Reducing the hidden costs of nosocomial UTI

# Are you even on the map?

**The BARDEX® I.C. Foley Catheter**  
can save your hospital up to \$322,000 per year.<sup>1</sup>

There are over 900,000 NUTIs each year, costing an average of \$3,800 apiece in non-reimbursable expenses.<sup>2</sup> These costs often remain hidden because of the complexity of tracking NUTIs.

The silver and hydrogel-coated BARDEX® I.C. Foley Catheter has been proven to reduce the incidence of costly NUTIs by 22-80%. The individual examples shown are just a few of the more than 500 success stories involving hospitals that significantly reduced infection rates – and costs – after converting to the BARDEX® I.C. system.

For more information on the BARDEX® I.C., contact your BARD Representative or call 1-800-526-4455. You can also visit our website at [www.bardmedical.com](http://www.bardmedical.com).

THE PUBLICATION OF ARTICLES AND OTHER EDITORIAL MATERIAL IN THE JOURNAL DOES NOT NECESSARILY REPRESENT THE POLICY RECOMMENDATIONS OR ENDORSEMENT BY THE SOCIETY.

**PUBLISHER:** Infection Control and Hospital Epidemiology (ISSN-0899-823X, Canadian GST#129780466) is published exclusively by SLACK Incorporated 12 times a year. Address: 6900 Grove Rd., Thorofare, NJ 08086. Telephone: (856) 848-1000.

**SHEA:** 19 Mantua Rd., Mt. Royal, NJ 08061; telephone, 856-423-0087; fax, 856-423-3420; e-mail address, sheahq@talley.com.

**COPYRIGHT 2000** The Society for Healthcare Epidemiology of America, Inc., and SLACK Incorporated. All rights reserved. No part of this publication may be reproduced without written permission from the publisher. Printed in the USA.

**SUBSCRIPTIONS:** Requests should be addressed to the publisher (except Japan). In Japan, contact Woodbell Incorporated, 4-22-11, Kitakasai, Edogawaku, Tokyo 134, Japan. Subscription rates in the United States and possessions: Individual: One year-\$110.00; Two years-\$148.00; Three years-\$181.00; Institutional: One year-\$133.00; Two years-\$183.00; Three years-\$233.00. Fellows: \$55.00 per year with proof of training status. Canada: \$20.00 additional each year plus 7% for Canadian Goods & Services tax; Overseas surface, \$150.00 each year; Overseas air mail, \$195.00. Single copies of current issues may be obtained for \$15.00, United States and possessions; \$20.00 all other countries.

**INSTRUCTIONS TO AUTHORS:** Authors may submit manuscripts prepared in accordance with the 1997 revision of the "Uniform Requirements for Manuscripts Submitted to Biomedical Journals." The Uniform Requirements has been published in several journals, including *Infect Control Hosp Epidemiol* 1997;18:457-464 and *Ann Intern Med* 1997;126:36-47. A digital version is available on our web site (<http://www.slackinc.com/general/iche/ichehome.htm>). Submit to ICHE Editorial Offices, Vanderbilt University School of Medicine, A-1131 Medical Center North, Nashville, TN 37232-2637, USA. All submissions must be accompanied by copyright form(s) signed by all authors (see January issue or our web site).

**REPRINTS:** All requests to reprint or use material published herein should be addressed to Karen Lambertson, SLACK Incorporated, 6900 Grove Rd., Thorofare, NJ 08086. For reprint orders and prices, contact Karen Lambertson at (856) 848-1000. Authorization to photocopy items for internal or personal use, or the internal or personal use of specific clients, is granted by SLACK Incorporated, provided that the base fee of \$1.00 per copy, plus \$15 per page is paid directly to Copyright Clearance Center, 27 Congress St., Salem, MA 01970. This consent does not extend to other kinds of copying, such as for general distribution, resale, advertising and promotional purposes, or for creating new collective works.

**CHANGE OF ADDRESS:** Notice should be sent to the publisher 6 weeks in advance of effective date. Include old and new addresses with zip codes. The publisher cannot accept responsibility for undelivered copies. Periodicals postage paid at Thorofare, New Jersey 08086-9447 and at additional mailing offices. POSTMASTER: Send address changes to SLACK Incorporated, 6900 Grove Rd., Thorofare, NJ 08086.

**INFECTION CONTROL AND HOSPITAL EPIDEMIOLOGY** is listed in Index Medicus, Current Contents-Clinical Practice, Hospital Literature Index, Cumulative Index to Nursing & Allied Health Literature, Nursing Abstracts, Laboratory Performance Information Exchange System, and RNdex Top 100.

