Bilingualism: Language and Cognition

Bilingualism: Language and Cognition is an international peer-reviewed journal focusing on bilingualism from a linguistic, psycholinguistic, and neuropsychological perspective. The aims of the journal are to promote research on the bilingual and multilingual person and to encourage debate in the field. Areas covered include: bilingual language competence, bilingual language processing, bilingual language acquisition in children and adults, bilingualism, multilingualism, sociolinguistics, and community language policies and heritage languages.
