The Dynamics of Conflict in Northern Ireland
Power, Conflict and Emancipation
Joseph Ruane and Jennifer Todd
"...essential reading for those seeking to understand both the specific problems of Northern Ireland and the general character of interethnic conflict....a lucid, up-to-date and well-informed analysis of the historical, political, economic and cultural dimensions of the problem....invaluable and illuminating."
—Professor Hugh Kearney, University of Pittsburgh

Land and Society in Edwardian Britain
Brian Short
A controversial component of Lloyd George's People's Budget of 1909–10 was the "New Domesday" of landownership and land values. This documentation, long locked away in the Inland Revenue's offices, became available to the public in the late 1970s. Dr. Short offers both a coherent overview and a standard source of reference to this valuable archive.

War and Chivalry
The Conduct and Perception of War in England and Normandy, 1066–1217
Matthew Strickland
This is the first detailed study of the behavior in war of the military aristocracy in England and Normandy from the Norman Conquest to the reign of King John (1066–1217). Though methods of warfare are integral to the book, the emphasis is on conduct in battle and siege rather than with tactics and strategy.

The Modern University and its Discontents
The Fate of Newman's Legacies in Britain and America
Sheldon Rothblatt
This is a study of how the internal culture of British and American universities have been shaped over the course of two centuries in relation to external factors such as government, the economy, society and culture. John Henry Newman's classic work, The Idea of a University, provides entry and exit points for this study of the modern university.

Agricultural Rent in England, 1690–1914
M.E. Turner, J.V. Beckett, and B. Afton
This is a study of agricultural rent in England from c. 1690 to the First World War, concentrating on the mechanisms by which rent was paid by tenants to their landlords and building up a rent index that provides a definitive picture of the pattern of rent over the period. The book adds a critical dimension to our understanding of English agricultural history through the period of the so-called agricultural revolution.

Announcing Penguin’s New

HISTORY OF BRITAIN SERIES
GENERAL EDITOR: DAVID CANNADINE

HOPE AND GLORY
BRITAIN 1900-1990
PETER CLARKE
Traces not only the milestones of the nation’s 20th-century decline but the subtler threads of a cultural and social history: the end of the Victorian boom and the first social reforms; the postwar welfare state; and the consumer culture of the late fifties and sixties which led to the eighties economy and its bleak underside. 480 pp.
Allen Lane 0-713-99071-6 $29.95

Praise from the British Press:
“Peter Clarke has written one of the classic works of modern history. His erudition is encyclopaedic, yet lightly and wittily borne.”
—The Sunday Telegraph

“While the reading public for which this series is designed will be borne smoothly along on the wonderfully easy flow of Clarke’s prose, fellow professionals will pause frequently to relish the skill with which he manages the transitions between topics and themes which a general survey continually requires.”
—The Times Literary Supplement

A MONARCHY TRANSFORMED
BRITAIN 1603-1714

Allen Lane 0-713-99068-6 $29.95

Praise from the British Press:
“[Mark Kishlansky] has provided the animated lucid and up-to-date narrative that we need.”