# All The Facts For Your Immunization Program

Both textbooks are an official publication of  
**The Society of Healthcare Epidemiology (SHEA).**

## Immunizing Healthcare Workers: A Practical Approach

*Edited by Gregory A. Poland, MD; William Schaffner, MD; Gina Pugliese, RN, MS*  
300 pp, Hard Cover, 2000, ISBN 1-55642-450-7, Order # 14507, \$109.00

**Immunizing Healthcare Workers: A Practical Approach** is the first complete resource for dealing with the immunization of healthcare workers. You can find all of the latest information on successfully and safely implementing or updating your immunization program in this landmark book.

Inside you will find that for each of the vaccine-preventable diseases among workers, there is a discussion of disease risks in the healthcare setting, vaccine recommendations, special administration strategies, safety issues, discussion of unresolved issues, and answers to commonly asked questions. There are also case studies of sample programs in specific settings.

This phenomenal book contains the latest recommendations from the US Public Health Service Advisory Committees, Healthcare Infection Control Practices Advisory Committee (HICPAC), and Advisory Committee on Immunization Practices (ACIP).

Read how the experts overcame obstacles in setting up immunization programs in their health settings. With over 45 contributors to 32 chapters, **Immunizing Healthcare Workers: A Practical Approach** is an essential source for the information necessary to implement an effective immunization program.

### Some Case Study Topics:

- Immunizing Providers and Staff in Physicians' Offices
- Vaccination of Healthcare Workers in Long-Term Care Facilities for the Elderly
- Immunization of Affiliating Students and Contract Home Healthcare Workers
- Immunization Strategies for Home Healthcare Personnel
- Immunization of Workers with Altered Host Defenses
- Vaccinating Unimmunized and Partially Immunized Workers
- Assessing Immunity and Exposures: Using a Computerized Surveillance System
- Managing Information in an Immunization Program
- The Internet: A Quick Guide to Vaccine & Immunization Information

### Also Available

**A Practical Handbook for Hospital Epidemiology**  
*Edited by: Loreen A. Herwaldt, MD and co-edited by Michael D. Decker, MD, MPH*  
448 pp, Soft Cover, 1998, ISBN 1-55642-302-0, Order # 13020, \$65.00

**A Practical Handbook for Hospital Epidemiologists** is the most complete source for practical advice on hospital epidemiology. It is intended to be a pragmatic guide that will assist beginning and experienced practitioners in establishing and maintaining a successful hospital epidemiology program. This book will supplement the various scientific references available for this field and will help hospital epidemiologists improve their practices.

Win. Destroy.  
You Can  
Declare War.

Win. Scrub. Win.  
Or You Can  
Declare Victory.

Arm yourself with **PREVACARE\*** Antimicrobial Hand Gel.  
A waterless product that combines persistent antimicrobial  
activity with skin moisturizers for use between hand washes.

Here's the weapon your facility needs to help win the war against nosocomial infections.

PREVACARE\* Antimicrobial Hand Gel is a unique, patented waterless surgical scrub and healthcare personnel handwash that demonstrates persistent antimicrobial activity between uses. PREVACARE\* Antimicrobial Hand Gel eliminates 99.99% of pathogenic organisms in 15 seconds or less without water or towels, yet is gentle enough for frequent hand washes.

Declare victory over nosocomial infections with help from PREVACARE\* Antimicrobial Hand Gel.

# Be Part of the New VA

## Epidemiologist Position, VHA Headquarters, Washington, D.C.

**T**he Veterans Health Administration (VHA) is soliciting applications for an Epidemiology Program Director in the Office of Quality and Performance. The successful candidate must have a doctoral degree and demonstrated skill in health services research/administration or related field pertinent to the measurement and management of healthcare quality. The ability to effectively communicate with clinicians and administrators is necessary.

The successful candidate will also bring skill in utilizing large administrative databases to evaluate healthcare process measures and performance outcomes. This role requires substantial statistical and computer literacy. The ideal candidate possesses formal training in epidemiology and/or biostatistics, SAS, and familiarity with VHA clinical information systems. However, individuals with exceptional qualifications in quality management outside of healthcare with similar statistical and informatics backgrounds will also be considered.

The New VHA has used performance management to achieve remarkable progress in clinical care, setting healthcare benchmarks in many areas. VHA provides over 33 million outpatient visits and 800,000 hospitalizations through over 170 hospitals, 600 ambulatory clinics and other facilities as well as a staff of

more than 14,000 physicians, 800 dentists, 40,000 nurses and many thousand additional health care professionals. As quality in healthcare is recognized as a national priority, this role offers an important opportunity to continue improving healthcare outcomes in the nations largest integrated healthcare system through developing and demonstrating systems for achieving benchmark performance.

Applicants must be U.S. citizens and possess a Ph.D. This position reports to the Chief Quality and Performance Officer in the VHA. Salary can range from 99,266 to 123,281.

*Applicants should forward curriculum vitae and a statement of interest by close of business March 31, 2000 to:*
