Volume 48, Issues 1-4
eISSN: 1938-5331; ISSN: 0094-8373

Editor-in-Chief

Mark Patzkowsky, The Pennsylvania State University, USA

Editors

Kevin Boyce, Stanford University, USA
James Crampton, GNS Science, New Zealand
Nadia Fröbisch, Museum für Naturkunde, Germany
Wolfgang Kiessling, Friedrich-Alexander University of Erlangen-Nürnberg, Germany

Managing Editor

Jessica Kastigar, Cincinnati, OH, USA

Associate Editors

Nicolás Campione, University of New England, Australia
Laurel Collins, Florida International University, USA
Matt Friedman, University of Michigan, USA
Melanie Hopkins, American Museum of Natural History, USA
John Huntley, University of Missouri, USA
Lee Hsiang Liow, University of Oslo, Norway
Cynthia Looy, University of California Berkeley, USA
Erin Saupe, University of Oxford, UK
Caroline Strömberg, University of Washington, USA
Adam Tomasovych, Slovak Academy of Sciences, Slovak Republic

The Patrons Fund

The Patrons Fund was established to broaden the basis of financial support for Paleobiology and thus to encourage paleontological publication.

To become a Patron, send a check payable to Paleobiology to:
Paleobiology Patrons Fund
The Paleontological Society
P.O. Box 9044
Boulder, CO 80301-9044.

The Paleontological Society gratefully acknowledges the following Patrons of Paleobiology:

DAVID BOTTJER
RUSSELL ENGELMAN
MICHAEL FOOTE
JOHN HANDLEY
SUE HIRSCHFELD
JOHN HUNTLEY
SUSAN KIDWELL

HARUYOSHI MAEDA
GEORGE R. MCGHEE JR.
ARNOLD MILLER
WILLIAM MILLER III
MARK PATZKOWSKY

IN MEMORY OF TOM SCHOPF
ANDREJ SPIRIDONOV
JAMES SPRINKLE
JACEK SULANOWSKI
SHERMAN SUTER
ROGER THOMAS

Aims & Scope

Paleobiology publishes original contributions of any length (but normally 10-50 manuscript pages) dealing with any aspect of biological paleontology. Emphasis is placed on biological or paleobiological processes and patterns, including macroevolution, extinction, diversification, speciation, functional morphology, bio-geography, phylogeny, paleoecology, molecular paleontology, taphonomy, natural selection and patterns of variation, abundance, and distribution in space and time, among others. Taxonomic papers are welcome if they have significant and broad applications. Papers concerning research on recent organisms and systems are appropriate if they are of particular interest to paleontologists. Papers should typically interest readers from more than one specialty. Proposals for symposium volumes should be discussed in advance with the editors.

The Paleontological Society

The Paleontological Society is an international nonprofit organization devoted exclusively to the advancement of the science of paleontology: invertebrate and vertebrate paleontology, micropaleontology, and paleobotany. The Society was founded in 1908 in Baltimore, Maryland, and was incorporated in April 1968 in the District of Columbia. The Society has several membership categories, including regular, student, and retired. Members, representing 40 countries, consist of professional paleontologists, academicians, science editors, earth-science teachers, museum specialists, and undergraduate and graduate students and post doctoral scholars, as well as avocational paleontologists.
