

# Earth and Environmental Science

Transactions of the **Royal Society of Edinburgh**

volume 104 part 1 2013

## Special Issue

### Antarctic Earth Sciences

11th International Symposium  
on Antarctic Earth Sciences

Published by The RSE Scotland Foundation, 22–26 George Street, Edinburgh EH2 2PQ

The Royal Society of Edinburgh is committed to the widespread dissemination of scientific knowledge and has published the *Transactions of the Royal Society of Edinburgh* since 1785, when James Hutton's 'Theory of the Earth' was published in volume 1. The journal evolved to the *Transactions of the Royal Society of Edinburgh: Earth Sciences* in 1980 and is now (as from 2007) the *Earth and Environmental Science Transactions of the Royal Society of Edinburgh*. Through this journal, the Society continues to encourage and support the international Earth and Environmental Science communities by:

- publishing a journal of international standing and authorship;
- publishing substantial papers on all scientific aspects of the earth and its surface environments;
- publishing without page charges;
- reproducing photographs and artwork to the highest standard, where appropriate at a size larger than is customary; and
- aiming to have papers reviewed within three months by at least two referees of international standing; usually publishing within six months of acceptance.

**The Editorial Board welcomes original manuscripts in the Earth and Environmental Sciences. It also welcomes proposals for Special Issues in these areas.**

#### Editorial Board (as at October 2012)

Paul BISHOP  
(Chairman & Editor-in-Chief)  
University of Glasgow

Mike BENTON  
University of Bristol

Maggie CUSACK  
University of Glasgow

Donald DAVIDSON  
University of Stirling

Doug FETTES  
British Geological Survey,  
Edinburgh

Ian PARSONS  
University of Edinburgh

Andrew SMITH  
(Deputy Chairman)  
Natural History Museum,  
London

Susan WALDRON  
University of Glasgow

#### Consulting Editors

P. AHLBERG  
Lund University  
Sweden

P. A. ALLEN  
Imperial College  
London, UK

M. ARIMA  
Yokohama National University  
Japan

S. BANNO  
Kyoto University  
Japan

R. L. CARROLL  
McGill University  
Montreal, Canada

I. W. D. DALZIEL  
University of Texas at Austin  
USA

J. F. DEWEY  
University College, Oxford  
UK

P. DONOGHUE  
University of Bristol  
UK

J. DOWDESWELL  
Scott Polar Research Institute  
University of Cambridge, UK

J. C. KNOX  
University of Wisconsin  
Madison, USA

D. WALOSZEK  
Universität Ulm  
Germany

C. T. WILLIAMS  
The Natural History Museum  
London, UK

## ISAES XI Plenary Volume

*Guest Editors*

Martin Siegert

Tom Bradwell

ISBN: 978 0 902198 91 3

# CONTENTS

Martin SIEGERT and Tom BRADWELL Antarctic Earth Sciences: Preface	1
Ian W. D. DALZIEL Antarctica and supercontinental evolution: clues and puzzles	3
Bryan C. STOREY, Alan P. M. VAUGHAN and Teal R. RILEY The links between large igneous provinces, continental break-up and environmental change: evidence reviewed from Antarctica	17
P. J. BARRETT Resolving views on Antarctic Neogene glacial history – the Sirius debate	31
J. L. WADHAM, R. DE'ATH, F. M. MONTEIRO, M. TRANTER, A. RIDGWELL, R. RAISWELL and S. TULACZYK The potential role of the Antarctic Ice Sheet in global biogeochemical cycles	55
Alan K. COOPER Future progress in Antarctic science: improving data care, sharing and collaboration	69

ISAES XI Delegates on the steps of Our Dynamic Earth, Edinburgh, July 2011.
