdp.biglobe.ne.jp

Submission of a paper will be taken to imply that it is unpublished and it is not being considered for publication elsewhere. Authors of articles published in the journal assign copyright to Cambridge University Press (with certain rights reserved) and you will receive a copyright assignment form for signature on acceptance of your paper.

There is no formal restriction on length; however, original articles and reviews of less than 15000 words are likely to appear sooner than longer ones. Short communications should not exceed 1500 words and News and Views Commentaries 500 words.

Preparation of manuscripts

Manuscripts should be organised as follows: Title page (with full names and addresses of all authors, a running headline of up to 35 characters, and a contact address with telephone number and email address), an Abstract

of not more than 250 words followed by 5 Keywords, Introduction, Materials and Methods, Results, Discussion (combined Results and Discussion may be used for short papers), Acknowledgements, References, Endnotes, Tables and Figure Legends.

Manuscripts should be prepared using SI units

Figures

Figures should be numbered consecutively as they appear in the text. Any indication of features of special interest should also be included. Figures must be supplied electronically. They must be saved at final publication size and supplied in the following file formats: halftone figures (black & white, and colour) as TIF files at 300 dpi; black & white line figures as TIF or EPS files at 800 – 1200 dpi. When relevant, photographs should be submitted with proposed reduction or magnification indicated, when relevant, by a scale line on or beside, the illustration. The places for insertion into the text should be indicated in the text as 'Fig. 1' etc. Legends for all illustrations should be typed together, separately from the main text. A charge of £500 per figure will be made for colour photograph reproduction and printing.

Tables

Tables with concise headings should be placed at the end of the paper. Each table must have a text reference, in the form 'Table 1' etc.

References

References should be cited in the text as Conklin (1905) showed or as shown (Conklin, 1905). For papers with three or more authors use et al. A full list of references in alphabetical order should be given at the end of the text: surname of author and initials; year of publication (in parentheses); title of paper; journal or book name (the former being abbreviated in accordance with the World List of Scientific Periodicals); volume number; first and last page of the reference. For books and conference proceedings, place of publication and publisher (and editor(s) if appropriate) should be included.

Proofs

Proofs will be sent to the author for checking. Typographical or factual errors only may be changed at proof stage. The publisher reserves the right to charge authors for correction of non-typographical errors.

Offprints

A PDF offprint of each article will be supplied free to each first named author. Paper offprints may be purchased from the publisher if ordered at proof stage.

Zygote

The Biology of Gametes and Early Embryos

Volume 18 Issue 2 May 2010

Contents

- Establishment and characterization of embryonic stem-like cells from porcine somatic cell nuclear transfer blastocysts
S. Kim, J.H. Kim, E. Lee, Y.W. Jeong, M.S. Hossein, S.M. Park, S.W. Park, J.Y. Lee, Y.I. Jeong, H.S. Kim, Y.W. Kim, S.H. Hyun and W.S. Hwang 93
- Ocean acidification reduces sperm flagellar motility in broadcast spawning reef invertebrates
Masaya Morita, Ryota Suwa, Akira Iguchi, Masako Nakamura, Kazuaki Shimada, Kazuhiko Sakai and Atsushi Suzuki 103
- Fine structural observation on the oogenesis and vitellogenesis of the Chinese soft-shelled turtle (*Pelodiscus sinensis*)
Hei Nainan, Yang Ping, Yang Yang, Liu Jinxiong, Bao Huijun, Liu Haili, Zhang Hui and Chen Qiusheng 109
- The effect of bovine embryo culture without proteins supplements until day 4 on transcription level of hyaluronan synthases, receptors and mtDNA content
A.T. Palasz, P. Beltrán Breña, J. De la Fuente and A. Gutiérrez-Adán 121
- Development of the neotropical catfish *Rhamdia quelen* (Siluriformes, Heptapteridae) incubated in different temperature regimes
Alana Marielle Rodrigues-Galdino, Camila Valente Maiolino, Mariana Forgati, Lucélia Donatti, Jorge Daniel Mikos, Paulo César Falanghe Carneiro and Flavia Sant'Anna Rios 131
- Several aspects of animal embryo cryopreservation: anti-freeze protein (AFP) as a potential cryoprotectant
A.V. Makarevich, E. Kubovičová, M. Popelková, D. Fabian, Š. Čikoš, J. Pivko and P. Chrenek 145
- Micromanipulation medium osmolarity compromises zebrafish (*Danio rerio*) embryo and cell survival in chimaerism experiments
J. Cardona-Costa, M. Francisco-Simão, M. Pérez-Camps and F. García-Ximénez 155
- Biology of eggs, embryos and larvae of *Rhinelepis aspera* (Spix & Agassiz, 1829) (Pisces: Siluriformes)
Violeta da Rocha Perini, Yoshimi Sato, Elizete Rizzo and Nilo Bazzoli 159
- Structural analysis of the embryonic development in *Brycon cephalus* (Günther, 1869)
Juliana Sversut de Alexandre, Alexandre Ninhaus-Silveira, Rosicleire Veríssimo-Silveira, Hellen Buzollo, José Augusto Senhorini and Milena Penteadó Chaguri 173
