Contents

281 Civil liberties and economic development
   Ariel Benyishay and Roger R. Betancourt

305 Fragmented authority from Ancien Régime to modernity: a quantitative analysis
   Mark Dincecco

329 Firms as social actors
   Richard Adelstein

351 Asset commitment, constitutional governance and the nature of the firm
   Anna Grandori

377 The procedure for institutional compatibility assessment: ex-ante policy assessment from an institutional perspective
   Insa Theesfeld, Christian Schlyer, and Olivier Aznar

401 Why evolutionary realism underpins evolutionary economic analysis and theory:
   A reply to Runde’s critique
   Kurt Dopfer and Jason Potts
The Journal of Institutional Economics is an interdisciplinary journal that will be of interest to all academics working in the social sciences, including economics, business studies, sociology, politics, geography, anthropology and philosophy. The Journal of Institutional Economics is devoted to the study of the nature, role and evolution of institutions in the economy, including firms, states, markets, households and other vital institutions and organisations. It welcomes contributions by all schools of thought that can contribute to our understanding of the features, development and functions of real world economic institutions and organizations.

Submission

All manuscripts must be submitted online via the Journal of Institutional Economics website:
http://mc.manuscriptcentral.com/joe

Detailed instructions for submitting your manuscript can be found at the website by clicking on the "instructions and forms" link in the top right-hand corner, and then clicking on the 'Author Submission Instructions' icon on the following page.

The Editor will acknowledge receipt of the manuscript, provide it with a manuscript reference number and assign it to reviewers. The reference number of the manuscript should be quoted in all correspondence with JOIE Office and Publisher.

ARTICLE

There must be no indication of the personal identity or institution of any author of the article within the article itself, or in the "proofread" of the electronic file. Normally, articles (including footnotes and references) must be no longer than 9,000 words. In special cases, such as an extended review or survey article, this limit may be extended to 12,000 words. A declaration of the total word count (including footnotes and references) must accompany the publisher within 30 days of acceptance of the article.

Papers with some formal content will be considered if they fully explained for a general readership, the mathematics is consigned as a footnote, such as anthropology, biology, geography and institutions are important for this endeavor.

"The Journal of Institutional Economics" will be dedicated to the development of cutting edge research within this broad conception of institutional economics. It encompasses research in both formal and empirical technique for their own sake."

"Promotes theoretical and empirical research that enhances our understanding of his institution, role and evolution of socio-economic institutions. JOIE is not interested in the advancement of formal or economic technique for their own sake."

The front page of the electronic file of the article should contain: the title, an abstract of the article (no more than 100 words), five keywords, the Journal of Institutional Economics classification code for the article (containing of a single letter followed by six numeric digits, see www.aou.org/manual/inst/jinst, followed by, and set aside to key words or short phrases.

The manuscript should be kept to a minimum and the Harvard referencing system should be used. Submission of a paper will be held to imply that it contains original unpublished work and is not being submitted by the author for publication elsewhere. The Editor reserves the right to accept or reject articles at his discretion, without reaffirming this statement.
