
Guidelines for Contributors

Scope

International Organization (IO) seeks to publish the best and most innovative scholarly manuscripts available on international political and economic relations. A study that does not emphasize any international (or cross-border) phenomenon as a major cause or effect falls outside the journal's domain. Additionally, *IO* features articles that contribute to the improvement of general knowledge or empirical theory defined broadly. Although we may publish a manuscript designed to propose a solution to a current world problem, we prefer to publish those that also apply theoretical ideas and findings or address general questions debated in scholarly publications.

The editorial team sends submissions, except letters to the editor, to reviewers for comment before making a decision to publish. Approximately 5 percent of manuscripts submitted to *IO* are ultimately published in the journal, while approximately 25 percent are judged by the editors as not ready or appropriate for external review. The standards of *IO*'s reviewers are high. Before submitting their work, authors are strongly encouraged to seek advice and detailed comments from colleagues.

Originality

IO does not evaluate works already published elsewhere or currently under review by another publisher. Our guideline is that a manuscript is clearly not original enough if as much as half of the ideas or evidence has been published elsewhere. If a question of overlap arises, at the time of submission please send a copy of the earlier work and ask the editors for a determination. As a partial exception, a study that is promised to a future edited volume can normally be published by *IO* if the volume will appear at least six months after the article's publication in *IO* and the author has arranged for the *IO* editors' agreement at the time of submission.

Length

IO will not review a manuscript containing more than 14,000 words, including notes and references. Please provide a word count in your submission. *IO* also publishes occasional review essays, research notes, letters, and dissents directed at previous articles. Dissents should be no longer than 5,000 words; research notes no longer than 8,000 words.

Procedure

Authors wishing to submit manuscripts to *IO* should go to <http://io.edmgr.com>. This website will guide authors through the submission procedure. Please direct any questions to the managing editor at io@polisci.wisc.edu

Manuscript Preparation

Manuscripts submitted to *IO* must conform to the following guidelines.

1. Omit self-references after the title page. Your identity should not be revealed in the manuscript; for example, showing five of your writings in the reference list will be a clue to most reviewers. We recommend citing these sources simply as “author” in the footnotes and omitting them from the reference list. If fuller information might bear significantly on the manuscript’s acceptability, mention such information in separate comments to the editors. If, however, changing references to “author” could contribute to revealing your identity, please consult with the editors about the issue before submitting the manuscript.
2. Change parenthetical references to short author-date footnotes.
3. Double-space the text, allow margins of at least one inch on all sides, and use a font no smaller than twelve points.
4. Place each table and figure on a separate page. You may include figures and tables as part of the main manuscript, or in separate files to be submitted in Editorial Manager.
5. Number the pages consecutively.
6. Submit an abstract word count and acknowledgments separately from the manuscript. Do not include any identifying information in the abstract.

If your manuscript is accepted for publication, we will provide further guidance regarding how to prepare it for copyediting.

Diction

Offer your readers vigorous, concise prose in the active voice. Choose vivid verbs and expressions that clearly communicate your meaning. Avoid using academic, “insider” jargon. Use the full name of a person, organization, program, or agency when mentioning it for the first time in your manuscript, and provide titles and explanatory phrases when appropriate. To enhance accessibility, avoid overusing abbreviations, initialisms, and acronyms. Use gender-neutral language whenever possible. Double-check the spelling of non-English words, and include special characters such as accents and umlauts.

Economy

Weak and extraneous prose detract from the strength of your argument. Scrutinize your draft for potential deletions, such as expressions, sentences, and paragraphs whose absence would not harm the argument or would help it to stand out more prominently. Prime candidates are complex constructions where simpler phrasing would do, distractions from the main line of argument, and excessive repetition. Rare is the manuscript that cannot be improved with tightening. The following classics offer much concrete advice: *On Writing Well* by William Zinsser, *The Elements of Style* by William Strunk and E. B. White, and *The Careful Writer* by Theodore M. Bernstein.

Citing Sources

The reference list should contain the complete facts of publication or availability for each source cited, using the formats shown in the following examples. Include only those sources specifically cited in the text. Provide first names, rather than initials, of authors when available. For article and book titles, use the “up” style of capitalization and do not use quotation marks. In the reference list, show sources in alphabetical order by the first author’s surname; list multiple works by the same author in chronological order with earliest dates first. In the manuscript’s body, cite sources in footnotes using an abbreviated author/date form (for example, Beck 2000) that refers to a corresponding entry in the reference list. Add specific page numbers in the footnote when quoting from or referring to a particular passage. The footnote may include a *brief* comment that helps the reader understand the source’s value or viewpoint. Please use the following formats:

BOOK: Checkel, Jeffrey. 1997. *Ideas and International Political Change: Soviet/Russian Behavior and the End of the Cold War*. New Haven, Conn.: Yale University Press. FOOTNOTE: Checkel 1997, 52.

