INTERNATIONAL JOURNAL OF MICROWAVE AND WIRELESS TECHNOLOGIES

Special Issue: Journee Nationale des Micro-ondes 2017
Guest Editor: Erwan Fourn

CONTENTS

Special Issue Papers

EDITORIAL
LMWVT special issue on the 2017 French Microwave Days
Erwan Fourn

RESEARCH PAPERS
Additive technology applied to the realization of X-band microwave terminations: reproducibility improvement
Azar Maalouf, Ronan Gingat and Vincent Lour

Non-linear electrical modeling of MASMOS structure to design power amplifiers for 4G applications
Frédérique Simbélie, Sylvain Laurent, Pierre Medral, Michel Prigent, Myrannne Regis, Yann Croueule and Raymond Queli

Transparent and miniature FM antenna in printed technology
A. Martin, C. Gautier, X. Castel and M. Himdi

Planar discrete lens antenna integrated on dielectric substrate for millimeter-wave transceiver module
Koissala Medral, Loic Marnat and Laurent Dussopt

InAlGaN/GaN with AlGaN back-barrier HEMT technology on SiC for Ka-band applications
Stéphane Pietrowicz, Jean-Clauude Jacquet, Piero Samaria, Olivier Patard, Christian Dua, Eric Charlier, Nicolas Michel, Mourad Oualli, Cedric Lecas, Clément Potier, Philippe Altuntas and Sylvain Delage

LOW NOISE AMPLIFIERS

Ultra compact multi-standard low-noise amplifiers in 28 nm CMOS with inductive peaking
Elena Sobotta, Guido Belfiore and Frank Ellinger

WIRELESS POWER TRANSFER AND ENERGY HARVESTING

A dual-band rectenna using broadband DRA loaded with slot
Rahul Agrawal, Manoj Singh Panwar and Pravin N. Kondakekar

Tunable energy harvesting on UHF bands especially for GSM frequencies
Mahmet Bakir, Muhammed Karasalih, Olcay Atirbas, Mehmet Bagmanci, Volkan Akdogan and Reyhan Turmenta

EM FIELD THEORY

Impulse response analysis of coherent waveguide communication
Yanghui Kim, Adrian Tang, Jason Cong, Mau-Chung Frank Chang and Tatsuo Itoh

Radar
An improved method for deceptive jamming against synthetic aperture radar
Ham Dutt, Joao, Rainald Kaur, Ashutosh Kumar Singh and Amit Mishra

ANTENNA DESIGN, MODELLING AND MEASUREMENTS

Ultra-wideband (UWB) microstrip monopole antenna using split ring resonator (SRR) structure
Dalia M. Elsheakh and Esmat A. Abdallah

Linear to left- and right-hand circular polarization conversion by using a metasurface structure
Oguzhan Akgol, Olcay Atirbas, Emir Unal, Muhammed Karasalih and Faruk Karada

EDITOR-IN-CHIEF
Prof. Almudena Suarez, McGill Laboratories of Telecommunications Engineering
Universidad de Cantabria
Avenida de los Castros s/n
39005, Spain
almudena.suarez@unican.es

EDITORIAL BOARD
Dr. Eduardo Carrasco, ITIS, Switzerland
Dr. Wenhua Chen, Tsinghua University, Beijing, China
Prof. Paolo Colantoni, Università di Tor Vergata, Rome, Italy
Prof. Alessandra Costanza, University of Bologna, Italy
Prof. Philippe Ferrari, INEP Grenoble, France
Prof. Gaspare Galati, Università di Tor Vergata, Rome, Italy
Prof. Alessandro Galli, Sapienza University of Rome, Italy
Prof. Antonio García-Pino, University of Vigo, Spain
Dr. Anthony Ghiotto, IMS Laboratory
Toulouse, France
Prof. Shilam Koul, Indian Institute of Technology Delhi, India
Prof. Krzysztof Kulpa, Warsaw University of Technology, Poland
Prof. Asher Madjar, Technion, Israel
Prof. Marco Pasian, IME Lyon, France
Prof. Roberto Sorrentino, Fraunhofer Institute for Telecommunications, Germany
Dr. Ruediger Quay, Infocomm Research, Singapore
Dr. Xianming Qing, BUZZ faculty, Ningbo, China
Prof. Antonio Garcia-Pino, University of Vigo, Spain
Dr. Hung-Wei Wu, National Taiwan University, Taipei, Taiwan
Prof. Robert Weigel, University of Erlangen, Germany
Dr. Hans-Volker Wu, Kan Shan University, Taiwan
Prof. Felix Yanovsky, National Aviation University, Ukraine
Prof. Alex Yarovoy, TU Delft, The Netherlands

Submission of Manuscripts
All manuscripts should be submitted online at http://rnc.manuscriptcentral.com. Please consult the instructions for authors at http://cambridge.org/rnc

Subscriptions
International Journal of Microwave and Wireless Technologies (ISSN 1759-0787) is published ten times a year in February, March, April, May, June, July, August, September, October, November and December. The subscription price including VAT of Volume 10 (2018) (which includes postage by air; plus electronic access) is £109.5 net (US$2042 in the USA, Canada and Mexico) for institutions; the electronic only price for institutional subscribers is £79.6 net (US$1493 in the USA, Canada and Mexico). Members of the European Microwave Association receive free online access to the journal, and may order print subscriptions at a reduced rate for their personal use only. Single parts are £112.5 net (US$210 in the USA, Canada and Mexico) plus postage. Orders, which must be accompanied by payment, may be sent to a bookseller, subscription agent or direct to the publisher: Cambridge University Press, Journals Fulfillment Dept, UPH, Shaftesbury Road, Cambridge CB2 8BS, UK; or in the USA, Canada and Mexico: Cambridge University Press, Journals Fulfillment Department, 1 Liberty Plaza, Floor 10, New York, NY, 10006, USA. EU subscribers (outside the UK) who are not registered for VAT should add VAT at their country's rate. VAT registered subscribers should provide their VAT registration number. Japanese prices for institutions are available from Kinokuniya Company Ltd, PO Box 55, Chitose, Tokyo 086, Japan. Copies of the Journal for subscribers in the USA, Canada and Mexico are sent by air to New York to arrive with minimum delay. Periodicals postage paid at New York, NY, and at additional mailing offices. POSTMASTER: Send address changes to the USA, Canada, and Mexico to: International Journal of Microwave and Wireless Technologies, 1 Liberty Plaza, Floor 20, New York, NY, 10006, USA. Claims for missing issues should be made immediately on receipt of the subsequent issue.

Internet Access
This journal is included in Cambridge Core and can be found at cambridge.org. For further information on other Press titles access http://www.cambridge.org

Advertising

Copying
This journal is being registered with the Copyright Clearance Center, 222 Rosewood Drive, Danvers, MA 01923, USA. Organizations in the USA who are also registered with C.C.C. may therefore copy material beyond the limits permitted by sections 107 and 108 of U.S. Copyright law subject to promotional or commercial purposes. Code 0266–4674/2018. CQ Star Sheet Service: 3501 Market Street, Philadelphia, PA 19104, USA, is authorized to supply single copies of separate articles for private use only. Organizations authorized by the Copyright Licensing Agency may also copy material subject to the usual conditions. For all other use, permission should be sought from Cambridge or the American Branch of Cambridge University Press.

Scope of the Journal
International Journal of Microwave and Wireless Technologies is interdisciplinary and application oriented, providing a platform for the microwave industry. Subjects covered include: applied electromagneticfield theory, components, analogue and mixed-signal circuits, systems, optical-microwave interactions, electromagnetic compatibility, industrial applications, biological effects and medical applications.
