Aims and Scope
The National Institute Economic Review is the peer reviewed quarterly publication of the National Institute of Economic and Social Research (NIESR). Founded in 1938, we are one of Britain’s oldest and most prestigious independent research organisations. Our objective is to promote, through quantitative and qualitative research, a deeper understanding of the interaction of economic and social forces that affect peoples’ lives, and the ways in which policies can improve them. We have no political affiliation, and receive no core funding from government. Our research programme is organised within four groups: employment, macroeconomics and finance, productivity innovation and skills, and labour markets and disadvantage.

Enquiries concerning reproduction outside those terms should be sent to SAGE Publications.

The Review welcomes articles relating to the themes listed on the back cover, with publication dates in February, May, August and November respectively. Articles should normally comprise 4–10,000 words. All articles are refereed. Full notes for contributors are available from Fran Robinson (f.robinson@niesr.ac.uk). Articles intended for publication should be sent to National Institute Economic Review, 2 Dean Trench Street, London SW1P 3HE, or by e-mail to Fran Robinson (as above).
