CULTURAL REALISM
Strategic Culture and Grand Strategy in Chinese History
Alastair Iain Johnston

Cultural Realism is an in-depth study of premodern Chinese strategic thought that has important implications for contemporary international relations theory. Iain Johnston sets out to answer two empirical questions. Is there a substantively consistent and temporally persistent Chinese strategic culture? If so, to what extent has it influenced China’s approaches to security? The focus of his study is the Ming dynasty’s grand strategy against the Mongols (1368–1644). Johnston’s findings challenge dominant interpretations of traditional Chinese strategic thought.
