WEED SCIENCE

Published six times a year by the Weed Science Society of America

William K. Vencill, Editor

The Weed Science Society of America publishes original research and scholarship in the form of peer-reviewed articles in three international journals. *Weed Science* is focused on understanding "why" phenomena occur in agricultural crops. As such, it focuses on fundamental research directly related to all aspects of weed science in agricultural systems. *Weed Technology* focuses on understanding "how" weeds are managed. As such, it is focused on more applied aspects concerning the management of weeds in agricultural systems. *Invasive Plant Science and Management* is a broad-based journal that focuses not only on fundamental and applied research on invasive plant biology, ecology, management, and restoration of invaded non-crop areas, but also on the many other aspects relevant to invasive species, including educational activities, policy issues, and case study reports. Topics for *Weed Science* include the biology and ecology of weeds in agricultural, forestry, aquatic, turf, recreational, rights-of-way, and other settings; genetics of weeds and herbicide resistance; chemistry, biochemistry, physiology and molecular action of herbicides and plant growth regulators used to manage undesirable vegetation, and herbicide resistance; ecology of cropping and non-cropping systems as it relates to weed management; biological and ecological aspects of weed control tools including biological agents, herbicide resistant crops, etc.; effects of weed management on soil, air, and water. Symposia papers and reviews are accepted. Consult the editor for additional information.

Associate Editors (Assignment Year)

Muthakumar V Bagavathanan, Texas A&M, College Station, TX 77845 (2015)

Carlone Chase, Horticultural Sciences Department, University of Florida, Gainesville, FL 32611 (2016)

Bhagirath Singh Chadha, Queensland Alliance for Agriculture and Food Innovation (QAAFI), The University of Queensland, Queensland, Australia (2014)

Sharon Clay, South Dakota State University Plant Science Department, Brookings, SD 57007 (2002)

Adam Davis, USDA-ARS, Global Change and Photosynthesis Research, Urbana, IL 61801 (2007)

Franc E. Dyrar, USDA-ARS-NYGRU, National Center for Natural Products Research, University, MS 38677 (2003)

Anita Dilts, Kansas State University, Department of Agronomy, Manhattan, KS 66506 (2013)

Timothy G. Greer, Department of Crop and Soil Science, University of Georgia, Tifton, GA 31793 (2009)

Marie Justian, Department of Plant Sciences, University of California, Davis, CA 95616 (2016)

Prashant Jha, Montana State University, Bozeman, MT 59717 (2017)

Ramon Leon, West Florida Research and Education Center, University of Florida, Jay, FL 32655 (2016)

John L. Lindquist, Department of Agronomy, University of Nebraska, Lincoln, NE 68583-0817 (2002)

Vijay Nandula, Mississippi State University, Delta Research & Extension Center, Stoneville, MS 38776 (2008)

Chris Preston, Australian Weed Management, University of Adelaide, PMB1, Glen Osmond, SA 5064, Australia (2003)

Neha Rana, Monsanto, Chesterfield, MO 63005 (2017)

Dean Richards, Department of Crop Sciences, University of Illinois, Urbana, IL 61801 (2011)

Hilary Sandler, University of Massachusetts-Amherst Cranberry Station, East Wareham, MA 02538 (2008)

Steven Serkeid, USDA-ARS, University of Alaska, Fairbanks, AK 99775 (2011)

Patrick J. Strand, Department of Crop Sciences, University of Illinois, 360 ERML, Urbana, IL 61801 (2002)

Martin M. Williams II, USDA-ARS Global Change and Photosynthesis Research, Urbana, IL 61801 (2008)

Tracy Candeland, Managing Editor

Officers of the Weed Science Society of America

Janis McFarland, President

Scott Schneider, President-Elect

Larry Stockel, Vice President

Kevin Bradley, Past President

Hilary Sandler, Secretary

Rick Boydston, Treasurer

Sarah Ward, Director of Publications

Mark Bernards, Chair, Constitution and Operating Procedures

Weed Science (ISSN 0043-1745) is an official publication of the Weed Science Society of America, 12011 Tejon Street, Suite 700, Westminster, CO 80234.

It contains refereed papers describing the results of research that elucidates the nature of phenomena relating to all aspects of weeds and their control. It is published bimonthly, one volume per year, six issues per year beginning in January. Membership includes online access to Weed Science, Weed Technology, Invasive Plant Science and Management, and the online WSSA Newsletter. Dues should be sent to WSSA, 12011 Tejon Street, Suite 700, Westminster, CO 80234 no later than December 1 of each year. Membership in the society is on a calendar-year basis only.

New subscriptions and renewals begin with the first issue of the current volume. Please visit the Weed Science subscription page at https://www.cambridge.org/core/weedsociety. Email: subscriptions_newyork@cambridge.org in USA, journala@cambridge.org outside USA.

Weed Science publishes six times a year in January, March, May, July, September, and November. Annual institutional electronic subscription rates: US $541.00, UK £360.00.

Please use Editorial Manager to access manuscript submissions (http://www.editorialmanager.com/weeds/). Authors are asked to pay $65 per page as a portion of the cost of publication plus an additional processing charge of $55 per manuscript if none of the authors are WSSA members. The Editor can make exceptions in advance when justified.

The Weed Science Society of America fully subscribes to the belief that progress in science depends upon the sharing of ideas, information, and materials among qualified investigators. Authors of papers published in Weed Science are therefore encouraged whenever practicable and when state and federal laws permit, to share genotypically unique, propagative materials they might possess with other workers in the area who request such materials for the purpose of scientific research.

EDITORIAL
Editorial for Weed Science, Volume 66. William K. Vencill

PHYSIOLOGY/CHEMISTRY/BIOCHEMISTRY

Halosulfuron-Methyl Degradation from the Surface of Low-Density Polyethylene Mulch Using Analytical and Bioassay Techniques. Timothy L. Grey, A. Stanley Culpepper, Xiao Li, and William K. Vencill

WEED BIOLOGY AND ECOLOGY
Emergence Dynamics of Kochia (Kochia scoparia) Populations from the U.S. Great Plains: A Multi-Site-Year Study. Vipan Kumar, Prashant Jha, J. Anita Dille, and Phillip W. Stahlman

Effect of Environmental Factors on Germination and Emergence of Shortawn Foxtail (Alopecurus aequalis). Ning Zhao, Qi Li, Wenlei Guo, Lele Zhang, Lu'an Ge, and Jinxin Wang

Has Breeding Improved Soybean Competitiveness with Weeds? Devin J. Hammer, David E. Stoltenberg, Jed B. Colquhoun, and Shawn P. Conley

Germination Ecology of Two Australian Biotypes of Ragweed Parthenium (Parthenium hysterophorus) Relates to Their Invasiveness. Ali A. Bajwa, Bhagirath S. Chauhan, and Steve W. Adkins

Environmental Factors Affecting Seed Germination and Seedling Emergence of Foxtail Sophora (Sophora alopecuroides). Iraj Nosratti, Sahar Amiri, Alireza Bagheri, and Bhagirath Singh Chauhan

WEED MANAGEMENT

Effect of Non-flooded Plastic Film Mulching Cultivation for Rice in Southeast China. Xin Yang, Wenhai Mi, Xiaoli Tan, Lianghuan Wu, and Vladimir G. Onipchenko

Effect of Plastic Mulch Type on Fomesafen Dissipation in Florida Vegetable Production Systems. Thomas V. Reed, Nathan S. Boyd, P. Christopher Wilson, and Peter J. Dittmar
