STUDIES IN SECOND LANGUAGE ACQUISITION

Information for Contributors

For guidelines and requirements regarding manuscript submission, please consult the SSLA website at http://journals.cambridge.org/sla. Click on the Journal Information tab which will lead you to Information for Contributors. Potential authors are advised that all manuscripts are internally reviewed for both content and formatting/style in order to determine their suitability for external evaluation.

**Research Article.** These manuscripts may be essays or empirical studies, either of which must be motivated by current theoretical issues in second and subsequent language acquisition or heritage language acquisition, including methodological issues in research design and issues related to the context of learning. Maximum length is 11,000 words all-inclusive (i.e., abstract, text, tables, figures, references, notes, and appendices intended for publication must all fall within the 11,000 word limit).

**Research Report.** These manuscripts are shorter empirical studies motivated by current theoretical issues in second and subsequent language acquisition or heritage language acquisition, including methodological issues in research design. Very often, these are narrowly focused studies or they present part of the results of a larger project in progress. The background and motivation sections are generally shorter than research articles. Maximum length is 6,000 words all-inclusive (i.e., abstract, text, tables, figures, references, notes, and appendices intended for publication must all fall within the 6,000 word limit).

**Replication Study.** These manuscripts are shorter empirical studies motivated by a previously published study (not necessarily one published in SSLA). The background and motivation sections will necessarily be shorter compared to research articles as the maximum length is 6,000 words all-inclusive (i.e., abstract, text, tables, figures, references, notes, and appendices intended for publication must all fall within the 6,000 word limit).

**State-of-the-Scholarship Article.** These manuscripts are essays that review the extant research on a particular theme or theoretical issue, offering a summary of findings and making critical observations on the research to date. Manuscripts in this category typically fall within the 11,000-word limit of regular research articles; however, longer manuscripts may be considered on a case-by-case basis.

**Critical Commentary.** These manuscripts are shorter essays (i.e., non-empirical) motivated by current theory and issues in second and subsequent language acquisition or heritage language acquisition, including methodological issues in research design and issues related to the context of learning. Maximum length is 6,000 words all-inclusive (i.e., abstract, text, tables, figures, references, notes, and appendices intended for publication must all fall within the 6,000 word limit).

All manuscripts in all categories are peer reviewed and subject to the same high standards for publication in SSLA.
RESEARCH ARTICLE

Toward a Dynamic View of Second Language Comprehensibility
Charles Nagle, Pavel Trofimovich, and Annie Bergeron 647

Native and Nonnative Perception of Western Andalusian Spanish /S/ Aspiration in Quiet and Noise
María Del Saz 673

The Contribution of Psychosocial and Biographical Variables to Heritage Language Learners’ Linguistic Knowledge of Spanish
Julio Torres, Ricardo Estremera, and Sherez Mohamed 695

Absolute Frequency Effects in Second Language Lexical Acquisition
Scott A. Crossley, Stephen Skalicky, Kristopher Kyle, and Katia Monteiro 721

Incidental Vocabulary Learning Through Listening to Songs
Niousha Pavia, Stuart Webb, and Farahnaz Faez 745

Effects of Narrow Reading and Listening on L2 Vocabulary Learning: Multiple Dimensions
Anna C-S. Chang 769

The Role of Input Variability and Learner Age in Second Language Vocabulary Learning
Ruta Sinkeviciute, Helen Brown, Gwen Brekelmans, and Elizabeth Wonnacott 795

The Development of Self-Determination Across the Language Course: Trajectories of Motivational Change and the Dynamic Interplay of Psychological Needs, Orientations, and Engagement
Kimberly A. Noels, Dayuma I. Vargas Lascano, and Kristie Saumure 821

REPLICATION STUDY

The Acquisition of English Definite Noun Phrases by Mandarin Chinese Speakers
Shuo Feng 881

RESEARCH REPORT

Second and Third Language Learners’ Sensitivity to Japanese Pitch Accent is Additive: An Information-Based Model of Pitch Perception
Seth Wiener and Seth Goss 897