EDITED COLLECTION: Ries, Christine, and Richard J. Sweeney, eds. Forthcoming. *Capital Controls in Emerging Market Economies*. Boulder, Colo.: Westview Press. FOOTNOTE: Ries and Sweeney forthcoming.

CHAPTER IN MULTIAUTHOR COLLECTION: Please note that *IO* style includes the title of the collection, the editor(s) full names, and the page range for the chapter cited; the footnote may contain the specific pages cited: Grieco, Joseph. 1993. Anarchy and the Limits of Cooperation. In *Neorealism and New Liberalism: The Contemporary Debate*, edited by David Baldwin, 116–42. New York: Columbia University Press. FOOTNOTE: Grieco 1993, 119.

JOURNAL ARTICLE: Note that *IO* style includes the issue number: Risse, Thomas. 2000. ‘Let’s Argue!’: Communicative Action in World Politics. *International Organization* 54 (1):1–39. FOOTNOTE: Risse 2000, 342–43.

WORKING PAPER: Elliot, Jean K. 1994. Why the European Community Strengthens the State. Working Paper 52. Cambridge, Mass.: Center for European Studies, Harvard University.

PAPER PRESENTED AT A MEETING: Note that *IO* style includes an ordinal number for meeting year: Kilroy, Bernadette. 1995. Member-State Control of Judicial Independence. Paper presented at the 97th Annual Meeting of the American Political Science Association, August, San Diego, Calif.

GOVERNMENT DOCUMENT: U.S. Senate. 1984. Committee on Foreign Relations. *Chemical Warfare: Arms Control and Nonproliferation. Joint Hearings Before the Committee on Foreign Relations and the Subcommittee on Energy, Nuclear Proliferation, and Government Processes*. 98th Cong., 2d sess., 28 June. FOOTNOTE: U.S. Senate 1984.

NEWSPAPER OR MAGAZINE ARTICLE: No entry in the reference list is needed; instead, include relevant information in a footnote: *Los Angeles Times*, 4 April 2002, A1. Article titles and authors are omitted except when including them would enhance understanding of points made in the text or the source.

PUBLICATION DISTRIBUTED ELECTRONICALLY: In addition to the usual information, please list the service name, the name of the vendor or Web site providing the service, the URL if material was accessed on the Internet, date material was accessed, and any identifying numbers. Fischer, Joschka. 1998a. Rede aus Anlass der Übernahme der Amtsgeschäfte, Bonn (28 October). Available from http://www.auswaertiges-amt.de/6_archiv/2/r/R981028b.htm. Accessed 15 December 1998. FOOTNOTE: Fischer 1998a.

UNPUBLISHED INTERVIEW: No entry in the reference list is needed; instead, include relevant information in a footnote: Author’s interview with James Murphy, Washington, D.C., July 1990. If the interviewee was promised anonymity, describe the informant as precisely as possible—for example, as a member of a category of individuals—without identifying the person.

UNPUBLISHED MANUSCRIPT: Mastanduno, Michael. 1996. Security Engagement and Economic Competition: Realism and U.S. Strategy After the Cold War. Unpublished manuscript, Dartmouth College, Hanover, N.H.

PH.D. DISSERTATION: Halimi, Serge. 1990. Sisyphus Is Tired: The French Left and the Exercise of Power, 1924–86. Ph.D. diss., University of California, Berkeley.

For questions of style not answered here, please refer to *The Chicago Manual of Style*, 16th ed., or contact the editorial office of *IO*.

Data Sets

International Organization requires authors of papers using quantitative data to provide one of the following to the editors at the time of final submission of accepted papers:

- The data set; accompanying command files, including both for tables presented in the paper and any other specifications referenced in it (e.g., results verbally described); and appropriate documentation.
- A link to an internationally recognized data archive, such as Dataverse, containing the above-mentioned material.

This information will be posted on the journal's replication website at the time of publication as "supplementary materials". Requests for exemptions to the data posting requirement should be addressed to the editors and will be granted in exceptional circumstances only.
