International Psychogeriatrics

Issue Theme: Delirium

CONTENTS

Guest Editorial
447 Advancing our diagnostic tools and treatment options for delirium
Dan G. Blazer

Reviews
451 The impact of intergenerational programs on children and older adults: a review
Maria Rosaria Gualano, Gianluca Voglino, Fabrizio Bert, Robin Thomas, Elisa Camussi and Roberta Siliquini

469 Characteristics of the built environment for people with dementia in East and Southeast Asian nursing homes: a scoping review
Joanna Sun and Richard Fleming

481 Effectiveness of multicomponent interventions on incidence of delirium in hospitalized older patients with hip fracture: a systematic review
Tarandeep Oberai, Kate Laver, Maria Crotty, Maggie Killington and Ruurd Jaarsma

Original Research Articles
493 Attention, vigilance, and visuospatial function in hospitalized elderly medical patients: relationship to delirium syndromal status and motor subtype profile
Cara Daly, Maeve Leonard, Henry O’Connell, Olugbenga Williams, Franciscus L. Vink, Walter Cullen and David J. Meagher

503 The Delirium Drug Scale is associated to delirium incidence in the emergency department
Patrick Viet-Quoc Nguyen, Lucie Pelletier, Isabelle Payot and Judith Latour

511 Prevalence and risk factors for delirium diagnosis in patients followed in general practices in Germany
Jens Bohlken and Karel Kostev

519 Development and initial validation of the Retrospective Indigenous Childhood Enrichment scale (RICE)
Cecilia Minogue, Kim Delbaere, Kylie Radford, Tony Broe, Wendy Sue Forder and Suncica Lah

527 Facilitators and barriers to adaptive implementation of the Meeting Centers Support Program (MCSP) in three European countries: the process evaluation within the MEETINGDEM study

539 Antipsychotic polypharmacy in older Australians
Lisa M. Kalisch Ellett, Nicole L. Pratt, Mhairi Kerr and Elizabeth E. Roughead

547 Factors associated with appropriate psychotropic drug prescription in nursing home patients with severe dementia
Klaas van der Spek, Raymond TiMO Kooijman, Martijn Koolen, Erik van Dijk, Phil Sharp, Reinder Bimelaar, Claudia AW Willemsen, Ramin Farshad, Vanessa O’Neill and Verity J. Caulfield

557 The roles of unmet needs and formal support in the caregiving satisfaction and caregiving burden of family caregivers for persons with dementia
Myonghwa Park, Sora Choi, Song Joon, Song Joon, Seok Hyun Koo, John L. Dröes, Bradford Co and Dong Hye Lee

569 Discussing advance care planning: insights from older people living in nursing homes and from family members
Yu Wen Koo, Kairi Kõlves and Diego De Leo

577 A comparison of outcomes according to different diagnostic systems for delirium (DSM-5, DSM-IV, CAM, and DRS-R98)
Catharina Melander, Stefan Sävenstedt, Malin Olsson and Britt-Marie Wälivaara

Brief Reports
591 A comparison of outcomes according to different diagnostic systems for delirium (DSM-5, DSM-IV, CAM, and DRS-R98)
Jens Bohlken and Karel Kostev

597 Use of benzodiazepines and cognitive performance in primary care patients with first cognitive complaints
C. De Andrade, D. L. Vetrano, S. Pomati, C. Mariani and G. Filippini on behalf of the REMIND Study Group (REte Milanese INtegrata per le Demenze)

Letter to the Editor
593 The Delirium Drug Scale is associated to delirium incidence in the emergency department
Patrick Viet-Quoc Nguyen, Lucie Pelletier, Isabelle Payot and Judith Latour

595 Reply by authors
Yu Wen Koo, Kairi Kõlves and Diego De Leo
