COPP

**GLOSSARY OF LINGUISTIC
TERMINOLOGY**

by **Mario Pei**

This book is a complete survey of the terminology of descriptive, historical, and geolinguistics. Extensive cross references identify synonyms, near-synonyms, and opposites of terms listed. It is suitable for use by beginners, but the more advanced student will find many of the more involved and technical terms included.

\$6.50

CLARK

ON TRANSLATION

Edited by Reuben A. Brower

This volume contains seventeen essays on translation—its methods, dilemmas and rewards. The eminent scholars and translators who have contributed to this book discuss a great range of subjects: translations of the Bible, poetry, and the classics, through the application of modern linguistics and the problem of multi-lingual influences, to an account of the new methods of machine translation.
