# ANNUAL REPORT for 1978

## Vice-Presidents and Council

It is with great regret that we record the death of the 4th Earl of Cranbrook on November 22 1978. An active conservationist and parliamentarian, who introduced both the Conservation of Wild Creatures and Wild Plants Act, and the Conservation of Seals Act, he was a member of the FPS Council from 1966 until 1971 and a Vice-President from 1976 until the time of his death.

Three new members were elected to Council: Mr J. M. Knowles, Director of Marwell Zoo, one of the leading zoos in the field of breeding endangered species, including Grevy's zebra and scimitar-horned oryx; Dr R. D. Martin, primatologist and lemur specialist who edited the proceedings of the First World Conference on Breeding Endangered Species in Captivity on behalf of FPS; and Lord Medway (now 5th Earl of Cranbrook) who returns for a second term.

## 75th Anniversary of FPS

1978 was the 75th Anniversary of the Society and a number of events marked the occasion. The most important was the publication of *The Penitent Butchers*. Written by the Honorary Secretary and illustrated by the Chairman, it is a history of the international conservation movement and the Society's part in it. The publication of the book was marked by a reception, at the kind invitation of Martini Rossi, held at the Martini Terrace, New Zealand House, on December 7th, which was attended by the President, Lord Zuckerman, the author and artist, members of Council and friends of the Society.

A Members' Meeting on December 19, closer to the actual date of the foundation of the FPS showed the Society's historic film, *Operation Oryx*. The Zoological Society of London kindly allowed FPS to mount an exhibition in the Elephant House, which created considerable interest among visitors for most of the year.

A lapel badge with the Society's symbol was produced and is still available (now 30p).

## Oryx

Two issues of *Oryx* were published, a 96-page issue in June, and a double issue of 160 pages to celebrate the Society's 75th anniversary in November. The November issue contained an important paper on the status and distribution of the Asian elephant by Robert Olivier, Co-Chairman of the IUCN Asian Elephant Group.

## International Meetings

During 1978 the Society was represented by one or other or all of the Honorary Secretary, Honorary Editor and Executive Secretary, at the following meetings: IUCN Survival Service Commission, Faro, Portugal in February; International Whaling Commission, London, June and Tokyo, December; and IUCN General Assembly and Survival Service Commission in Ashkhabad, Turkmen SSR in September/October.

## Membership

At the end of 1978 there were 423 Life Members, and 2664 Benefactor and Ordinary Members. A new student member category of £3.00 per annum was introduced. The publicity for the plight of the mountain gorilla: a WWF dispatch of *the Penitent Butchers* leaflet and an advertisement in the *New*

*Scientist* brought a total of 208 new members in at the end of the year. After deletions for non-payment of subscriptions membership at the end of the year was 3295.

### Oryx 100% Fund

### Otter Haven Project

The Otter Haven Project, financed by the Vincent Wildlife Trust continued, and during the course of the year expanded to take on three more co-ordinators, so that the area covered could be expanded. A booklet, called *The Otter*, was produced in April 1978, by Vincent Weir for the Otter Haven Project.

### TRAFFIC (Trade Records Analysis of Flora and Fauna in Commerce)

The FPS continues to administer and support the IUCN/SSC TRAFFIC group which continues to expand its operations. A large volume of reports and publications have emanated from the TRAFFIC office, on topics ranging from the East African mollusc trade to that of harp seal pelts. A complete list of publications and reports are available from the TRAFFIC office. A Bulletin (10 issues a year) is now produced, which contains reports and summaries of the international trade in wildlife. Working in close co-operation with the RSPCA, draft guidelines for the transportation of live animals were produced and submitted to the Secretariat of CITES (1973 Convention on International Trade in Endangered Species of Fauna and Flora). TRAFFIC also provided facilities for a detailed investigation into the trade in harp and hooded seals, commissioned by the FPS and funded by the International Fund for Animal Welfare.

### Members' Meetings

The Annual General Meeting was held on July 5th. Charles de Haes, Director-General of World Wildlife Fund International was the guest speaker. After a buffet supper *The Business of Extinction*, a 50-minute film on international trade in wildlife, was shown. This was also a Zoo open night.

On February 10 and 11, a two-day symposium organised jointly by FPS and the Mammal Society, entitled *Mammal Conservation at Home and Abroad* was held. Lord Craigton opened the proceedings, and on the afternoon of the 11th a showing of the Chinese film on the giant panda, courtesy of the Chinese Embassy, closed it.

In 1978 five evening Members' Meetings were held. On March 9 a joint meeting was held with the World Pheasant Association and the Pheasant Trust. Philip Wayne was in the chair and speakers included K. C. R. Howman and Dr T. W. I. Lovel, and a film entitled *Vanishing Pheasants* was shown. On April 25 Dr G. C. L. Bertram, Chairman of the IUCN/SSC Sirenia Specialist Group, gave an illustrated talk on dugongs and manatees. Following the buffet supper the film *Galapagos* by Heinz Sielmann was shown. On October 26 a Gorilla meeting was held, to raise funds for the Mountain Gorilla Project. Dr A. H. Harcourt, co-ordinator of the Mountain Gorilla Project, gave an illustrated talk and following the supper, part of a film entitled *In Search of the Great Apes* was shown, courtesy of National Geographic, USA. On November 21, Dr Brian Bertram showed his 50-minute silent film on leopards, providing his own commentary, and this was followed by a showing of *Tiger, Tiger*, a Survival Anglia film, by courtesy of Lord Buxton and Anglia Television. On December 19 a meeting was held to discuss the problems of the world's arid zones. Speakers included John Knowles, Director of Marwell Zoo, who spoke on the captive breeding of scimitar-horned oryx, and Professor Peter Jewell. The film, *Operation Oryx*, made by Dr Michael Woodford in 1963, was shown.

### Office Work

Although the volume of work and the number of projects handled by FPS has increased dramatically in the last few years, the number of staff actually employed at FPS has stayed steady. Margaret Crooks joined the staff at the beginning of 1978, and is in charge of the film library, and Kay Williams (formerly of IUCN) is now working part-time on the Society's accounts.

The FPS administers or provides facilities for the five Otter Haven Project staff, Jane Thornback (Red Data Book, Mammals) and the staff of four at TRAFFIC.

### Film Library

In 1978 the film library received 120 film bookings, showing to a total audience of over 10,000. The library was expanded by the addition of *The Business of Extinction*, an American TV film about the trade in endangered species, which includes references to the work of CITES and IUCN's TRAFFIC group, whose Chairman is the Executive Secretary of FPS.

### Christmas Cards

For the 75th Anniversary year of the society, Sir Peter Scott painted a group of Arabian oryx and kindly gave it for use as the 1978 Christmas card. Some 25,000 were produced and about half were sold. The Society also sold several other cards and a total over 25,000 were sold. Sales totalled £1912.06. The society's insignia goods continue to sell well.
