Medicine
Books and Journals from Cambridge University Press

The Cambridge Medicine programme focuses its book publishing in a defined set of core clinical areas with our great strength in the clinical brain sciences. Other specialties of significant focus include reproductive medicine/obstetrics and gynaecology, anaesthesia and critical care, emergency medicine and pathology.

Our journals programme covers a broad spectrum of medical disciplines including emergency and disaster medicine, epidemiology and infectious diseases, biomedical science, genetics, nutrition, mental health and psychiatry, and neuroscience.

We partner with many learned societies including The Society for Healthcare Epidemiology of America, and the Neuroscience Education Institute, and the Royal College of Obstetricians and Gynaecologists.

Parasitology

EDITOR-IN-CHIEF 
R. S. PHILLIPS

EDITOR – SPECIAL ISSUES 
J. T. ELLIS

EDITOR

A. BELL, A. HEMPHILL, C. HOLLAND, J. R. STOTHARD, J. WASTLING

EDITORIAL POLICY
Parasitology publishes definitive papers on all aspects of pure and applied parasitology including biochemistry, molecular biology, immunology, genetics, ecology and physiology and also the new techniques, long-term epidemiology studies, advances in the understanding of life-cycles, chemotherapy and major systematic revisions. Papers should normally be full length with an explanatory introduction and detailed discussion of the findings reported. Shorter reports of particularly important findings will also be considered.

To submit papers online, go to http://mc.manuscriptcentral.com/par/

Parasitology

Back volumes. Vols. 1–71: Inquiries should be addressed to Wm. Dawson & Sons Ltd, Cannon House, Folkestone, Kent. Vols. 72 onwards: quotations for parts still in print may be obtained from Cambridge or the American Branch of Cambridge University Press.

Copying. This journal is registered with the Copyright Clearance Center, 222 Rosewood Drive, Danvers, MA 01923, USA. Organizations in the USA who are also registered with C.C.C. may therefore copy material (beyond the limits permitted by sections 107 and 108 of US copyright law) subject to payment to C.C.C. of the per-copy fee of $16.00. This consent does not extend to multiple copying for promotional or commercial purposes. Code 0031–1820/2017 $16.00. Organizations authorized by the Copyright Licensing Agency may also copy material subject to the usual conditions.

B syst Tear Sheet Service. 3501 Market Street, Philadelphia, Pennsylvania 19104, USA, is authorized to supply single copies of separate articles for private use only.

For all other use, permission should be sought from Cambridge or the American Branch of Cambridge University Press.

Claims for missing issues can only be considered if made immediately after receipt of the subsequent issue.

Advertising. Details of advertising in Parasitology may be obtained from the publisher.

Online submission. Authors are encouraged to submit their manuscripts online. Go to http://mc.manuscriptcentral.com/par/ to open an author’s account for Parasitology. Manuscript Central is helping to improve the speed of the publication process for the journal.

PARASITOLOGY

CONTENTS

REVIEW ARTICLE
Importance of serological cross-reactivity among Toxoplasma gondii, Hammondia spp., Neospora spp., Sarcocystis spp. and Besnoitia besnoiti
Luís F.P. Gondim, José R. Mineo and Gereon Schares
851

RESEARCH ARTICLES
The antimalarial action of FK506 and rapamycin: evidence for a direct effect on FK506-binding protein PfFKBP35
Paul Monaghan, Darren B. Leneghan, Wesley Shaw and Angus Bell
869

Evaluating the submission of digital images as a method of surveillance for noseeum acuicular ticks
J.H. Kott, J. Savage, K. Thieriger, L.R. Lindsay, C. Bouchard, Y. Petitot and N.R. Gilpin
877

Hosts and vectors of Trypanosoma cruzi discrete typing units in the Chagas disease endemic region of the Paraguayan Chaco
Nelio Acosta, Elsa López, Michael D. Lewis, Martin S. Llewellyn, Ana Gómez, Fabiola Roman, Michael A. Mele and Matthew Yeo
884

Immunodiagnosis of paraparamitosis using monoclonal antibody-based sandwich ELISA for detection of Panamplastosum gracile circulating 16-kDa antigen
Pavel Arusopaneva, Kuland Lepomuputsukul and Runglawan Chawengkirttikul
899

Nonsteroidal anti-inflammatory is more effective than anti-oxidant therapy in counteracting oxidative/nitrosative stress and heart disease in T. cruzi-infected mice
Rômulo D. Novaes, Eliziária C. Santos, Maria Do Carmo Q. Fialho, Wagner G. Gonçalves, Priscila L. Sequetto, André Talvani and Reggiani V. Gonçalves
904

Predation on transmission stages reduces parasitism: sea anemones consume transmission stages of a barnacle parasite
Caitlin R. Fong and Armand M. Kuris
917

Identification of potential protein partners that bind to the variant surface glycoprotein in Trypanosoma equiperdum
Liomary M. Carrasquel, José L. Escalona, Alvaro Acosta-Serrano, Yurong Guo and José Bubis
923

To see or not to see: non-invasive imaging for improved readout of drug treatment trials in the murine model of secondary alveolar echinococcosis
D. Gorgas, N. Meneses, R. Rutte, A. Hemphill and B. Lundström-Stadelmann
937

Consistent patterns of trophic niche specialization in host populations infected with a non-native copepod parasite
J. Pegg, D. Andreou, C.T. Williams and J.R. Britton
945

Detecting hybridization in African schistosome species: does egg morphology complement molecular species identification?
Nala-A M. Biso, Wouter Fannes, Sasa Rombouts, Kalla Palman, Rup A. M. Vlokaart and Tin Huyse
954

Parasitism as the main factor shaping peptide vocabularies in current organisms
Michaela Zemková, Daniel Zahnzach, Martin Molnář and Jaroslav Flegr
965

Improved diagnosis of Tlchura trifoliata by using a bead-beating procedure on ethanol preserved stool samples prior to DNA isolation and the performance of multiplex real-time PCR for intestinal parasites
Maria M.M. Kaisar, Eric A.T. Steen, Venny Daud, Efthym Sartono, Maria Yacoub-Bachir, Jaci J. Verweij, Tanuwati Supal and Lissette Van Lierdhout
975

Improved diagnosis of Trichuris trichiura by using a bead-beating procedure on ethanol preserved stool samples prior to DNA isolation and the performance of multiplex real-time PCR for intestinal parasites
Maria M.M. Kaisar, Eric A.T. Steen, Venny Daud, Efthym Sartono, Maria Yacoub-Bachir, Jaci J. Verweij, Tanuwati Supal and Lissette Van Lierdhout
975

Host associations and turnover of haemosporidian parasites in manakins (Aves: Pipridae)
Alan Fecchio, Maria Svensson-Coelho, Jeffrey Ball, Vincenzo A. Ellis, Matthew C. Medeiros, Christopher H. Tilless, John G. Blake, Battie A. Lobale, Joseph A. Tobias, Rubesa Fanti, Elyse C. Coffey, Isolda P. de Faria, João B. Pinho, Gabriel Felix, Erika M. Braga, Manu Aracida, Vassilis Tsich, John Bakas, Christopher Witt, Jason D. Weckstein, Robert E. Ricklefs and Izeni P. Farias
984
